### WILLAMETTE SURVEYS

Members of Springfield Grange Want to Know About Irrigation. Approximately two hundred square miles of the Willamette Valley, covering Eugene and extending to Harrisburg, will be surveyed during the summer of 1908, and mapped upon a scale of one mile to the inch says the Oregon Forester. The map, when published, will show all roads, buildings, streams, also contours representing differences in elevation of twenty feet, and when printed by the U. S. Geological survey will be available to the public at three cents per copy. This work has been undertaken upon petition of the Springfield Grange, many of whose members are enthusiastic over the prospects of irrigating some ten thousand acres which lie between the McKenzie river and the middle fork of the Willamette. The ground for this enthusiasm lies in the fact that only 2.6 inches of the 41 inches of annual precipitation falls during the growing season, for lack of moisture. With irrigation, they believe two to four crops can be produced, in place of one poor crop, which is yearly growing poorer from soil impoverishment.

Clamans Shows Coming. W. H. Clamans of the Clamans shows, which will give two performances at the Oregon theater on July 22 and 23, is a guest of the Golden Rule while in the city making arrangements for the attraction. The Clamans company will present "The Frontier" and "Wife in Name Only" at the Oregon.

### Murdered Man Found.

A boy found in the mountains near Hillsboro, Ore., Saturday, the body of a man who had been murdered and the remains had been covered with brush and rubbish. The features were so badly decomposed that identification was impossible, but in his vest pocket were found two coins stamped with the name "E. Perdue, Spokane, Wash., 1907."

### Splinter Removed From Boy's Eye.

A splinter of pine wood was removed from the eye of the 4-year old daughter of Mr. and Mrs. R. O. Shafer of Tacoma, by Dr. J. H. Spencer and Dr. P. B. Wing Wednesday afternoon. The piece of wood was one-eighth inch in thickness and although it had been in the eye since July 4 there is hope of saving the sight.

This morning the bankrupt stock of the old Pulman saloon was sold at auction by T. C. Taylor, trustee for the creditors. The sale was held during the forenoon in a room of the Minkley building on Court street. Only the liquors and cigars were sold, the fixtures of the saloon having been covered by a chattel mortgage.

### NEW LINE FOR SPOKANE.

### Electric Road From Miles City to Kettle Falls

The construction of a railroad up the Columbia river from Miles City to Kettle Falls is planned by Jay P. Graves, head of the Inland Empire system of electric railroads, in case he is aided and encouraged in his efforts to construct a line from Spokane to the Columbia river, says the Spokane Chronicle.

Mr. Graves' plans do not stop here. He is working to secure irrigation for the rich lands in the Columbia valley in the section named, which have been proved to be admirably adapted to fruit raising.

Mr. Graves would have every acre of "teeming intervale and fruitful upland" planted to orchards and vineyards. He says the soil and climate are equal to any of the fruit producing sections of the state and that the opening of the tract will materially increase the wealth of eastern Washington. Several producing orchards in the territory afford the best proof that the soil is well adapted for fruit raising and that the climate is all that need be desired. Mr. Graves states that he and those associated with him will contribute to the opening of the section.

"This is a project for the accomplishment of which every citizen of Spokane ought to boost," stated Mr. Graves in discussing his plan. "If the rich valley of the Columbia lying between Miles City and Kettle Falls is irrigated and the lands covered with orchards and vineyards, Spokane will have at her very doors a fruit producing section as great as that at Wenatchee and one that would possibly rival Yakima.

Only Seventy Miles Away. "If the road to the Columbia is built, it will bring the rich tract I have mentioned within two and a half hours of Spokane. The line to Miles City will be about 70 miles long and the journey could easily be made within the time stated. The opening of an irrigated tract in the vicinity of Wenatchee has resulted in the building up of a city of about 7000 inhabitants, which statistics show contributes one-fifth as much business to the Great Northern railroad as Spokane. Irrigated fruit tracts have made Lewiston a prosperous city of 8000 to 10,000 inhabitants, and since the irrigated tracts at Yakima were started, that city has grown until today it has a population of over 10,000.

### SHOOT IS ON.

### New Army Rifle Has Terrific Velocity—Abatement Built for Target.

The annual O. N. G. rifle tournament is now on near Salem and the various competing teams are engaged in the "record" shoots. The latter part of last week having been devoted to practice shooting by the company teams.

During the first few days of the shooting it was revealed that the new Springfield rifles have a wonderful velocity and, according to reports received, the fact made some changes necessary in the range. It was found that some ricochet shots had gone over the embankment at the target and struck in fields several miles distant. Accordingly, Major Baker, range officer, had an additional abutment, 12 feet high, constructed back of the targets.

### Hanged Himself.

M. A. Bowker, aged 86 years, hanged himself at the home of his son-in-law in Portland, Ore., Sunday. He was overcome by the heat.

### TORTURES OF ECZEMA YIELDED TO CUTICURA

"Cuticura Remedies are all you claim them to be. I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were so much swollen. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times, I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema.

"I had a small lump in the corner of my eye for over a year which was very painful and got larger all the time. I thought I would try Cuticura Soap and Ointment on it, and now it is gone. I am seventy-three years old and have lived on the farm I now occupy for twenty-seven years. Cuticura Remedies are the safest and most reliable I have ever used for all skin humors. Mrs. David Brown, Locke, Crawford Co., Ark., May 18 and July 13, 1907."

### DISFIGURED For Life Is the Despairing Cry of Thousands
