GANS IS FAVORITE.

Supremacy of Two Fighters Will Be Finally Decided.

San Francisco, July 3.—On the eve of the battle between Joe Gans and Battling Nelson for the world's lightweight championship honors, the negro is a decided favorite.

Bookmakers predict that many heavy wagers will be made before the men enter the ring tomorrow. Nelson and his backers are confident that he will win a victory over his old time foe, but this opinion is shared by only a small proportion of the sporting experts congregated in San Francisco today to witness the mill. According to the articles of agree-

ment, the bout will take place tomorrow afternoon at Croffoth's Mission Street arena and is scheduled to go 45 rounds. The winner will receive 60 per cent and the loser 40 per cent of the 70 per cent of the gross proceeds which will go to the fighters. The men will weigh in at 133 pounds at the ringside stripped.

Jack Welsh has been agreed upon clinches and this condition is thought to be the effect that the referee must not put his hands on the men if they should be in a clinch. They must step back at his command. This clause was inserted at the request of Nelson's representative. The Dane never clinches, and this condition is thought to favor him. It was considered of so much importance by Ben Selig that he had a special conference with Gans before he agreed that it be made a part of the articles. Nelson does his most effective work at infighting, hence this is expected to be in his favor.

There is every indication that a record breaking crowd will witness the encounter, anxious to see settled the dispute which Nelson and his supporters have tried to keep up ever since that memorable battle at Goldfield on September 3, 1906.

There has never been any doubt in the minds of the fair ones as to the outcome of the struggle, for only the prejudiced gave any consideration to the ridiculous claims of Nelson that he had been robbed of a victory, but the Dane and his immediate followers have not missed a single opportunity to question the right of the negro to the lightweight championship title, and repeated challenges for another contest have been mingled with the numerous attempts to harm the fistic standing of the colored man.

Now it is all to be settled in the ring and if the apparent form of the two men during the past year counts for anything the Dane is in for a worse beating than he received at Goldfield, and a beating, too, that will leave no room for arguments in future.

PROHIBITION EMPTIES JAIL

NOT AN ARREST FOR DRUNKENNESS SINCE FIRST

Remarkable Record for Pendleton Since Saloons Were Closed—Usual Bunch of Drunks and Disorderlies Fail to Answer "Here" When Judge Fitz Gerald Calls the Roll.

That Pendleton is a "dry" town in reality as well as in name is evidenced by the showing of the police court during the past few days. Since June 30 not a single entry has been made upon the "book of fate" in the police headquarters and the usual bunch of drunks and disorderlies have been absent from the 9 o'clock court sessions. Though arrests have been made since the first of the month, they have been special cases, such as fighting, and the city bastille has not been brought into use. It is not recalled that there have ever been three days in succession before when the city jail was not used to house all the way from one to a dozen drunks.

The party will drive from here to Joseph and from there will pack their camping outfits on the horses and will go into the Eagle mountains between Walla Walla and Baker counties where a few mountain sheep are yet to be found. In that vicinity is Eagle Cap peak, said to be the highest peak in Oregon. They will be absent about a month and expect to find some excellent fishing and hunting among the snow capped peaks of the Eagle range.

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

This bank has a
