Like Near Beer.

The North Pacific Brewing company of Astoria is sending out to the various newspapers throughout the northwest, presumably upon the supposition that the editors are good judges of liquid refreshments, liberal samples of a preparation that they call "Maltona," made from "the juice of the malt and the extract of the hops," says the La Grande Observer. It is a good deal like the so-called "near beer," and the new one they have in Pendleton called "far beer"—it looks like beer, smells like beer, tastes like beer, and it is—well, judge for yourself. The express car on No. 6 this morning contained a large quantity of this "Maltona."

Boys on Long Cruise.

Four Tacoma lads, Ernest Mock, Johnny Hoyt, Emmet Anderson and Burt Cook, ranging in age from 14 to 16 years, left Magnolia beach, on Vashone island, Monday morning for a 400-mile cruise on the sound in a canoe. The boys intend to camp and secure their living largely from fish and game. They will visit Hooda canal, upper sound points and probably go as far as Victoria and Vancouver.

PENDLETON WINS FROM BAKER CITY.

At the ball game at Baker City yesterday Pendleton won from Baker by a score of 7 to 5. During the game three home runs were made by Pendleton, while Baker City scored two.

Tallaferro and Conrad constituted Pendleton's battery, while Gregg and Ward pitched and caught for Baker.

BASEBALL SCORES.

Pacific Coast League.

Portland, Ore., July 16.—Kinsella pitched a grand game against Los Angeles today and Portland won, 2 to 0. Neagle started in good form, too, but was taken sick at his stomach in the sixth and weakened. Johnson's triple and Danzig's single in the seventh were enough to win the game.

Score— R. H. E.
Portland 2 5 3
Los Angeles 0 2 2
Kinsella and Madden; Nagle and Easterly.

San Francisco 3, Oakland 1.

San Francisco, July 16.—The local team won a 11 inning game through the weakening of Wright in the last inning.

TO RAISE FREIGHT RATES

Southern Railroad Officials Are Holding a Conference.

Louisville, Ky., July 17.—A conference of executive officials of southern railroads, operating south of the Potomac and east of the Mississippi, was called here today for the purpose of discussing a proposed increase in freight rates on certain commodities.

It can be stated that no increase of cotton and lumber rates is contemplated. It is highly probable, however, that the rate on cottonseed oil will be raised, as well as rates on other commodities. It is not likely that rates on general merchandise will be changed. It is learned that the railroads will plead, among other things, in justification of any increase of rates that may be deemed expedient, the necessity of overcoming rate reductions recently effective—notably with reference to passenger traffic.

The claim is made that the railroads have already gone the limit in the matter of reducing their operating expenses through curtailment of salaries in every branch where a cut could be made without inviting serious complications. Hence, the question now is the raising of revenue sufficient to meet the absolute exigencies of their properties.

Another justification for raising certain rates will be the necessity of meeting greatly increased operating expenses incident to the handling of this fall's business; and the fact that in many instances salaries which were reduced last spring will be restored to their former basis. Notice of an increase of rates on packing house and grain products August 1 has already been given.

While rates on certain commodities, notably cottonseed oil, will be raised, as a result of the Louisville conference, it is said that the general question of rate increase will be treated very delicately, and no rate raised that can be allowed to remain as now fixed.

Only Slight Wheat Storage.

Charles F. Van de Water, traveling freight agent for the O. R. & N. company, is in the city today after a tour of the wheat belt and expresses the belief that the crop this year in Umatilla county will be about 30 per cent short of last year's crop. He has visited every section where threshing is in progress and finds that the yields are far beyond the expectations of the farmers themselves, who were familiar with the crop conditions. While the wheat is not as high nor as thick on the ground as usual, in many places the heads are well filled and the quality of the grain is excellent.

SCHOOL BONDS ARE DEFEATED

MILTON AND FREEWATER WILL NOT HAVE BUILDINGS

Proposition to Bond the District Is Defeated in Both Towns—Total Vote Is Nearly Three to One Against Two Towns Cannot Agree on Anything—Can't Even Separate

Milton, July 17.—In the special election which was held here yesterday on the question of bonding school district No. 31 in the sum of \$40,000 for school buildings, in which the people of Milton and Freewater had a vote, the matter was turned down, the total votes standing as follows: Milton, yes, 128; Milton, no, 163; Freewater, yes, 35; Freewater, no, 247. Total, yes, 163; no, 410.

The election was for the purpose of bonding the district in the above sum in order that a \$30,000 central school building be erected where the old frame school building now stands at Milton, and that Freewater have a new \$10,000 building.

It is almost necessary that these places be provided with better school facilities, but as the two towns can come to no understanding as to what is best to do in the matter, it will probably be some time before the difficulty is settled. Freewater objects to Milton having the larger and more expensive building.

A short time ago the people of Freewater made an effort to have the school district divided but this was denied by the district boundary board, the chief reason being that the district was in debt. The matter of better schools in this section of the county is an important one, and the people of both Milton and Freewater are making a hard

fight. Each want new buildings, but they can not agree that either have the better one.

Inspecting Idaho Sheep.

An inspection of all bucks and sheep that had either foot rot or scab last spring was commenced today by deputies in the various sheep sections of the state in accordance with an order issued from the state veterinarian's office, says the Boise Capital News. Speaking of Idaho sheep, Dr. Noble, state veterinarian, said that generally they are in fine condition, and that the inspection which was commenced today is made as a matter of precaution in preventing the development or spread of disease. Dr. Noble left for Pocatello, where he will confer with two of the deputy inspectors, after which he will attend a meeting of the state livestock and sanitary board, which will be held Saturday at that place.

Saved by His Grandmother.

Buchanan Coleman, a 4-year-old boy, who lives with his grandparents on a ranch 12 miles west of Billings, Mont., was bitten on the foot by a rattlesnake Monday and only the fact that the poison was sucked from the wound by the child's grandmother prevented a fatal result.
