**TRAINMAN HAS
A CLOSE CALL**

**WILLIAM REDDING IS
KNOCKED FROM CAR.**

Second O. R. & N. Brakeman to Receive Painful Injury in Same Place and in Same Manner—Standpipe in Front of Depot a Dangerous Obstacle.

Another trainman was hurt at the depot this morning by being struck by the standpipe while riding down the track on a box car.

William Redding, a freight brakeman, was this morning's victim, and he is now nursing an injured side as a result of his collision with the iron standpipe.

While in the railroad yards this morning Redding caught freight train No. 55 with the intention of riding to the other end of the yards. He was hanging to the ladder on the south side of the train as it passed the depot, and did not see the standpipe. As he passed he bumped into the pipe with a jolt that threw him from the train and injured him painfully.

But while badly bruised, Redding was not hurt seriously.

In this respect he is more fortunate than young Cunha, also an O. R. & N. employe, who struck his head on the standpipe while riding a train past it several months ago. Cunha was knocked insensible, and for a time it was feared his injuries would prove fatal, though he recovered within a few days.

LAMBS AT \$7.

Idaho Product Brings Good Price in Chicago.

A recent issue of Clay, Robinson & Co.'s Livestock Report contains the following on the Butterfield lamb shipment from Welsler, Idaho:

A. G. Butterfield, a member of the extensive Idaho sheep firm of the Butterfield Livestock company, with headquarters at Welsler, was here this week with a trainload of sheep and

NO TRACE OF FRUIT.

Temporary District Attorney Is Still Missing.

W. C. E. Pruitt is still in the land of the missing as far as his Pendleton relatives and friends are concerned. He has now been away from the city for an entire week and not a word has been had of him since his sudden departure.

Many believed that Pruitt was in Portland and following the publication of the story regarding his disappearance he would make himself known. However, he has failed to do so thus far nor has he been seen by any of the Pendleton people in Portland.

Don Pruitt, brother of the missing man, has just reached Baker City from his home in Iowa and he is also wholly in the dark regarding his relative. In a 'phone message to the East Oregonian from the Baker City Herald it was this afternoon said he has no idea of his brother's whereabouts.

While Pruitt was attending to the work of the district attorney's office he took up an assault case from Milton and it was set for trial in the justice's court one day last week. But when the time came Pruitt was not to be had and the case is still awaiting a prosecutor.

SNYDER FUNERAL TODAY.

Held from Baker & Folsom Undertaking Parlor This Afternoon.

The funeral service for the late Joseph Snyder was held here at 2 o'clock this afternoon from the Baker & Folsom Undertaking parlor. The service was conducted by Rev. Chas. Quinney, rector of the Church of the Redeemer.

A large number of friends and relatives of the deceased were out to do his memory honor, and many carriages and buggies conveyed them to the cemetery.

The pall-bearers were Fred Koepfen, Thomas Hampton, C. E. Roosevelt, W. E. Brock, W. S. Perry and E. T. Wade.

UMATILLA CASES POSTPONED.

Arguments on Demurrer Set for Sept. 15 to Accommodate Court.

The hearing of the Umatilla county cases in the federal court at Portland has been postponed until Sept. 15. At that time the attorneys in the case will argue the demurrer to the complaint filed by the defendants.

August 1 was originally set as a time for arguing the demurrer, but the cases have been postponed in order to allow Judge Wolverton to take a vacation.

SATURDAY IS MARKET DAY.

Many Animals and Articles Being Listed for Sale.

Next Saturday, being the first Saturday in August, will be Market Day, and according to Sam Bitner, manager of the sale, many things will be offered for sale on that occasion. Horses, vehicles, etc., will compose the list, and there will be some bargains for some one.

It is the intention to hold the market day auction sales on the first Saturday of each month as long as interest is maintained.

**LOCAL FARMERS
ARE FORTUNATE**
CONDITIONS ELSEWHERE
MUCH WORSE THAN HERE.
Former Athena Ranchers Report Total Failures in Franklin County, Washington, This Year—Crops too Poor to Even Make Hay—Cheap Land Don't Stand the Test.
Though Umatilla county farmers may not get full crop yields this summer, they are fortunate compared with their brethren who left the county a few years ago to buy cheap land in Washington and other parts of the Northwest.
Writing to Attorney Will M. Peterson of this city, Fred Rosenzweig, formerly of Athena, tells a doleful story of conditions in Franklin county, Washington. He was formerly in the grocery business in Athena, and left there to try farming near Eltopia, Franklin county.
This year Rosenzweig had 1,200 acres of Franklin county land in wheat, and he writes that the crop is an absolute failure. Not only is it so poor that it can not be threshed, but the yield was too slight to justify cutting it for hay. Accordingly, his year's work is a total loss.
The same story is true of O. C. Beck and sons, who also settled in Franklin county, and there are three or four other Umatilla county families there who fare the same.
Several years ago Franklin county land was very cheap, and those who settled there made money through the rise in values. Also they harvested some very good crops for a year or two. But this year it was proved that the cheap land is of little value in an adverse season.
Improvements for Field School.
The school board has decided to make some needed improvements at the field school, West Alta street. The school is to be connected with the sewer system, a cess pool being used in the past, and other repairs will be made.
New Case of Smallpox.
Another case of smallpox is reported, the victim being J. E. Hancock, who lives on Stonewall Jackson street. His case was reported by Dr. I. U. Temple today, and the house is quarantined.

THEODORE ROOSEVELT HERE.
Brother of C. E. Roosevelt Visiting Pendleton Relative.
Theodore Roosevelt, a brother of C. E. Roosevelt, proprietor of the Boston Store, arrived here yesterday from his home at Ackley, Iowa, and will visit here for a short time with his brother and family.
In Iowa Mr. Roosevelt is engaged in the coal and milling business and this is his first trip west. The Roosevelt family is originally from New York and the two brothers are distantly related to President Roosevelt.

THEODORE ROOSEVELT TO OREGON.
Say President Will Hunt Bear Near Klamath Falls.
A special dispatch from Klamath Falls says:
President Roosevelt expects to hunt bear in the wilds of Klamath county after the expiration of his present term, before his departure for Africa, according to advices received in Klamath Falls. John D. Goff, the guide who directed the way to haunts of the big game in Colorado on the occasion of the first western hunting of the then vice-president, will visit Klamath county in September to make a personal investigation of the big game district of the Klamath region. It is stated on high authority that Mr. Goff will make this trip especially to advise the president as to the best time to hunt bear and mountain lions in this state. While the intended hunt is said to be practically decided upon, publicity was not desired, and only by chance was the information obtained.

**FINE TIMOTHY
ON MOUNTAIN**

LAND YIELDS WELL AT HIGH ALTITUDES.

The "Lonely" Shepherd Is Not so Lonely as it Would Seem—O. R. & N. Repairs on Blue Mountains Are Permanent and Exhibit Fine Engineering Skill.

Kamela, July 28.—(To the East Oregonian.)—Every step one takes in this fruitful Umatilla county of ours is a revelation. Yesterday while wandering along the summit of the Blue mountains on the Umatilla side, I came upon a timothy meadow three or four acres in extent, the timothy being thick on the ground and high as my waist.

The seed had originally been scattered there by campers and, taking root in the rich, moist mountain land, it had proceeded to cover the entire glade with a fine stand of hay.

If this timothy will grow here at an altitude of 4000 feet, without cultivation, why would not thousands of acres of the burned off and logged-off mountain land produce fine crops of hay, under cultivation?

If two acres will grow wild and yield a ton to the acre, why will not 1000 or 10,000 acres of the same kind of land yield well if seeded and cultivated properly?

It is another suggestion from the matchless latent resources of our beloved Umatilla county. It is simply a hint from nature, a "hunch" from the mountain. It is a "handle" extended to the homeseeker. Will he grasp it?

I would like to see a bundle of this wild mountain timothy at the district fair next month. It is worth thinking about.

THE "LONELY" SHEPHERD.

At the head of a deep, wooded canyon, a branch of Upper McKay creek, I came upon a shepherd's tent yesterday and at sight of the camp there in the woods, I moralized upon the fate of the shepherd and my heart went out in sympathy for him in his alleged "loneliness."

But upon visiting his camp that evening I "took back" what I had said in sympathy for him and almost envied the entertaining versatility of his seclusion.

In one corner of his tent was a good phonograph and nearer it several choice records. For my delight he rendered two or three selections by Patti, Caruso, Schumann-Heink and other singers, a speech by Bryan, a vaudeville selection and an act from Shakespeare's "Julius Caesar."

Under the head of his bed were half a dozen of the best magazines, (some of which I had not found time to read) and at the foot of the bed lay well-thumbed copies of the latest novels.

I looked at this bronzed son of the hills in genuine envy. Here he may read, write, think, commune with nature, or be carried to the great conservatories of the artists, while the driven slaves of the city must bend over a desk day and night to meet the terrific competition of this soulless commercial age.

Mountain Grade Repaired.

One hundred thousand tons of rock is the estimated amount of rip-rapping placed at washouts on the Blue mountains by the O. R. & N. this summer.

For two months a number of work trains have been employed in hauling rock from the steam shovel at Allen spur two miles west of Huron, to the places washed out last spring, along Meacham creek.

This immense amount of rock has been dumped at the washouts between Bingham springs and Huron, and it is now thought the track is impregnable. The rock used as rip-rapping weigh as much as five tons each and it seems that it will be impossible for any fresher to move them. The engineering work exhibited in the permanent repairs made on the O. R. & N. this season is a high tribute to the skill of the company's officials.

Forest Nursery Promised.

The Wenaha forest reserve which encircles the town of Kamela, has been promised a forest nursery, a seeding ground for forest trees. The rich soil of the Blue mountains is inviting to the forestry department and it is believed that enough young forest trees can be grown on a few acres on the summit of the mountains to reseed all the denuded land in the Wenaha and Blue mountain reserves.

The forestry bureau gathers seed of forest trees and plants millions of them in favored spots from where the young trees are sent to the various reserves for reforesting the burnt-off lands.

FROST AT MEACHAM.

Grass and Foliage Take on Autumnal Appearance.
Pendleton people returning from Meacham say that a frost occurred there Saturday night, and that as a result of the same the grass and foliage about that mountain station is now as withered as in autumn.

About fifty Sunday vacationists returned to the city on train No. 5 yesterday morning, after spending the day at Meacham and the camps in that vicinity. While waiting at the depot for No. 5 they had difficulty in keeping warm, so cold was the night.

Marriage License.

A marriage license has been issued to Henry Gray Thompson and Martha E. Beck.
