M. G. ROYAL IN THE PULPIT.

Former Pendleton Educator Spoke at M. E. Church Sunday.
The pulpit of the M. E. church in this city was filled by an attorney in the two services yesterday, Attorney M. G. Royal of Walla Walla, formerly principal of Pendleton's public schools, delivering two highly interesting discourses.
At the morning service Mr. Royal spoke on the subject of the limitation of the human conception of God and urged his hearers to get away from the strictly practical view held by many and founded upon the material view of things. That every man makes his own God, a being measured from strictly human standards, was declared by Mr. Royal, and that there should be a universal higher conception of the deity was also declared.
The evening discourse was educational and dealt with the development of the intellectual man through the succeeding ages of civilization.
Both discourses were highly entertaining and were listened to by good sized audiences. Mr. Royal is a student and thinker and a forcible speaker, and his addresses were filled with convincing arguments.

Strike at Cello.
There was a strike at Cello Thursday because of the alleged fact that a number of non-union men were employed on the ship yard at Portland, and on account of the strike work on the government steamer "Umatilla" at Cello was suspended, says The Dalles Chronicle.
A new force of men was sent to Cello, going by train the day of the strike, so that work was not delayed to any great extent. From Mr. Wiley of the O. R. T. Co. here, who was at Cello yesterday, it is learned that the strike had nothing whatever to do with the company's boats. The "Umatilla" will be completed in about two weeks.

Because of the high water, which appears to be remaining longer this season than formerly, work on the canal at Cello will probably not begin before the first of September.
Sealed proposals for the building of another section of the government canal will be received at the office of Major J. F. McIndoe, in charge of the corps of United States engineers in this district, at Portland, and opened for the awarding of contracts at 11 o'clock, August 31, 1908.

DOWNWARD COURSE.
Fast Being Realized by Pendleton People.
A little backache at first. Daily increasing till the back is lame and weak.
Urinary disorders quickly follow; Diabets and finally Bright's disease.
This is the downward course of kidney ills.
Don't take this course.
Mrs. Laura McClure, living at 1313 Madison avenue, La Grande, Ore., says: "I have used Doan's Kidney Pills off and on for three or four years and the best possible results have always been obtained. An overexertion or the contraction of a cold often served to bring on backache and at such times my kidneys would be weak and I would be greatly annoyed by dizzy spells. I would be restless and nervous and as a result of the loss of sleep, would arise in the morning feeling tired and worn out. Learning of the merits of Doan's Kidney Pills, I procured a box, took them according to directions and they relieved me at once. I have kept them in the house since as I have the greatest confidence in them. When I feel any of the attacks coming on I immediately resort to Doan's Kidney Pills and they never fail to give the desired results."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.
