on the Prinz Wilhelm IV of the Royal Dutch West Indian Mail service.

Through the influence of friends the men learned on July 4 that an order for their arrest had been issued. The telegram received at Port au Prince was said to have borne the name of Nord Alexis, president of Hayti, and to have read in part: "Take the men from their beds and shoot them at once."

Valbrune and Theodule stood high in Haytian circles and had many friends in the service of the government. Realizing that immediate action was imperative, they conferred with officials who were friendly and arranged to have the telegram held in the receiving office at Port au Prince until 2 o'clock in the afternoon of July 4. The Prinz Wilhelm IV was scheduled to steam for New York at 1 o'clock. The two condemned men gathered together a few pieces of baggage and went aboard the vessel.

When the telegram was delivered the Prinz Wilhelm IV had steamed away an hour before and the men were beyond the jurisdiction of Haytian law.

MOSQUITOES AT THE DALLES.

Reported That Bloodsuckers Are More Numerous and Vicious Than Ever.

Many here believe the genus mosquito is more numerous and more vicious this year than ever before in this city. One thing is quite certain, these voracious insects are assuming alarming proportions; they are large, strong fellows; this year they seem to have no song whereby their victim is warned of their proximity; they come gliding down from unseen space, and gently lighting at once as Webster says of the female mosquito, "with their six fine, sharp needlelike organs of the proboscis, puncture the skin of man to suck the blood. These bites, when numerous, cause, in many persons, considerable irritation and swelling, with some pain."

A party of people were seen the other evening enjoying out of doors, when biff! bang! and a mosquito was cast into bug heaven, and slap went a hand with a whack that would have annihilated a large sized dog; the mosquito lay quite dead. And so it was every few minutes, that the battle against the poor, little tender insect was waged and many there were slain, never to rise again.

The poison left by the bite of the mosquito this year seems to be severe and the place bitten is soon swollen and unpleasant to bear. The insect this season seems to be quite as large as the proverbial New Jersey variety. The Dalles Chronicle.

SUNDAY BOOZE ON TRAINS.

Movement in Washington and Idaho to Stop Sales.

The Spokane Chronicle says: There is no reason why the Sunday-closing law for saloons and bars should not be uniformly enforced. At present liquors are sold openly on dining cars and buffet cars on the Northern Pacific Palouse branch and possibly on other branches of the system which run through this county and through Idaho.

There is a law prohibiting the selling of liquor in Idaho on Sunday, and no liquor is supposed to be sold in this county on that day, but the waiters on the cars openly sell beer and other beverages, laughingly saying that they "just run around the law."

It would be easy to enforce the laws on this subject. Dining cars will sell no liquors in the Dakotas, and if those states can compel respect for their laws, Idaho and Washington should be able to do likewise.

Engle Change.

The Show Shop has a change of motion pictures this afternoon, and the management announces that it will remain on until Friday, giving everyone a chance to see the story of "Davey Crockett" in beautiful colorings, and several others equally as good, with a fine new illustrated song.

Pastime Pictures.

The Pastime has a change of pictures today, among them being "Bully and Recruit," "The Antiquary," "Around the Coast of Brittany," "Lost Pocketbook," "Fond of His Paper," and the illustrated song, "When Summer Tells Autumn Goodbye."

Oregon Grand Army men and Women Relief Corps members have endorsed Department President Cora M. Davis, of Union, for national president for the national encampment at Toledo, O., in September. Resolutions to this effect were passed at Newport, where the old soldiers and the Women's Relief Corp recently held their annual encampment. This high honor will be sought for by many, and it is even a compliment to be the choice of the state organizations. It is to be hoped that the will of the Oregon W. R. C. will prevail at the national election.

been negotiated some Californian industry has been positively injured. "The new tariff law will be upon a maximum and minimum basis, if the republican party remains in control of congress next session," declared Mr. Kahn.

Congressman Knowland, who arrived just before the meeting adjourned, addressed it briefly, saying in part: "I don't believe we are taking this up a moment too soon. You must remember California's representation at Washington is small when standing alone, and I particularly favor seeking the cooperation of the other Pacific coast states, to the end that we may fight together for what we need and work in harmony to secure it."

NEW FERRY AT UMATILLA.

J. B. Switzer and James Acheson Start New Enterprise.

A special correspondent now touring Umatilla county for the Oregon Daily Journal, says of the new ferry at Umatilla:

Owing to the enterprise of J. B. Switzer, an old-time Oregonian, and James Acheson, both of Umatilla, a new ferry has been established between that place and Plymouth, on the north bank of the Columbia river. The boat is the joint product of their ingenuity and labor and is capable of transporting from 50 to 60 head of horses or cattle at a single trip.

Through this new means of transportation the rapidly growing Yakima and Umatilla districts are brought into convenient relations and as a result the owners are congratulating themselves upon its completion and the fact that it is at last in actual operation.

In dimensions the new craft is 53 1/2 feet in length over all, with a beam of 16 feet. It carries a 20 horsepower gasoline engine and its construction cost the owners in the neighborhood of \$2000.

The citizens of Umatilla are inclined to regard this latest transportation undertaking as a good omen and to look upon it as the harbinger of the era of improvement and growth toward which they have been looking ever since the United States government began the construction of the important irrigation project in the neighborhood of the town.

on the mysterious findings of Arthur M. Tinker, an inspector sent here to investigate the whole affair. He made certain recommendations after coming to the conclusion that I was holding the land for my uncle, George Peringer.

"Such conclusions were without good foundation and were exceedingly longdrawn. This fact, I substantiated when at the office of the secretary of the interior during the first part of May.

"There was nothing in the report of Arthur M. Tinker which involved me in any criminal manner. This fact Mr. Garfield and Mr. Price recognized upon my own showing at the interior office. Mr. Pierce turned through the entire report of Inspector Tinker page at a time and was exceedingly familiar with the whole affair. He talked the matter over carefully with Mr. Garfield and the adjustment now in question, was made in my favor.

"In my interview with Mr. Garfield here, at which time Superintendent McFarridge was present, he notified Superintendent McFarridge in no uncertain language that he wanted the decision of the department made in my favor carried out. He stated further that if intervening rights were claimed by the men holding approved leases, that this would have to be settled by the courts.

"Garfield's attitude did not change while here; neither was he directed by Dr. Penrose as stated above, to give the crops to me. He simply helped me in making an appeal to the highest authority in the department in pursuance of my rights."

GIRL "ROUGH RIDERS."

Seven High School Students Will Open Season at Springs With a Whirl.

Seven of Pendleton's popular high school girls are now planning to form a "Rough Rider" brigade for the purpose of swooping down upon Lehman springs some time this week. They are to be chaperoned by Mrs. W. H. McCormmach and the "season" at Lehman will commence upon their arrival.

Full details for the trip have not yet been worked out but it is the intention of the girls, or at least most of them, for they are good horsewomen, to ride and they will have costumes that will fit the occasion.

Those in the party are Miss Norma Alloway, Miss Edith Johnson, Miss Nona Johnson, Miss Hazel Nolen, Miss Edna Storie, Miss Gertrude Campbell and Miss Gertrude Jordan.

CARRIES HATRED TO DEATH

Alla to Be Hanged This Week—Blitter Against Priests.

Denver, July 14.—With the arrival of Sunday, the death sentence imposed upon Giuseppe Alla, the priest murderer, began to operate. Alla will be hanged in the state penitentiary at Canon City sometime this week, but the day and the hour is known only to prison officials and perhaps has not yet been definitely decided upon by them. The custom in Colorado long followed by the courts, is to designate the week when convicted murderers, sentenced to death, shall expiate their crime, leaving it to the prison officials to select the moment when the sentence shall be carried into effect. The law requires that a certain number of witnesses be present.

Realizing that the shocking nature of his crime—the killing of Father Leo Heinrichs at the altar of St. Elizabeth's church in this city while the priest was administering the sacrament at early mass one Sunday morning, has made it impossible to stir human sympathy in his behalf, Alla awaits only the coming of the moment when she shall be summoned to his doom. For a week he has absolutely refused to eat, though the choicest of food was placed before him. On Friday last the prison physician, becoming alarmed at his gaugard appearance, administered milk by means of a pump. This had the effect of changing the prisoner's mind and since then he has eaten satisfactorily.

Alla retains his fierce hatred of the priesthood and everything connected with the church. When visited in his cell recently by a Catholic priest stationed in Canon City he raved and stormed and was not quieted for some time after the priest had withdrawn. Alla refused to converse with the priest and his attitude at times appeared threatening.

TO SPRINGS BY AUTO.

Devil Wagon Reduces Number of Hours to Mountain Resorts.

During the last few days many Pendleton people have been taken to the springs in the south end by local auto drivers. Elmer McCormmach, son of W. H. McCormmach, has made numerous trips to Lehman and Hi-daway with guests for those resorts. This morning he left for Lehman with a party consisting of Mrs. G. W. Knight, B. F. Simpson, Tommy Murphy, son of Mayor Murphy, and one other passenger.

Saturday a party consisting of Mrs. William Slusher, Miss Edith Slusher, Mrs. A. Ruppe and Miss Bernice Ruppe were taken to the same springs. A party was also taken out Sunday, among those in the group being G. M. Rice, Conductor and Mrs. Menzie and Mr. and Mrs. Ed Starky.

FEMINE CHARMS MUST HEREAFTER BE GENUINE

Georgia Legislature Would Restrict Nature Faking by Gentler Sex.

Atlanta Ga., July 14.—There will be a sad disillusionment of husbands on the day after, in Georgia, at least, if a bill introduced by Representative George Glenn of Whitfield district and favorably considered by the assembly, becomes a law.

It distinctly provides that an unmarried woman may use as many artificial aids to enhance her charms as she sees fit, but if she wants to get married, deception must end with the beginning of courtship. The measure provides that should woman entrap man into marriage through the "use of paints, powder, cosmetics, artificial teeth, puffs, rats, paddings, dropstitched hose high-heeled shoes, peek-a-boo waists corsets or other artifices, the marriage shall be null and void."

The bill has been referred by the speaker of the house to the committee on ways and means and is assured of a careful consideration.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
