SIMPLE WASH CURES ECZEMA.

Itching, Burning Skin Disease Routed Without Use of Injurious Drugs.

Great inventors often have been praised for surrendering the secrets of their discoveries. Practically the same thing happened in the medical world in the case of Dr. D. Dennis, the eminent skin specialist of Chicago.

Dr. Dennis, in his own office practice, discovered that pure vegetable oil of wintergreen, properly mixed with other simple remedies, was practically a sure cure for eczema, psoriasis, barber's itch, salt rheum, and other itching skin diseases. But the oil of wintergreen alone was found ineffective. It required other mild ingredients such as glycerine and thymol compounded with the wintergreen to produce the real eczema cure.

This compounded D. D. D. Prescription positively takes away the itch at once—the instant it is applied to the skin. This vegetable liquid does away with deleterious drugs so long used in an attempt to doctor the blood, whereas modern science has determined that eczema is first and all the time, a skin disease.

If you want to know more about the merits of D. D. D. Prescription, call at our store. We vouch for this remedy. Pendleton Drug Co.

ST. DENNIS WINS

JURY RETURNS VERDICT FAVORING BIG FARMER

Story of Drunkenness Evidently Believed by the Twelve Men—Will Not Be Compelled to Pay Note for \$5000 and Alleged to Have Been Signed While Drunk.

At 8 o'clock last evening the jury in the Ferguson-St. Dennis case brought in a verdict favoring the defendant, Desire St. Dennis. The verdict marked the end of a long, hard courtroom battle in which D. W. Bailey represented the plaintiff, while Will M. Peterson and Lowell Winter appeared for St. Dennis.

The object of the suit brought was to force St. Dennis to pay a \$5000 note which he had given to Reinhold Harris, the German butcher. The note had been sold to C. J. Ferguson and the suit was brought in his name. The note had been given by St. Dennis as a payment on a piece of property in Walla Walla which Harris was endeavoring to sell St. Dennis.

On the stand St. Dennis declared that he was drunk when he signed the note and had been rankly imposed upon by Harris. A cab driver and others substantiated his story.

RESOURCES OF JOHN DAY.

Fine Building Sand Stone in Large Quantities.

The Pilot Rock Record says of the resources of the John Day country that rich territory of Northern Grant county lying tributary to Pendleton:

Among the undeveloped resources of the John Day country is a superior quality of sand stone that would be found of great value in the construction of buildings. A sample of the stone was brought to the Record office this week by I. G. Bogard from the middle fork of the John Day, and Mr. Bogard says the rock is to be found by the hundreds of tons on his farm and all along the banks of John

Day. It is the same quality of rock used in the outer walls of the new Methodist church in Pendleton and shipped to that town from Union county. The rock becomes exceptionally light after being exposed to the sun. The sample in the Record office, 16x8 inches, does not weigh ten pounds and is as easily cut in two as a piece of wood.

There is no doubt but what this immense deposit of rock would have a commercial value with a railroad into that country.

The first cherry fair will be held at The Dalles tomorrow. It is the purpose of the promoters to make this an annual event.
