**Grading New Road.**

A special to the Lewiston Tribune from Grangeville, Idaho, says: The work of clearing the right-of-way for the Johnson railroad at the point where Contractor Swanson has a grading contract is now in progress and the grading work there will be commenced tomorrow. The work of clearing the ground embraces the cutting of the growing grain along the right-of-way. Contractor Olson will also begin work tomorrow, he having taken equipment today to the section of the road that will be handled by him. About three-fourths of the right-of-way for the line has now been secured. In two or three instances it might be necessary to condemn on account of the prices asked by the owners of the property. These instances are few in number and apply to sections of the road where much of the grading had already been done by the Lewiston & South-eastern company. Therefore the situation will not retard the grading operations on the new road.

Next Saturday there will be an important meeting of the farmers' unions of the county held at Gifford. The Nesperce union, which has the largest membership in the county, will send 18 delegates to the meeting. A num-

Mrs. James P. Navin of Touchet, Wash., came down this morning from Weston and will leave Monday evening over the Northern Pacific for her home. She is the guest of her daughter, Mrs. Lee McAttee while in the city.

W. D. Chamberlain, formerly in the implement business in Athena, returned to that place today after a business trip here. He is undecided as to what he will do in future but does not feel that he will leave Umatilla county.

J. W. Fox, agent for Hanford irrigated lands came down today from Walla Walla on a brief business visit. Land sales in Hanford continue and he looks for a fine little city there and a highly cultivated irrigated section within a few years.

Attorney Oliver P. Morton of the reclamation service, is in the city today. He met Secretary Garfield in Portland Thursday in the interest of the Umatilla project, and was with the Garfield party in going over the project yesterday.

**Business Is Better.**

Receipts for June on incoming merchandise at the O. R. & N. depot, together with passenger receipts, were \$1000 greater than in June, 1907, which were correspondingly greater than the June receipts in 1906, says the Weston Leader. In fact, the receipts from these sources are nearly three times the volume they were three years ago, and Agent Walters is an exceedingly busy man at present. Merchandise—which term is meant to include dry goods, clothing, groceries, hardware and implements—is now coming into Weston at the rate of 100 to 110 tons per month. Those who incline to the pessimistic theory that Weston is "losing trade right along" would do well to paste this item in their hats and study the figures occasionally. They certainly indicate a gratifying condition of local trade, and show that the "Wall street panic" last fall passed us by without any damaging local influence.

It may be old-fashioned, but we always did prefer our shirt sleeves to a "smoking jacket."

### REVOLUTIONISTS TAKE HONDURAS CITIES.

Managua, Nicaragua, July 11.—Revolutionists have risen against the Davila government in Honduras, threatening Santa Barbara. They have already captured Choluteca, which is one of the most strongly fortified ports in Honduras. The fighting lasted three days and many were killed and wounded.

Washington, July 9.—It was announced at the state department today that an American battleship will be sent to Port Amalpa, Honduras, to investigate the report that Honduras revolutionists are rapidly pushing forward with a view to capturing the city. From the tenor of the telegrams no apprehension is felt that the dispute will involve Central American republics.

### THREE IMPORTANT DECISIONS.

(Continued from page 1.)

government irrigated lands is impossible. Residents of cities either adjacent to or at a distance from reclamation projects cannot hold land under a government project, while residing at their homes in the city. The land holder must be an actual settler. Unless he is an actual settler he cannot secure water with which to irrigate his land, and it would remain practically worthless.

This decision of the secretary settles the mooted question as to whether residents of Pendleton can hold land and secure government water under the government irrigation project.

**All Praise Umatilla Project.**

The government officials in the party, including Secretary Garfield, Chief F. H. Newell of the reclamation bureau, and Chief Engineer Arthur P. Davis of the reclamation bureau, all spoke highly of the Umatilla reclamation project. That it is one of the very best projects now under construction by the department was attested by all of these gentlemen and that the land prices and productiveness of this project will be unsurpassed by any of the other projects in a few years is their belief.

A complete inspection was given the entire project by the officials yesterday and they unhesitatingly declare that it is one of the most complete and thoroughly practical projects in the service. The work of construction has been well performed and when fully completed it will be an asset of inestimable value.

**May Extend the Project.**

Chief F. H. Newell of the reclamation department intimated to the East Oregonian last evening that it was the intention of the department to extend the Umatilla reclamation project across to the south side of the Umatilla river to reclaim the vast tract of excellent land lying in the western border of Umatilla county and in the eastern portion of Morrow county. This land is yet withdrawn from settlement in the original Umatilla project and it will perhaps not be opened to settlement but will be retained as an extension of the East Umatilla project to include that fine body of land lying south of Umatilla and adjacent to Irrigon.

According to Mr. Newell the foundation for an immense project has been planned in the great reservoir just completed for the Umatilla project. Ordinarily this reservoir has a capacity large enough to supply perhaps four times the land under the present project. That the ditch and canal system will some day be extended across the Umatilla river and on west into Morrow county is the belief of the officials.

However, nothing will be done with this extension until the present project is complete in every detail and is producing crops and "making good."

By extending the canal across the river about 40,000 acres additional could be secured.

**Loses \$500; Good Joke.**

Tacoma, July 11.—Willie Collier, the comedian, was robbed of \$500 by thieves who broke into his trunk while they were being carried from Bellingham to Tacoma. A roll of money was taken. One of the trunks broken into belongs to his sister. Collier regards it as a big joke on him.

**AMUSEMENTS**

**Good Pastime Pictures.**

The program of motion pictures which is on at the Pastime at this time is among the very best shown there, and it will continue over to-night. Tomorrow there will be another entire new change. Among those which have been shown the past two days were "Student's Predicament," "Magical Suit of Armour," "Scottish Highlands," which is especially beautiful, "Dr. Jenk's Liquid Life Restorer" and the illustrated song, "I Am Starving for One Sight of You."

**The Dimes Please.**

The two Dimes have been pleasing the usual large crowds the past few days with their pictures, and the management announces some new and clever changes for Sunday crowds. New illustrated songs will be sung by Robert Fenner at the New Dime. New pictures in colorings will be shown at both places. The pictures are good today and are drawing well.

**Show Shop Change.**

The Show Shop has been showing some especially clever pictures the past few days, among them being "The Clown's Revenge," "Bell Ringing's Daughter," "Old, Old Story," with the illustrated song "The Lanky Yankee Boys in Blue." There will be another change here tomorrow.

### HIDAWAY SPRINGS

PROPRIETOR SAYS SUMMER RUSH IS NOW ON

Many Already There from Pilot Rock and Pendleton—Dam Forms Lake of 22 Acres—Dancing Pavilion on Island in Center—Good Rowing and Fishing.

William Scott, proprietor of Hidaway springs, the popular resort in the south end of the county, was here yesterday on a trading trip and says the rush to Hidaway is now on. Many people from Pendleton and other points of the county are now congregated there and others are arriving daily.

Among those now at the springs are J. T. Hinkle and family of this city, Douglas Belts and J. P. McManis and wife of Pilot Rock, Mrs. John Murphy, the Sturdivants and others. S. H. Forshaw and family left this morning for the resort.

A large lake, covering 22 acres, has just been created by Mr. Scott through a dam which he placed in Hidaway creek. The lake will be used for rowing and fishing and will be a splendid addition to the attractions of Hidaway. The dancing pavilion will be located on an island in the lake.

It is also Mr. Scott's intention to spend considerable money next year in improving the swimming pool.

On the Fourth of July the guests then assembled at Hidaway held a celebration that fittingly observed the day.

On Tuesdays and Fridays the stage from Hidaway connects with the Umatilla Central at Pilot Rock.

### PILOT ROCK HARVEST.

Frank Michaels Commenced Work With a Full Crew Wednesday.

Frank Michaels, the well known farmer, commenced his season's work Wednesday, when he pulled into a field of barley owned by Charley Manning, two miles east of town, says the Pilot Rock Record. From here Mr. Michaels will move his outfit onto the reservation, where he will commence cutting his own crops, which

he says are looking fairly well, all things considered. The barley crop with few exceptions, will average well.

According to Mr. Michaels there is no scarcity of men for the harvest field this year, despite the fact that wages are somewhat lower than last year. Mr. Michaels said: "I have never before seen so many idle men at this time of year. I had no trouble in getting all the men I wanted at Pendleton Tuesday and I did not have to hunt for them either. Scores of men are awaiting an opportunity to get out of Pendleton where they have collected to find work in the harvest fields. Last year they wanted farmers to move their grain fields into Pendleton, as they did not care to take the time to go into the country, but this year they are more than anxious to go to where the work is to be done."

### Held for Diamond Robbery.

Duncan Ferguson, who arrived at Nainaimo, B. C., from Rossland on a visit this week to his old home, was arrested on suspicion of being implicated in the recent \$12,000 diamond robbery from the firm of Stone & Knight at Rossland. A crown set with diamonds was found on him, which the prisoner says was given him by a friend eight months ago. He says the stones are not genuine. The diamonds are being examined by an expert.

If you see it in the East Oregonian, it's so.
