MILITIA PART OF ARMY.

Idaho National Guard Takes "Third Degree in Soldierism."
One of the most important military orders locally ever received is general order No. 99, says the Boise Capital News. This order affects the entire organized national guard of Idaho and makes it a first reserve of the regular army in every way.
According to the order the entire national guard of the state may be called out by the president without the permission of the governor or in spite of it. This is not only for service within the state or the United States but for service in any part of

the world. The order also provides that the national guard must be called into service in advance of any volunteer force which it may be determined to raise.

When the president calls the national guard into the service of the United States there will be no further enlistment or medical examinations, as the troops are already considered a part of the regular establishment. Any officer or man who fails to respond to the order of the president may be tried by a court martial and punished the same as officers and men of the regular army.

LEWISTON TRAIN SERVICE.

Double Daily Service to Be Inaugurated Tuesday.
The train schedule on the Lewiston-Riparia line will be inaugurated on July 7, according to advices received in the city today, says the Lewiston Teller. The schedule for the operation of the new line has not been received, but is expected to be in the hands of General Agent C. W. Mount by tomorrow.
From information received it is expected a double daily service will be installed. The equipment for the new line has been ordered, and is expected to be delivered at Riparia on July 6. If the former plans are carried out, the company will operate a passenger train with Pullman service out of Lewiston in the evening to connect with the Portland-bound train at Riparia. The Pullman coach will be attached to the Portland train, thus eliminating the necessity of the passengers changing cars. This train will return to Lewiston in the morning, leaving Riparia immediately after the arrival of the train from Portland. It is understood the second train will leave Lewiston in the morning and will make close connections with the morning Spokane-Pendleton train at Riparia. This is the service that will shorten the route into Chicago and eastern points by 10 hours, and is expected to draw a large percent of the eastern travel from all sections of the central Idaho country.
The local office of the O. R. & N. company has not been advised as to the freight service to be inaugurated, but it is expected the first schedule published will provide for the operation of all departments of the service.

An organized effort will soon be made to find Gustave Gustafson, who disappeared from Aberdeen a week ago. He had been suffering from ill health and took a rope with him. It is believed he may have committed suicide.

A party of 20 Lewiston business men and property holders will make an inspection of the paving in Seattle and Portland. The paving question has been a burning issue in Lewiston.

COFFEE

There is a time for good tea, and a time for good coffee; there is no time for poor either.

Your grocer returns your money if you don't like the Schilling's Best, we pay him

Churches

Christian Science.
Corner Webb & Johnson streets. Church service at 11 a. m. Subject of lesson sermon, "God." Sunday school at 10 a. m.; Wednesday meeting at 8 p. m.; reading room same place from 2 to 4 p. m.

LINE OF NEW ROAD

OUTLINE OF PASCO-SPOKANE.
KANE DIVISION GIVEN.

President H. M. Adams of North Bank Goes Over Line of New Road—Track Is Laid a Distance of 25 Miles—Line Follows Snake River to Snake River Junction.

A drive overland along the line of the Pasco-Spokane extension of the north bank road has just been completed by H. M. Adams, general passenger and freight agent, for the purpose of looking at the country tributary to the line, says the Oregon Daily Journal. The railroad is in a stage of half completion and progress for some time will be reared by the building of tunnels and bridges. The entire road will be one of remarkably low gradient.

Track is laid for a distance of 25 miles east from Pasco. The line follows the Snake river to Snake River junction, a distance of 250 miles from Portland, and to this point the north bank road's maximum grade is only two-tenths of one per cent. Beyond that the grade to Spokane is never greater than four-tenths of one per cent. The road will be completed from Portland to Cheney about next January.

Building eastward from the Snake river the line follows Devil's canyon to Kahlolus, where it passes through a 1000-foot tunnel under a mountain and comes out at Kahlolus lake. This lake in high water seasons partially floods the town, and the railroad company is constructing a permanent ditch through the tunnel, and will drain the lake on a grade that will lower its normal surface four feet.

From Kahlolus the road follows the Washuena coulee to a point opposite Hooper, thence east and north to Spokane. The grade for 100 miles north-east from Page is nearly completed. The road crosses the O. R. & N. line overhead at a point near Washuena, and also has an overhead crossing over the new main line of the Chicago, Milwaukee & St. Paul at Rock Creek.

Track is also laid between Cheney and Rockwell, a distance of 25 miles. From Rockwell to Pasco much of the grade is completed. There a number of very costly steel viaducts are to be built in the effort to make the road a straight line with practically a water level.

The entire line from Pasco to Spokane will be second only to the Columbia river route in expensive construction. East of Cheney, to Spokane construction work is hung up owing to inability to agree on grade separation between the railroads in Spokane. The entire line runs through a great wheat and livestock country that will drain directly to Portland.

BIG REAL ESTATE DEAL IS CLOSED

LeHane Ranch on the Bench Sold by the Christian Church.

Today a deal was closed by which the LeHane ranch located on the bench about 2 1/2 miles west of the city, passed into the hands of Frank Martin, M. E. Hopkins, L. L. Folsom and Charles Storey. The consideration being \$34,000, says the Boise News.

This property was sold about a year ago by Mr. LeHane to the Christian church of this city to be used as a site for a university. But it appearing to those promoting the enterprise that the conditions were not right for locating a university in southern Idaho at this time, the enterprise was abandoned and the property was sold by the church people as above stated. The ranch consists of 160 acres which is situated on the line of the Boise valley railroad, between Boise and Meridian. The railroad passes on the east and north sides of the tract, making it especially desirable for suburban homes.

It is the purpose of the purchasers to subdivide this tract into two and one-half and five-acre lots and put it upon the market at once. The plat will be completed and filed in a few days and it will be named Ash park. The owners are preparing to push the sale of the property and beginning July 6 will run a special car each day over the Boise Valley line to the property, furnishing free transportation to all parties desiring to examine this beautiful tract of land, with a view of purchasing.

The New Y. M. C. A. Home.
The people of the town of North Yakima have made up a donation of \$75,000 for the building of a Y. M. C. A. home. The ladies of the city wanted to be recognized independently in the project and proceeded to donate the furnishings for the home, which meant another \$12,000.

Arm Pulled Out.
John Henley met with a severe accident at Pomeroy, Wash., the other day. He was oiling a shaft when his sleeve caught and he was pulled to the small opening through which he had reached. His arm was pulled out of the socket and he was otherwise badly bruised. He will recover.

ANOTREDADELADY'SAPPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, Sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home, as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes. If the above interests you, for proof address Mrs. M. Summers, Box R. Notre Dame, Ind.

"Known For Its Strength"

What It Means

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

A Bank's Capital

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

This bank has a

Capital of	200,000.00
Surplus Fund of	50,000.00
Undivided Profits	25,000.00
Additional Shareholders	
Liability	200,000.00

A TOTAL OF **475 000.00**

This means that this bank must lose practically half a million dollars before its depositors could lose a cent.

This protection is for **YOU.**
