ASK COUNTY FOR DYKE MONEY

FREEWATER COMMITTEE CALLS UPON COUNTY COURT

Ask for \$1000 to Complete the Work—About \$3500 Already Collected by Public Subscription—Dyke Would Protect Roads and Property of County.

This afternoon a deputation of Freewater citizens, composed of D. C. Sanderson, editor of the Freewater Times, W. F. Korts, manager of the Freewater cannery, and S. J. Campbell, appeared before the county court to request an appropriation of county funds with which to finish dyking the Walla Walla river to protect the county roads and farming lands near Freewater.

About \$3500 has already been collected in public subscriptions for this fund and the amount has been spent and the dyking is still incomplete and the county has been asked to assist. The county road is threatened in two places near Freewater and it is urged by the citizens of that progressive little town that the county is equally interested with the property owners in protecting the county roads.

D. C. Sanderson is secretary-treasurer of the fund and collections are being made from residents of the vicinity of Freewater with which to complete the work, but it is feared that it will be impossible to adequately protect the roads and property from this source and the court is urged to contribute to the good cause.

At time of going to press the court had not given an answer to the petition of the delegation.

Will Camp in Wallowa.

A party consisting of Rev. W. T. Euster, Jack Houston, Mert Smith of Lewiston and Willie Euster, will leave next week for the mountains in the east end of Wallowa county to camp and hunt for a month.

Have You Defective Eyesight?

If so, place your case in the hands of a competent Optician. We use the latest, most scientific and most thorough method of testing the eyes. We use nothing but the best lenses.

Our charges are reasonable and work guaranteed.

ICE CREAM IN AFRICA.

New Industry for Negro Colony in Liberia.

Consul-General Ernest Lyon reports that a new industry in the form of an ice-cream manufactory has been started in Monrovia under the proprietorship of one of the attaches to the Liberian commission now visiting the United States, concerning which he says:

The machine is of American manufacture, from the New Brunswick Refrigerator company, and has a capacity of one ton. It turns out 500 pounds of ice and 10 gallons of ice cream daily. It is principally an ice-cream machine, but ice is such a rarity that the projector decided to experiment in its manufacture. This is the first effort of its kind in Liberia, and the demand for ice, especially for fever-stricken subjects, influenced the experiment.

The manager declares that the result has been encouraging and will lead to the ultimate enlargement of the plant with a cold storage attached. This enterprise has filled a long-felt need in Monrovia, especially among the invalids of foreign birth. The price of ice at present is four cents per pound and the price of ice cream is \$2.40 per gallon. Under the circumstances this luxury is such a treat in this tropical region that nobody ever stops to consider the price.

City Brevities

Ice cream at Hohbach's.

All kinds of good dry wood. See Minnis.

See Minnis for good, dry wood that burns. Lots of it on hand.

Dressed chickens every day. Stark Poultry House. Phone black 3791.

Andrew Fair, brother of the late James G. Fair and Mrs. Willie K. Vanderbilt, was fatally injured at San Jose Sunday while driving home from Church. The rig was struck by a street car.

COMPANY L IS INSPECTED

LAST ONE BEFORE AMERICAN LAKE TRIP.

Few Vacancies to Be Filled Before Local Organization Leaves for the Big Event of Year—Splendid Outing and Chance for Real Military Training.

Company L was out for quarterly inspection last night and though the attendance was cut down by the fact that many of the men were at work in the country, yet a good showing was made. The inspection was by the company officers and was brief.

The encampment at American Lake is now but a month distant and active preparations for that occasion are now being made. Many recruits have been taken in recently and there are still a few vacancies to be filled. Young men of the proper age, character and physical set-up desiring to join may do so by consulting Dan P. Smythe, commanding officer, or some other member of the company. New men are elected by the company by secret ballot.

A Splendid Outing.

The encampment at American Lake promises to be a splendid outing for members of the company and it will be far ahead of the camp at Seaside last summer, though the latter was pleasant. The company will be encamped with over 6000 troops, consisting of several regiments of regulars and the guards of Washington, Oregon, Idaho and other western states. The principal point of advantage over the camp at Seaside will lie in the greater body of troops assembled.

All guardsmen attending encampment receive pay therefor, officers receiving the regular pay of U. S. army officers, privates \$1.25 per day and non-commissioned officers higher pay in accordance with their rank. Transportation, equipment, fare, etc., are provided by the government for all enlisted men and as a result the men are able to have a good outing without cost.

BACK TO BLACKS.

Negro Girl Refuses to Assimilate and Goes Back to Race.

After 14 years of treatment as a white child Christian Woodyear, the famous negro girl adopted by Mrs. Elizabeth Grannis, president of the National League for Christian Purity, will shortly go back to her race as a student of Booker Washington's Tuskegee Institute.

The attempt of Mrs. Grannis to place her "little brown-skinned baby" on a social equality with her white playmates has failed and little Christian will hereafter sail through life under her natural colors.

Christian became nationally famous when her playful antics resulted in the disruption of the congregation of which Mrs. Grannis is a member.

Ideal Club.

The Ideal club will hold a social gathering at the home of A. J. Owen, 305 Thompson street, Friday night. A social time will be had and some fireworks have been provided for by the young ladies for the occasion. Special entertainment and refreshments are special features of these meetings for the young people.

O. R. & N. Train Delayed.

No. 1, the westbound O. R. & N. passenger train of yesterday, was delayed about three hours by a small wreck at Hilgard. A freight car in train No. 23 was derailed near that place and the passenger train was held for three hours while the track was being repaired.

The Bering ice pack is said to be the worst in the memory of man. The first vessel to Nome was blocked an entire week as late as June 7.

Hot or Cold Bottle

The new vacuum bottle, will keep contents hot for 24 hours, warm for 48 hours, and cold for 72 hours. Two sizes, pints \$5.00, quarts \$7.50.

THE DRUG STORE THAT SERVES YOU BEST.

"Known For Its Strength"

What It Means

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

A Bank's Capital

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

This bank has a

Capital of	200,000.00
Surplus Fund of	50,000.00
Undivided Profits	25,000.00
Additional Shareholders	
Liability	200,000.00

A TOTAL OF **475 000.00**

This means that this bank must lose practically half a million dollars before its depositors could lose a cent.

This protection is for **YOU**.
