Fred Lampkin, business manager of the East Oregonian, is now visiting in Portland. He will return Wednesday. Mrs. Walter Adams, who has been very ill for a few days with typhoid fever, is reported somewhat improved today. C. F. Vandewater, traveling freight agent of the O. R. & N., is in the city today on business connected with the road. W. F. Matlock left last night for Salem to attend a meeting of the state fair board of which he is now the president. Montie B. Gwinn of the Pendleton Savings bank, went to Walla Walla this afternoon to remain a short time on business. D. Brusha, who has been confined to his home for a few weeks on account of sickness, is reported somewhat improved. Will Tallman, brother of J. V. Nicholson, deputy United States Marshal, returned to Portland on No. 1 today after a short business trip to the Umatilla agency. R. & N., came in this morning to look up some records in the land office and left on the logging train at noon for, Walla Walla county.—La Grande Observer. C. S. Wheeler, the photographer, expects to leave tomorrow for Lehman springs, where he will join his wife, who has been there for a couple of weeks. Mr. Wheeler will probably remain about two weeks. Engineer O. W. Moon, the "father" of all engineers in eastern Oregon, and commonly known as "Dad," spent a day with La Grande friends, returning yesterday to his work on the Pilot Rock road.—La Grande Observer.

Mines Are Busy. Mr. C. C. Nepple, superintendent of the Indiana Mining company, operating at old Camp Carson at the head of the Grand Ronde river, is in the city for a visit with his family, says the Baker City Democrat. Mr. Nepple says there is considerable activity in mining circles at Camp Carson. The Indiana company has about thirty-five men on their payroll, and the mine and mill are operating in a most satisfactory manner and with bright prospects for the future. Other mines are being worked with developing force and look well. The old Camp Carson placers are operating with good results. La Grande people are attempting to build a road into the camp to divert the trade from Baker City, but they will hardly succeed, since a good road built by the Indiana people leads to Baker City, and this is the much nearer point.

Harney Ranch Sold. Burt High made an automobile trip into Harney county the first of the week, says the Oregon Orleano. He took three men from Portland, who went in to purchase the Alvord ranch. There are 15,000 acres of this and they paid \$90,000 for the same. The deal has been closed, but the transfers can not be made until the matter can be consummated through an estate sale. The property belongs to the John DeVinne heirs. This ranch is located near Stein's mountain in Harney county and is one of the finest ranches in the interior. J. O. Alvord, William Booth and another party from Portland are the purchasers. Burt made the return trip a distance of over 170 miles, in a day with the automobile.

No Dower for First Baby. The provincial government is in receipt of a request from the inhabitants of Bulkley valley, in British Columbia, asking that a grant of 160 acres of land be made to the first white baby born there. The child is the daughter of Mrs. D. McInnes of North Bulkley. There is no provision in the lands act providing for the dower of white babies, so the government will probably be unable to accede.

W. H. TAFT SOUNDS KEYNOTE OF CAMPAIGN. (Continued from Page 1.)

ment an amendment to the constitution for an income tax is not necessary. With respect to the election of senators by the people personally I am inclined to favor, but it is hardly a party question. The foreign policy of the country under the present administration has greatly contributed to the peace of the world. "The important part of the administration took to bring about the end of the Russian-Japanese war and the prevention of wars in Central America and Cuba are striking instances of this. If ever a party has entitled itself to approval of its works by a renewed mandate of power from the people who it has served, it is the republican in the present campaign. The only respect in which nothing has been done is the development of our foreign marines. As soon as we uphold the system of protection for our home industries we must recognize that it is inapplicable to assist those of our citizens engaged in the foreign shipping because there is no feasible means of excluding foreign competition and that the only other method of building up such business is in the mail subsidy. "I am in favor of the bill considered in the last congress as a tentative step. I have pointed out that the attitude of the republican party with reference to evils which have crept in is to continue the Roosevelt policies of progress and regulation, while the attitude of the democratic party under the present leadership is to change for the sake of change to the point of irresponsible destruction and that there is no hope whatever of restoration of prosperity in returning it to power." The main daylight fireworks were in Fountain Square. A fireworks display will be held tonight from the bluff of Mt. Adams overlooking the Ohio river. The weather is ideal, being warm and clear. Hitchcock arrived at 7 o'clock this morning from Chicago and later Taft, Hitchcock and Arthur I. Vorys held a conference. It is supposed the subject was the question of inviting Senator Foraker to participate in the campaign opening at Youngstown, O., September 5.
