**WILL NAME PRESIDENTIAL CANDIDATE AND PLATFORM**

Seaborn Wright of Georgia Leads the List of Possibilities—Largely Responsible for Prohibition in His State—Expect to Poll Larger Vote Than Ever Before—Many Millions Contribute to Fund.

Columbus, O., July 14.—What will be the largest national political convention of the year, in point of number of delegates, will begin in this city tomorrow and will nominate a national ticket and adopt a platform on which the foes of the rum demon will stand in this year's campaign. A large proportion of the 1512 delegates have arrived and the wire-pulling for the presidential nomination has already commenced. State delegations and the various committees will meet this afternoon to transact preliminary business. The Intercollegiate Prohibition association will hold its oratorical contest this evening, when elocutionists from all over the United States will launch oratorical broadsides at the saloon. Cash prizes will be awarded the winners.

The convention will be formally called to order at 10 o'clock tomorrow morning. Memorial hall will be the scene of the gathering and has been elaborately decorated for the occasion, temperance emblems, scripture quotations and anti-saloon mottoes being sandwiched in between flags and bunting. The delegates will be seated on the main floor of the hall, with the alternates and visitors in the galleries. An extension to the big stage has been made to accommodate about 400 district leaders who will be in attendance. Provisions have been made for about 150 newspaper men.

**Possible Candidates.**  
Among the presidential candidates mentioned are Seaborn Wright of Georgia; Alfred Manierre, a New York attorney; Dr. W. B. Pelmore, editor of the St. Louis Christian Advocate; Fred F. Wheeler, a Los Angeles real estate dealer; Dr. J. B. Cranfill, a Baptist minister of Texas who has been prominently identified with the prohibition movement, and Judge S. A. Artman of Lebanon, Ind., who came into prominence about a year ago by a legal decision in which he declared that the granting of a saloon license is illegal. Apparently a majority of the leaders believe that it would be better to nominate for president a man who has become prominent in the anti-saloon work while holding office under one of the old parties. Among these is Seaborn Wright, a prominent Georgia politician, who, as a member of the Georgia legislature, was largely responsible for the passage of the prohibition law in that state. Wright has many boosters and will likely have the support of all the southern delegations.

National Chairman Charles R. Jones is confident that the prohibition party will poll a larger vote this year than ever before. An exceptionally large campaign fund is expected and the money is already flowing into the coffers of the party in an unprecedented manner. Many millionaires of prominence it is said, have contributed to the fund. Campaign literature will be circulated by tons.

**Will Publish Contributions.**  
Every cent received will be publicly accounted for, as the prohibitionists publish the name of every contributor, also the amount and the date of the gift. In addition no money is received which is known to come from the liquor interests. That is the rule of the national committee, although it has had no opportunity to announce the enforcement of the rule lately, because no money has been tendered the committee by the saloon men.

The prohibition party, Mr. Jones declared, will be a strong force in the coming presidential election. Through the organization of national issue clubs voters were being recruited for the prohibition ticket. Thousands of these clubs, he said, had been organized since the first of this year. Prohibition is now sure of 500,000 votes. By the time of the presidential election Mr. Jones was sure the number would be doubled.

"The prohibition party," he said, "has increased 100 per cent in eight years. In the same time the republican party has gained only 7 1/2 per cent, while the democratic party has fallen off 19 per cent. Prohibition territory during the year just passed has more than doubled."

Chicago, according to Mr. Jones, is from the prohibition standpoint the worst city in the United States, with New York a close second. New York state, however, carries off the palm as the state least amenable to prohibition influence, while Pennsylvania is second in blacklisting.

**GIRLS WILL BE CARED FOR.**  
Many New Houses Being Built at University of Oregon.  
University of Oregon, Eugene, July 14.—Girls at the University of Oregon will be well housed next year. At least three new houses, accommodating between 60 and 70 girls, will be ready for occupancy in September. The Mary Spiller house, named for the woman connected with the university, is now being completed and

comfortably furnished. It will have rooms for 20 to 25 girls, and be under the same general control as the men's dormitory. It is beautifully located on the highest part of the campus, and gives promise of being a most pleasant home.

The Klossie Tillacum club will have a handsome new home by the opening of the university. The foundation has been completed and carpenters are preparing to rush the building as fast as possible. It will accommodate between 20 and 25 girls. The Zeta Iota Phi sorority is having a new house built on the corner of 13th and High streets, which will have room enough for 20 girls. The plans call for a very handsome building.

Rooms for rent seem much more plentiful than usual, probably for the reason that the touch of hard times has made many more people willing to rent. These, together with the new girls' houses and the old ones already established, will make it comparatively easy for the university to find good homes for the large number of girls that will enter in September.

**RECORD SHIPBUILDING YEAR.**

**Reports of Bureau of Navigation Shows Center of Activity on Great Lakes.**

Washington, July 14.—The fiscal year ended June 30, has been the record year of American shipbuilding, according to reports to the bureau of navigation, and the center of the industry is on the Great Lakes.

During the year 1566 vessels of 588,627 gross tons were built and numbered in the United States, of which 75 steel steamers of 304,379 gross tons were built on the Great Lakes. The largest annual output heretofore was in the year 1855 when 2024 vessels of 583,450 tons were built. In that year the Great Lakes built only 263 vessels of 45,423 tons.

This year steel vessels built numbered 142 of 417,167 gross tons compared with 360,665 tons built last year. These two are the years of the largest steel construction in the United States.

The tonnage built is entirely for domestic transportation, no vessels exclusively for foreign trade having been built in the United States.

Of the 142 steel vessels, 85 exceeded 1000 gross tons each, 55 on the Great Lakes, the largest being the William M. Mills of 792 tons and 30 on the seaboard, the largest being the Columbia of 5579 tons, built at San Francisco for trade to Hawaii.

Four wooden sailing vessels exceeding 1000 tons each were built during the year, the largest being the Edward J. Lawrence of 3350 gross tons.

St. Paul, Minn., July 14.—With some of the most famous and daring drivers in the country entered and the fastest racing cars in the world assured, tomorrow's automobile races on the Hamline track, under the auspices of the St. Paul Automobile club and the Shriners' Imperial council, will undoubtedly be the greatest meet of its kind ever held in the west. Among the entries are Barney Oldfield, Walter Christie, E. Kirkpatrick, Maurice Bernin, Al Poole and George Campbell. In addition to participating in the race, Christie will drive his car against time in an effort to smash the world's record.

Gunnison, Col., July 14.—Gunnison assumed a typical "wild west" appearance today as the result of the annual celebration of cattlemen's day by the Gunnison Stockgrowers' association. Cowboy races, roping and broncho busting contests and quadrilles on horseback will be distinctive features. As usual, a large crowd of tenderfeet are her to witness the sports.
