**"CLEAN-UP ORDER"
IS ISSUED**

**COUNCIL MAKES TOUR
OF INSPECTION.**

Conditions in General Are Good, but Several Persons Have Allowed Rubbish to Accumulate, which Must Be Destroyed at Once—Meat Market Violates City's Sanitary Ordinance.

This morning a tour of inspection was made by Dr. Cole, city physician; Mayor Murphy; Chief of Police Gurdane; Fire Chief Vaughan and several members of the council. During the same the party discovered several places where the sanitary conditions were not good, and orders were given for the owners to clean up at once. Within a few days the ground will again be covered and those failing to comply with the instructions will be haled before the police court.

Commencing at the foot of Main street, the party inspected conditions along the west side of Main street from the Hotel Pendleton to the Bowman, Webb street, the rear of the buildings on the east side of Main and East Court were then inspected. Particular attention was devoted to restaurants, meat markets and other establishments where perishable goods are handled.

In general the conditions were found to be better than in the past, with the exception of one butcher shop on East Court. There chickens were being kept in violation of the city ordinance on the subject and other conditions about the shop were open to criticism. Orders to clean up at once were given by Dr. Cole.

In many other places visited much rubbish had been allowed to accumulate, and in many instances this caused danger of fire.

At other places sloop barrels had accumulated to a dangerous extent.

COLDS

The very hour a cold starts is the time to check it. Don't wait—it may become deep-seated and the cure will be harder then. Every hour lost at the start may add days to your suffering. Take

Good Yield of Dale Wheat.
J. B. Kennedy, the pioneer of Myrick, brought in a sample of the Dale winter wheat from his ranch, showing the excellent quality of the new wheat which is now being generally introduced in the north part of the county. The wheat is yielding 30 bushels per acre and better and is of excellent quality for a dry year. Mr. Kennedy has 160 acres of this variety and is well pleased with it. He will use more of it hereafter. His crop is being harvested by Alex McRae, of Walla Walla, who has invented a combined harvester of improved type. The machine is drawn by 20 horses and is a 16-foot cut, and is handled easily by this number of horses.

Don't Like Idaho Land.
Mr. and Mrs. Bert Stoffle came down from Pendleton Wednesday to visit several days among Echo friends, says the Echo Register. Mr. Stoffle has just been up in the Buhl, Idaho, irrigated country. He says that while they have a good irrigation system, they are lacking in the season and climate. In the first place, they have frost up to the first of July and sometimes even later. The land is very rocky and costs from \$20 to \$25 per acre to clear the rocks off, and the soil is very shallow in most places. Of course there is some good land, but it is all taken up. He says that the Echo country is far better compared to the Buhl country, for here we have the climate, soil and market.

Train Derailed in the Yards.
Last evening while switching in the west end of the yards, in preparing to leave the station, the Walla Walla branch passenger train of the O. R. & N. was derailed in some way and the coaches were taken from the Spokane train for the Walla Walla run last night. The train left after but a short delay, and the coaches were placed on the track again in a few hours. No damage was done except to turn over the rails for about 30 feet.

Waffle Passed Examination.
E. B. Waffle, son of B. S. Waffle, of this city, was among those who passed the state medical examination just held in Portland. Waffle graduated with honors from the U. of O. medical college this spring and is now a house physician at St. Vincent's hospital. Only three members of his class passed, and only 23 out of a total of 70 applicants were successful.

Gene Teeters' Is President.
Eugene Teeters, the genial manager of the O. R. & N. water system, has just returned from Huntington, where he attended a picnic held by the Tin Plate society of that place. While at Huntington this trip Mr. Teeters was honored by being elected president of the Tin Plate society, a social organization.

Wheat Yielding 20 Bushels.
L. L. Mann came in from Havana station this morning, where harvesting is now in progress. He says that the average of the wheat being threshed in that vicinity is about 20 bushels. This is the foothill section and the yield is never as heavy there as on the reservation.

To Sell Grand Ronde Cherries.
F. H. Tatman, a well-known orchardist of La Grande, came over today to market several carloads of Grand Ronde cherries in this city. The crop in Grand Ronde is excellent this year, and the fruit growers' union is marketing the output to a good advantage.

New Army Officers.
Envy Dempke, who has had charge of the local work of the Salvation Army in this city for several months, expects relief from La Grande in a day or so, and will leave for a six weeks' furlough after a long season of active work.

"Blind Pig" at Echo.
There must be a blind pig in town somewhere, for last Saturday a laboring man drew his wages for his week's work, amounting to \$18, and Monday morning he was drunk and not able to work. Where did he get it?—Echo Register.

Suit to Collect Note.
An attachment suit was filed today by Peterson & Wilson in behalf of Coblenz & Levy vs. William Shull et al. The suit is to collect \$100 alleged to be due upon a note and an attorney's fee of \$35 is asked for.

Married at Walla Walla.
Miss Ellen J. Marshall, of this city, and Lemuel J. Fry, of Starbuck, were married at Walla Walla last evening, and will live at Starbuck. Mr. Fry is employed on the Pendleton-Spokane branch of the O. R. & N.

Small Wreck at Hilgard.
O. R. & N. train No. 5, due here at 1:05 a. m., did not arrive this morning until about 6 o'clock, having been delayed by a small freight wreck near Hilgard. A car in train No. 24 was derailed on the mountain and considerable track was torn up.

Jack-Peringer Case Settled.
Through a compromise the Jack-Peringer law suit over the crop on disputed Indian land, has been settled. Under the terms of the agreement each of the men get a portion of the crop and the wheat can now be threshed in peace.

Small Fire Near Depot.
A small fire occurred in the O. R. & N. yards about midnight last night when some wood caught fire from ashes that had been dumped by a steam wood saw. The fire was extinguished before any serious damage resulted.

Near Wattsburg, Wash., Wednesday, lightning set fire to several grain fields, causing a considerable loss. W. Loyd lost a quantity of wheat and D. C. Eaton's barley field was burned over, causing a considerable loss.

FOR LOWER RATES

**WHEAT RATE FROM INLAND
EMPIRE IS TOO HIGH.**

Oregon Railroad Commission Is Preparing to Order a Reduction of Rate—No Need for Farmers to Petition for Investigation as the Commission Will Investigate on Its Own Authority.

Wheat growers of Oregon's inland wheat belt may have lower freight rates between their fields and their market if it is made plain to the railroad commission that the rates charged by the O. R. & N. are excessive, says the Oregon Daily Journal. Some time ago, when the recent rate decision was handed down by the commission, it was informally recommended to the O. R. & N. that the rates on wheat could well be cut down to a lower figure than is now charged. As yet the company has not heeded the recommendation, and it is probable that an official hearing into the question will be had in a short time.

According to Clyde B. Aitchison, one of the commissioners, it is the intention of the commission to take up the investigation of the wheat tariffs as soon as the work of the commission can be shaped so that the hearing can be held. When this is done an exhaustive examination into the situation will be held, and it is practically certain that the Harriman times will be directed to lower their rates between eastern Oregon points and Portland.

Farmers to Present Case.
In connection with this information comes the story that the farmers of Umatilla, Wasco, Sherman and Gilliam counties are preparing to present their case before the commission in an effort to secure a material reduction in rates. The wheat growers' association of these counties has taken the question in hand and has retained James A. Fee, a well known lawyer of Pendleton, to look after their interests. It is understood that a petition is being circulated for signatures, the purpose of which is to secure a hearing before the commission.

"There is no need for the farmers of eastern Oregon to go to that trouble," said Mr. Aitchison this morning. "It is the intention of the commission to make an investigation as soon as possible into the wheat rates charged by the O. R. & N., and if this investigation shows the rates to be too high the company will be asked to lower them to a reasonable basis."

At a recent meeting of the commission the question of the violation of the state 10-hour law by the O. R. & N. was also discussed. Early in the year the commission submitted evidence of the law's violation to John Manning, then district attorney, asking him to take some action.

Suit Already Instituted.
Manning pigeonholed the letters and took no action during his term of office, preferring to pass the burden of any such procedure on to his successor. In the meantime, however, a suit has been brought against General Superintendent Buckley of the O. R. & N. in Umatilla county by District Attorney G. W. Phelps on the same charge.

This suit is now under consideration by Judge Bean of Umatilla county and after discussion the commission decided to wait the decision of the Umatilla court regarding the points of law raised by the company's attorneys before commencing any similar action in this county.

If you want to keep your friends, don't use them too much.

"WIRELESS" AT PAYETTE.
Portland Stations.
Rev. G. G. Haley, of Payette, last week conducted some very satisfactory experiments with wireless telegraphy between a station he has erected here and Council Crest station at Portland, says a Payette letter. He repeatedly and very clearly received the call "P Y," but owing to interference by lightning but shattered letters of the message were discernible.
Rev. Haley, who is an electrician, built his own instrument, which is not of the DeForest type, but patterned after those in use in the navy. The instrument was placed in position on top of the First National bank building and everything put in readiness to receive the message, the sending of which had been arranged for 10 o'clock. About 9:30, however, a call evidently intended for some other station was recorded at the station here, but on the hour agreed the "P Y" came clearly.
Off on Vacation.
J. L. Whiting, third trick operator at the O. R. & N. offices, will leave in the morning for Meacham for a few days' vacation after which he will go to Spokane to remain for some time. He has been relieved by Operator R. H. Haines of Union.
It isn't trouble that kills; it's having too many good times.

**It's easy to reach North Beach
Take Steamer POTTER from Portland**

Passengers are now transferred to the railroad at MEDLER, fourteen miles up the Columbia from Ilwaco. This eliminates the necessity of steamers waiting for the tide, and insures a prompt and regular Summer Schedule.

The Steamer **T. J. POTTER** leaves Portland every morning except Saturday and Sunday at 8:30 o'clock.—Saturday only at 2 o'clock P. M. Remember the Summer rate on the **O. R. & N.** is **\$13.15** from Pendleton to all North Beach points and return; good until September 30th.

North Beach is a famous, beautiful place—the most perfect beach on the hole North Coast. There are accommodations galore at prices to suit all tastes; camping facilities without equal—perfect bathing conditions; all sorts of amusements and diversions. Come, have a good rest and a jolly time.
Let us send you our new summer book, and tell you all about NORTH BEACH.
