will be very good considering the dry season.

Bert E. Perry, formerly of La Grande, but now Oregon manager for the Continental Casualty company of San Francisco, is in the city today on a tour of the O. R. & N. lines in the interest of the company.

### SEATTLE FAIR PROGRESSING.

Government Will Spend \$600,000 as Required by Congress.

Seattle, July 6.—With more than 10 months in which to work before the opening day of the Alaska-Yukon-Pacific exposition, the 1909 fair is in an advanced stage of completion, and there is plenty of funds in the treasury with which to complete it.

All international expositions receive more or less adverse criticism, as to the progress of the work and the financial condition of the organization. In some instances this criticism is justifiable, but in the case of the Pacific world's fair the officials have carried out their tasks so successfully that there are no foundations for insinuations that the exposition will not be a success in every way.

The United States government is preparing to expend its appropriation of \$600,000. As required by the bill passed by congress, the exposition management now has more than a million dollars in assets. The total capital stock of \$800,000 has been fully subscribed. With \$180,000 in county appropriations and a donation of \$15,000 by the Arctic Brotherhood, a fraternal organization, the assets reach more than a million. This is exclusive of the \$1,000,000 appropriated by the state of Washington, the various other state appropriations for participation, the sale of concessions and exhibit space and foreign appropriations.

Of the total government appropriation, \$250,000 will be used for the following buildings: Main government, Alaska, Hawaii, Philippines and fisheries industry. The remaining \$350,000 will be expended for the collection and installation of exhibits.

Work on the grounds is about 60 per cent completed. Two of the largest exhibit palaces, the manufactures and agriculture buildings, twin structures, are entirely finished. The machinery hall, one of three permanent brick buildings, is completed, while the auditorium and fine arts palace, the other two permanent structures, are rising rapidly. The administration building, emergency hospital and fire station have been finished for some time. The mines building is having its staff put on and the fisheries palace is far beyond the foundations.

The Oregon building will soon be completed, while work on the Washington, California, Missouri, New York state buildings will be started sometime next month.

### AMERICAN LAKE CAMP.

Maneuver Grounds Are Ready for the Big Summer Drill.

United States engineers have the maneuver grounds at American Lake all laid out and everything is now in readiness for the summer of mimic warfare, which is to be carried on by regular army and national guard troops. This report is made by Adjutant General W. E. Finzer, who returned yesterday from an inspection of the grounds, in company with Brigadier General Brush, commanding the department of the Columbia, says the Oregonian.

"Oregon and Washington are to go in camp at the same time, together with several regiments of regular infantry, cavalry and artillery," said General Finzer yesterday. "The national guards of these two states will take the field for 19 days, beginning August 3, and will be preceded and succeeded by other coast and western regiments."

"The Oregon camp is already laid out. It is located just east and south of Murray station, across the railroad tracks and not more than 500 yards from the railway station. It is an excellent site and will be occupied by the third and fourth Oregon regiments, signal and hospital corps detachments."

"There will be little brigade work this year, I learned. Most of the maneuvering will be such as to develop regimental, battalion and company efficiency. There will be a great deal of company work. Rear guard maneuvers and scouting will take up a great deal of consideration. All the troops are to be kept busy and the maneuvers promise to be the most interesting yet held at American Lake."

### Oregon Pioneer Here.

Ellas Keeney, father of J. M. Keeney of this city, and a well known Oregon pioneer now residing in Portland, is in the city for a few days, visiting his son and old time friends. He was the guest of Mr. and Mrs. James Crawford yesterday, having been an acquaintance of the Crawford family for the past quarter of a century. Mr. Keeney is over 80 years of age, but is yet in good health and quite active and is enjoying his visit to Pendleton very much.

### In the Roosevelt Chair.

Professor Felix Adler of New York will fill the Roosevelt chair for 1908 at the Berlin university, and the German scholar who comes to Columbia is Max Verworm of the University of Göttingen. For 1908-10 the American professors selected to go abroad are President Benjamin Ide Wheeler of the University of California and Professor William Morris Davis of Harvard. Dr. Verworm is one of the most distinguished of living physiologists.

Many national associations are planning to hold their 1909 meetings at the Alaska-Yukon-Pacific exposition. The handsome buildings and interesting exhibits of the \$10,000,000 world's fair, combined with the unsurpassed scenery and climate of Seattle, makes the metropolis of the Pacific northwest an ideal convention city.

# Our Mid-Summer Sale

## Commencing Tuesday, July 7, and Continues Until August 1st.

Watch our ad you'll see everything you need at cost price and less, we give you the golden opportunity of your life to buy your SUMMER'S NEADABLES at the right price, we must make room for our new Fall Merchandise, which will be coming in about Aug. 1st. No trouble to show goods.

Buy of us and it's all right

### "Known For Its Strength"

## What It Means

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

### A Bank's Capital

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

Capital of . . . . .	200,000.00
Surplus Fund of . . . . .	50,000.00
Undivided Profits . . . . .	25,000.00
Additional Shareholders	
Liability . . . . .	200,000.00

A TOTAL OF 475 000.00

This means that this bank must lose practically half a million dollars before its depositors could lose a cent.

This protection is for YOU.

### Fine Schedule of Races.

One of the best and most carefully selected race programs ever put on any track in the inland empire will be run off at the Interstate fair to be held this fall at Spokane, October 5 to 10. Every indication points to the best speed events ever seen on the Spokane track, and as indicated by the list of entries in the early closing races, some of the best horses in the Pacific coast circuit will be seen at Spokane this fall. Over 200 horses have been entered on the early closing races. The time for these entries expired May 25th, and every one of the eight trotting and pacing events were well filled.

All the news all the time in the East Oregonian.

### AMUSEMENTS

#### New Dime Pictures.

There is a splendid set of moving pictures at the New Dime, among them being that beautiful story in late colorings, "The Blue and the Grey." There is also a new set of illustrated songs, sung by Robert Fenner, the young man who has been there for the past week. Altogether, the program is good. There will be another change at this popular place tomorrow.

#### Pastime Pleases.

The usual large crowds were at the Pastime yesterday, a set of new pictures being shown there, all different and up to date, in the beautiful colorings. The management announces another good program for tomorrow.

#### Dime Attracts.

The Dime has been showing a handsome lot of moving pictures the past few days, among them being the story of "Romeo and Juliet" in the late colorings. This is a beautiful story and appears very realistic in the pictures. There will be a change tomorrow.

#### Eagle Pictures.

The pictures at the Eagle Show Shop have been attractive during the past few days, and the management announces some clever changes this week, with new illustrated songs. There will be another change here tomorrow afternoon.

#### Long Trip by Automobile.

Frank Everett of Chehalis, Wash., accompanied by his wife, 5-year-old daughter Katherine, Miss Henrietta Fessenfeld, a sister of Mrs. Everett, and John Pfeffer, the chauffeur, arrived in Portland yesterday in their automobile in which they had traveled from Denver, Colo., says the Sunday Oregonian. The entire trip was made in the machine with the exception of the 88 miles from The Dalles to Portland, for which the party took the steamer Dalles City. The party left Denver May 23 and traveled leisurely all the way. During the first three weeks out from Denver, the journey was delayed greatly by reason of frequent rain and wind storms and one stop of ten days was made while waiting for a new spring hanger to replace one broken en route. The trip from Boise, Idaho, to Portland was made in four days.

NOTICE IS HEREBY GIVEN, That the undersigned will receive bids at his office in the City of Hood River, Oregon, up to July 15, inclusive, for transcribing and indexing all records of Wasco county in any way affecting real estate situated in Hood River county, all transcripts to be type-written in record books to be furnished by Hood River county. Bids should specify the amount per folio of one hundred words for transcribing and indexing said records separately. A bond in the sum of \$3000 will be required to insure the faithful performance of the contract. The right is reserved to reject any or all bids. A. J. DERRY, County Judge of Hood River County.

If you see it in the East Oregonian, it's so.

### Hot or Cold Bottle

The new vacuum bottle, will keep contents hot for 24 hours, warm for 48 hours, and cold for 72 hours. Two sizes, pints \$5.00, quarts \$7.50.
