

WEATHER REPORT.

Fair tonight and Friday.

TO ADVERTISERS.

Don't sit down in the meadow and wait for the cow to back up and be milked—go after the cow.

MANY INDIANS ISSUED PATENTS

At Present Rate Reservation Will Soon Be Owned by White Men.

MORE THAN 1,000 SECURE TITLE WITHIN THE YEAR.

Allottees Sell Their Holdings in Majority of Instances—Some Make Long Leases—Allotments Vary from 40 to 160 Acres—Many Mixed Breeds Are Self Reliant—Agent Is Judge of Indian's Ability to Handle Own Affairs—Nine Years More Regularly.

If the government continues to issue patents to Indian allottees at the rate they have been granted during the past year, the Umatilla reservation will soon pass into white ownership.

Since Major A. E. McFartridge took charge of the affairs on the reservation he has secured over 100 patents for Indian allottees. In most cases the allottees have been mixed bloods, and their allotments have varied in size from 40 to 160 acres.

It will be nine years yet before the Indians are entitled to their patents in the regular course of law. The allotments were made in 1892, and it was specified that patents should not be given the Indians for 25 years.

Many Are Self Reliant. But by the terms of another law Indians may be given their patents at once provided they are capable of handling their own affairs. The agent is the judge of their powers in that line, and it is for him to say whether or not they shall be given the absolute control of their property.

Before the agent asks the department to give an Indian a patent he must first post a notice of his intention to do so and allow it to stand for a period of thirty days. The notices are posted on the bulletin board of the agency.

Whites Get Land. In the majority of cases Indians who get titles to their land sell their allotments to white men, or else lease the land to them for a long term of years. Many such sales and leases are now on record at the court house.

YOUNG ERNE TO MEET McFARLAND.

Chicago Lad Is Favorite in Tomorrow's Ring Battle.

San Francisco, July 30.—Young Erne will have his first opportunity to display his ringcraft before an audience of Pacific coast fight fans tomorrow, when he will meet Patsy McFarland, Chicago's nifty aspirant to the championship, in a 20-round bout. The men are to meet at 133 pounds, at 6 o'clock, before the Pacific Athletic club. Young Erne has many backers, but general sentiment favors McFarland.

McFarland fought Freddy Welch a before Jim Jeffries' club in Los Angeles, before Jim Effries' club in Los Angeles. The winner of the Erne-McFarland match is certain to meet the survivor of the third battle between Gans and Nelson, which will be fought in Nevada on Labor Day; so this bout means much to both men.

Indians Dig Camas.

Following the custom of years standing, a large number of the Umatilla Indians have been leaving in the past week for the Grand Ronde valley to dig camas root. The Grand Ronde valley for possibly hundreds of years was the mecca for Indians seeking the camas fields. Now that the valley is quite thickly settled, the camas is much more scarce than in former years.

Forest Fire Under Control.

The forest fire which has been raging on Ruby creek, in Washington, for some time, is now under control. Two sections have been burned over.

GENERAL EXODUS OF PENDLETON PEOPLE

There will be a general exodus of Pendleton people the latter part of this week and the first of next. Scores of those who have not yet taken their vacations are planning to leave right after the first of the month and from appearances there will be few left in the city after Sunday.

A large crowd is to leave here Saturday night and Sunday for Portland and different coast points to be gone for two weeks or more. This number includes many business men and clerks who have not been away yet. Company L, which leaves Sunday

SUIT TO PREVENT FORMATION OF TRUST.

St. Louis, July 30.—Suits to restrain the gigantic merger of lumber companies throughout the United States into a \$300,000,000 combine to control the yellow pine industry, was brought today in the circuit court by Attorney General Handley of Missouri, who claims to have received information that preparations are completed for the organization of the pine trust.

EX-GOVERNOR BUDD OF CALIFORNIA DIES.

Had Been a Sufferer for Many Years. Family at Beside.

Stockton, Cal., July 30.—After an illness of long duration, Former Governor James H. Budd of California died this morning at his home.

Last night he suffered a relapse, and at 10 o'clock passed into a state of unconsciousness from which he never recovered. All night his relatives were at his bedside, and at 6:40 o'clock this morning the nurse dying.

Uric acid poisoning was given by the physicians as the direct cause of death, though he had suffered from rheumatism and kidney troubles for many years. He made two trips abroad searching for health.

DIGS HOLE IN PRISON WALL WITH KNIFE.

Condemned Murderer Comes Nearly Cheating the Gallows.

San Quentin, Cal., July 30.—John Siemsen, one of the gas pipe thugs who is to hang tomorrow for a long list of crimes in San Francisco, is today sorry he was unable to escape before being taken to the death chamber. Guards last night discovered evidences of a plot to burrow his way out of jail.

He secured a nail and gouged out a hole in the wall, replacing the bricks every night so as not to attract attention. Louis Dabner, the other condemned man, is unconcerned.

PRINCE MARRIES DANCEHALL QUEEN

CUPID OUTWITS THE EMPEROR OF GERMANY.

Banished Prince Returns From Africa to Paris, Where He Weds the Dancer—Society and Royalty Shocked by Announcement—Marie Sulzer Paid \$7500 for Title.

Berlin, July 30.—Kaiser Wilhelm learned today he had been outwitted and defeated by cupid, for Marie Sulzer, the former dance hall queen, has been the wife of Prince Joachim of Prussia since August 15. Society and royalty is shocked by the news.

When it became known a year ago that the prince intended to marry the dancer, who was then Baroness Bienenberg, the Kaiser banished the prince to Africa to stop the marriage. Meantime the baroness divorced the baron and gave him \$7500 to allow her to return his title so she could marry the prince. She hurried to Paris, met the prince and the ceremony was performed there. The prince then proceeded to Africa.

EMBEZZLED \$47,000.

Prominent Men Spend Other People's Money in Mines.

New York, July 30.—Admitting they spent \$47,000 belonging to the Eagle Savings & Loan company of Brooklyn in a western mining scheme, Quarantine Commissioner Frederick H. Schroeder and Colonel Edward Brienon are under arrest today. Brienon is president of the company and Schroeder a director. They said they took the money to aid friends, expecting to pay it back. The money was taken in sums ranging from \$522 to \$2150.

ROOSEVELT WILL SWING BIG STICK

Heads of Pacific Coast Immigration Officials Doomed to Fall.

HELPED SMUGGLE IN CHINESE AND JAP COOLIES.

Investigation of More Than Year Shows That Officials Have Permitted Undesirables to Be Brought Across Mexican Line Into United States—Toll Was Collected on Each Man Brought Across—Honey and Burns Aid in Investigation—Report Ready.

San Francisco, July 30.—The big stick in the hands of Roosevelt, is about to swing amid the ranks of the Pacific coast immigration bureau of the government. It is reported that the heads of big and little will fall into the basket.

An investigation which has been going on for over a year under the direction of a special commission named by the president, it is said, has revealed evidence of alleged connivance on the part of the immigration agent in smuggling Chinese and Japanese coolies across the Mexican border into the United States. The investigators have the data completed, and will make a report to Roosevelt in a short time. The government agents in San Francisco are working on the finishing touches.

A staff of Chinese detectives were employed by them. It is further charged that orientals were smuggled under the eyes of the government immigration officers. Honey and Detective Burns are aiding the investigators.

Toll is alleged to have been exacted of each alien crossing the border. The smugglers has an agreement with the immigration officers it is alleged.

ANTI-JEWISH OUTBREAK IN CITY OF LONDON.

London, July 30.—Twenty-five thousand persons engaged in a monstrous anti-semitic demonstration outside the Bow street police station today, cheering Robert Siewer, who was acquitted of the charge of attempting to blackmail J. B. Joel, the millionaire nephew of the late Baroel Barmato, the diamond king. Joel is a Jew, and this is the only provocation for the demonstration.

The mob tried to reach Joel, who fought them off and escaped. The angry crowd then knocked down all the Jews in sight. Hundred of police reserves summoned, used their clubs freely, beating the crowd back. Bloodshed was narrowly averted.

NEED SODA FOUNTAINS.

Wales Boasts of Only Two—American Consul Tells of Chances.

Washington, July 30.—Over in Wales, the populace are just pining for American soda water. Think of 500,000 thirsty souls, who know not the delight of chocolate Sundaes, or strawberry ice cream soda!

The United States has a wide-awake consul at Swansea, somewhere in that region, in the person of Jesse H. Johnson. Perhaps Johnson himself yearns for the American soft drink, being weary of the English cup that cheers, but not inebriates—at any rate he writes to the department of commerce and labor declaring naively that he has made a special and complete tour of Wales and unearthed "only two very small soda fountains."

Johnson admits that he just aches to convert the stolid Britishers to the non-intoxicating delights of American soda water. He devotes a couple of paragraphs to the subject and pleads with American manufacturers of soda fountains to civilize the Welsh with the fruit extract bottle and carbonic acid gas.

GOVERNMENT GOES AFTER STANDARD OIL.

Chicago, July 30.—United States Attorney Sims returned today from the conference at Lenox, Mass., regarding the government's attitude in the recent standard Oil decision when the \$29,000,000 fine was reversed.

"I am sure of the ultimate success of the government in this case," said Sims. "We are going after the case hammer and tongs."

He said the government attorneys who attended the conference are unanimous that every effort should be made by the government to secure a reversal of the verdict, setting aside the Landis fine.

The application for a rehearing will be presented to the circuit court by the government within a few days.

ASSAULTER OF WOMAN LYNCHED

Mob Storms City Jail and Hangs Negro Brute to Electric Light Pole.

TWO KILLED; THREE WOUNDED IN BATTLE.

Sheriff and Deputies Drive Mob Back From First Attack With One Dead and Many Wounded—Officers Finally Overpowered and Jail Door Battered Down—500 Shots Fired Into Dangling Body of Victim—Three More Will Probably Die.

Pensacola, Fla., July 30.—Two men dead and a score wounded is the record of an attempt last night of a mob to storm the county jail and to take out a negro named Leander Shaw, who yesterday assaulted Mrs. Lillian Davis near here.

The mob numbered probably a thousand persons and gathered early, but there was no apparent indication until two hours later that the crowd which completely surrounded the jail contemplated making a rush.

The first indication was when a railroad iron was brought into play by about a dozen men on the iron gate of the jail yard. At the same time the entire mob seemed to catch the spirit and with yells and curses dashed for the jail entrance. Some climbed over the tall iron fence, while others hammered upon the gate.

Shots Exchanged. The sheriff with a half a dozen deputies stood in the windows upstairs with drawn revolvers and rifles. The sheriff pleaded with the mob, at the same time telling them he would defend the prisoner at the cost of every life present. His words had no effect and the moment the first blow was struck on the gate a volley of shots flashed from the upper windows of the jail. This was answered by the crowd which poured volley after volley into the jail windows, wounding two deputies. The mob was momentarily driven back with many wounded and one dead as a result of the deadly aim of the sheriff and his deputies. At midnight the mob, which in the meantime had been reinforced by many residents of the surrounding country, made another attack on the jail.

Officers Overpowered. The sheriff and officers were overpowered by men who had crept over the rear wall and covered them with rifles and revolvers. Others broke down the cell door and took Shaw out.

The negro was carried to the center of the plaza and hanged to an electric light pole, after which fully 500 shots were fired into his dangling body. In the last attack on the jail H. C. Keillum, a street car conductor, was killed, while two deputies and four or five of the mob were wounded.

The Dead. H. C. Keillum, street car conductor. Bird Nichols. Fatally wounded: A. N. Knowles, member of the mob. Charles Turner, member of the mob. Jailor Eaton.

Hearst "Packed" Convention. Chicago, July 30.—Charges of Czarism are made against Hearst in his conduct of the independent party in an affidavit made today by Joseph T. Marshall of Plymouth, Neb. The affidavit declares the belief of the affiant that the independence convention was "packed." He charges that the platform as adopted by the committee was changed before being presented to the convention.

Editor Horne Released. General R. C. Horne, former editorial writer on the Kansas City Post, who shot and fatally wounded H. J. Groves, managing editor, and dangerously wounded O. D. Woodward, one of the proprietors of the paper, in the office of the Post in Kansas City, November 23 last, has been discharged from the State Hospital for the Insane No. 2 by order of the board of managers.—The American Press.

Order Tars to Pacific. Washington, July 30.—Within the next few days 700 tars will board trains for the Pacific coast, there to join the vessels of the Pacific fleet at San Francisco. Most of the men will go from the naval training stations at Newport and Norfolk. Shortly after the arrival of the men the Pacific fleet will start on a local cruise among the Pacific islands.

Crazed by the actions of her husband in leaving her for another woman, Mrs. Frank S. Turner took a dose of carbolic acid Monday afternoon at Tacoma, from the effects of which she died shortly afterward.

CONDITIONS GROW SERIOUS IN KENTUCKY.

Louisville, Ky., July 30.—Officers of the Illinois Central road are today taking precautions to prevent the execution of threats made by the night riders to wreck the company's trains unless the militiamen, encamped along the road's property, are ordered to vacate.

The officials have appealed to the government to remove the militia, but the governor has refused, saying the commonwealth should be considered first. The situation in Western Kentucky is growing serious. It is feared a clash between the troops and riders will occur before the week is ended.

WIFE HAS NO RIGHT TO SEARCH HUSBY'S POCKETS.

Judge Rose Hands Down Decision Causing Married Men Great Rejoicing.

Los Angeles, July 30.—Married men are rejoicing today over a ruling made by Judge H. H. Rose that a wife has no right to go through her husband's pockets without his consent and that he may use force in preventing her from doing so.

The ruling was made in the trial of E. C. Hurth, who was accused of assault by his wife because he forcibly objected to her taking angel cake from his bakery. In sustaining Hurth's action the court added that a man has a right to prevent his wife searching his pockets.

THREE THRESHING MACHINES BURN

PREVALENCE OF SMUT CAUSING TROUBLE.

Black Dust Causes Christopher Machine to Blow Up—Destructive Fire Follows—Brotherton Machine Catches Fire While Being Moved—Huddeman Farm Scene of Third.

Three threshing machine fires have already occurred in Umatilla county this harvest season, and in view of the amount of smutty wheat this year other conflagrations are expected.

The first machine to burn was that of Isaac Christopher, who has a ranch near dams. The machine was dunnied at the time and suddenly blew up. It then caught fire and was almost totally destroyed. No insurance was carried on the outfit.

Shortly after the Christopher fire, Frank Brotherton's machine caught fire and burned while traveling from one setting to another. The machine was near Vansycle, and the origin of the fire is a mystery. It was probably due to a spark from the engine or else carelessness on the part of some one in the threshing crew.

The Brotherton thresher was a steamer, and the loss was appraised at \$500. It was insured in the National Fire Insurance company, and W. A. Gelsey, agent for the company, was here at the time. He settled the loss today.

The third threshing machine fire was on the Huddeman place near Helix, and details concerning the same are lacking.

Frederick Dorra Suspends.

San Francisco, July 30.—Frederick Dorra, stock broker, entertainer, member of New York Stock and Cotton Exchange, and manager of concerns in Spokane, Butte, Denver, Los Angeles and San Francisco, has announced the suspension of business. He declared he is not financially embarrassed and that the suspension is only temporary. He expects to soon start again.

Heat Wave Kills Chicagoans.

Chicago, July 30.—The heat wave returned today, two persons dying this morning and two scores being prostrated. The suffering is intense. In the business section the oppression is severe. It is feared many babies will die in the tenement districts if the heat continues 24 hours.

WHEAT NOW SELLING AT SEVENTY-FIVE

Wheat is now 75 cents in the local market and there were many sales yesterday. It was the liveliest day with the wheat buyers since Saturday. This was probably due to the jump of two cents which occurred in the quotations, the price up to yesterday having been 73 cents. It is estimated that at least 100,000 bushels of wheat were sold yesterday. It was all in comparatively small lots and was from all sections of the coun-

PRUITT INTENDED TO STAY AWAY

Told Friend at Depot He Was Leaving City of Pendleton for Good.

PROBABLY AT OLD HOME IN IOWA NOW.

Local Attorney Evidently Suddenly Yielded to Long Smouldering Wanderlust—Went West on No. 5 and Caught Spokane Flyer at Umatilla—Seen by "Dad" Willis—Well Dressed and in Good Spirits—Stopped in Iowa to See Daughter.

When W. C. E. Pruitt left Pendleton a week ago last Tuesday he departed with the intention of leaving the city for good and is now probably at his old home in Iowa.

Trace of Pruitt was had yesterday when H. C. Willis, formerly of this city, reported having seen him on the Spokane flyer the morning after Pruitt's disappearance. According to Willis, he was hailed by Pruitt that morning as he, Pruitt, was passing through the chair car on the way to the diner for breakfast.

At the time Pruitt was dressed well, according to Mr. Willis and seemed in good spirits. He asked Mr. Willis where he was going and in answer to an inquiry about himself said he was bound for Chicago.

No further thought was given the incident by Mr. Willis until he heard of Pruitt's strange disappearance.

Left for Good. Further insight into Pruitt's behavior is had from a conversation which he had with a friend at the depot just before he left. To this friend, whose name is withheld at his request, Pruitt said he was going to leave the town for good and that he would go to Iowa to see his daughter. He has a daughter by a former wife and apparently his longing to see his offspring caused him to break the ties that bound him to this city.

Those with whom Pruitt was associated in business have had no word whatever from him since he left. As an attorney he had several cases on hand and was attorney for several estates.

All of this business he dropped just as it was. How his affairs stand is not definitely known. R. N. Oliver, Pruitt's law partner, says he has found nothing wrong whatever and no complaints against Pruitt have been received from any source.

Of the estates handled by Pruitt the most important was the Payne estate and Mrs. Raley, Pruitt's mother-in-law, was upon his bond.

WILL WATCH FILIPINO STUDENTS OVER HERE.

Edmund Enright Will See that Islanders Get Their Money's Worth.

Washington, July 30.—Edmund Enright of Wisconsin has just landed on these shores from the Philippines to occupy the position of superintendent of Filipino students in the United States. His duties will be to see that the professors in the colleges throughout the country to which the Filipinos have been assigned drill a proper amount of learning into the heads of the young islanders and that the boys get enough foot ball and don't sow too many wild oats.

Enright went to the Philippines in 1903 after having been graduated from Beloit college. He began work as a clerk in the civil service board, but soon became chief examiner. His new position was won by sheer merit and length of service in the islands, and carries a flat salary.

Real Meaning in Doubt. New York, July 30.—Wall street is speculating today as to the real meaning behind the meeting held yesterday afternoon in the office of Kuhn, Loeb & Company, at which it was arranged that the Gould lines should be given \$8,000,000 to meet notes which fell due Saturday. It is generally believed the agreement is the outcome of a pact between Harriman and Gould, meaning the abandonment of the Gould transcontinental railroad.

Heat Wave Kills Chicagoans. Chicago, July 30.—The heat wave returned today, two persons dying this morning and two scores being prostrated. The suffering is intense. In the business section the oppression is severe. It is feared many babies will die in the tenement districts if the heat continues 24 hours.

Frederick Dorra Suspends. San Francisco, July 30.—Frederick Dorra, stock broker, entertainer, member of New York Stock and Cotton Exchange, and manager of concerns in Spokane, Butte, Denver, Los Angeles and San Francisco, has announced the suspension of business. He declared he is not financially embarrassed and that the suspension is only temporary. He expects to soon start again.

Heat Wave Kills Chicagoans. Chicago, July 30.—The heat wave returned today, two persons dying this morning and two scores being prostrated. The suffering is intense. Wheat Now Selling at Seventy-Five. Wheat is now 75 cents in the local market and there were many sales yesterday. It was the liveliest day with the wheat buyers since Saturday. This was probably due to the jump of two cents which occurred in the quotations, the price up to yesterday having been 73 cents. It is estimated that at least 100,000 bushels of wheat were sold yesterday. It was all in comparatively small lots and was from all sections of the coun-

Furthermore, nearly all of the local buyers shared in the buying. At present there seems a tendency to sell at the high prices being offered. Though some growers say they will hold for an advance, the most of them seem to be willing to let go at 75 cents rather than risk a decline. According to the buyers the most of those who refuse to sell their wheat now do so because they are not yet far enough along with threshing.
