**TRAVELING MEN
GET CONCESSION**

PERMITTED TO BUY 2,000
MILE TICKETS FOR \$50.

Mileage Good on Any Harriman Line
in the Northwest—Formerly Com-
pelled to Pay 3-Cent Rate for
Books Good only in Oregon—Get
Favor After Long Fight.

A concession long sought by trav-
eling men has just been granted by
the passenger department of the O.
R. & N. after a conference between
representatives of the traveling men's
association and General Passenger
Agent William McMurray of the O. R.
& N. at Salem.

Hereafter as a result of the con-
ference, it will be possible to buy
2000-mile mileage books good on all
the Harriman roads in the three
northwest states for \$50. Heretofore
it has been possible to buy books
good only in one state at three cents
per mile, or \$30 per 1000.

For a number of years the matter
of issuing tri-state books at a re-
duced rate has been agitated by the
traveling men's association, and finally
the matter was taken up with the
Oregon railroad commission. How-
ever, the passenger department of the
O. R. & N. volunteered to issue the
interchangeable books as requested,
if the matter was withdrawn from be-
fore the railroad commission.

COUNTY PROFITED.

Recorder Hendley Paid into Treas-
ury \$11.75 More Than Was Due.

That Recorder Fred W. Hendley is
not only not short in his fee accounts
to the extent of \$39.65, as shown by
the report of Accountant E. A. John-
son, but that he has actually collect-

**FIXTURES FOR
COUNTY VAULTS**

TO BE FINEST IN
EASTERN OREGON.

Glass & Prudhomme Company of
Portland, Awarded Contract for
\$2185—Must Be Installed Within
90 Days—Present Vault Capacity
Will Be Doubled.

Umatilla county will have the finest
vault fixtures in eastern Oregon
when the new metal fixtures for the
entire inside of the county vault in
the clerk's office are installed. The
county court today opened four bids
on vault fixtures and the lowest bid-
der of this number was the Glass &
Prudhomme company of Portland,
whose bid, submitted by A. C. Peel,
was \$2185 and within 90 days from
today the new fixtures are to be put
in place.

The fixtures purchased will include
docket boxes of metal, inclosed and
dust proof, from the floor to the
ceiling of the entire four sides of the
vault. These pockets will be 14
inches deep and will give twice as
much room for papers and documents
as is now available in the vault.

As the entire arrangement is metal
it will also be fire proof and when
installed will not only be an added
convenience but will also add security
to the county's big safety box.

Aside from the fixtures for the
sides of the vault a center table con-
taining shelves on two sides, will also
be installed giving still more room for
papers, books and documents.

Four bids were submitted on the
fixtures as follows: Glass & Prud-
homme, by A. C. Peel, \$2185; Bushong
& Co., by W. H. Barry, \$2299; The
Security Vault & Metal company, by
J. C. Magoon, \$2498, and the Norris
Safe & Lock company, by H. J.
Clark, \$2405.

Under the terms of the contract the
fixtures are to be installed within 90
days and the work of making ready
for the new additions will begin
within a short time.

Many of the old documents now on
file in the vault will be stored in the
basement and more room for cur-
rent business will therefore be pro-
vided.

Ideal Club to Meet.

The Ideal Social club of Pendleton,
will hold its social meeting Friday
night in the basement of the M. E.
church. This place has been chosen
because of its central location and
being very cool during the warm
weather. There will be a program
and social games of various sorts and
refreshments served. This is a young
people's club.

Building Is Renovated.

The upper story of the East Ore-
gonian building consisting of rooming
apartments, has just been repainted
and repaired and otherwise renova-
ted and fitted up by E. J. Murphy and
is now one of the best rooming apart-
ments in the city. There are several con-
venient suites for rent and owing to
the convenient location of the build-
ing these offer special attractions to
small families.

Young Child Died.

The 3-year-old daughter of Mr. and
Mrs. J. L. Frankum of 605 Aurn street
was buried yesterday from the Rader
undertaking parlors, Rev. W. T. Euser
of the M. E. church, officiating. It
had been ill for some time, but the
immediate cause of the death was
membranous croup.

When the average man makes up
his mind to take a vacation he be-
gins making preparations to go out
and kill something.

**FIRST RESIDENCE
FLAT BUILDING**

W. S. BOWMAN PUTS
UP SPLENDID STRUCTURE.

Constructed of Concrete and Concrete
Blocks—Residence and Studio on
Lower Floor—Modern Flat on Up-
per Floor—Will Be Occupied by
Gwinn and Taylor.

The first residence flat to be con-
structed in eastern Oregon is now be-
ing built by W. S. Bowman on his
property at the south end of Main
street bridge. The building will be
two stories in height and is being
built of concrete and concrete blocks.
A force of six men is employed on
the building and it is about half
done.

The lower story will be used as a
residence and studio by Mr. Bowman,
who is one of the leading photograp-
hers of eastern Oregon, and the upper
story will be used as apartments and
is already rented in advance to Mr.
and Mrs. Montie B. Gwinn and Mr.
and Mrs. T. C. Taylor.

It will be one of the neatest and
most convenient buildings in the city
when complete and will be the first
experiment of the concrete block, on
a large scale, in this city.

The building is being planned and
constructed under Mr. Bowman's
personal supervision and is neat and
attractive. It stands over the levee
and a porch around the north side
projecting over the river gives it a
most attractive appearance. It will
be complete in a few weeks and will
be occupied at once.

Cut to Pieces by Train.

Lying asleep across the Northern
Pacific tracks at Trigo, near Eureka
Junction, J. J. Sellers was run over
by a freight train about 11 o'clock
last night, receiving injuries from
which he will probably die, says the
Walla Walla Statesman.

Sellers was in town yesterday and
it is said he had been drinking hard.
He went out on the Northern Pa-
cific passenger at 6:30 last night and
got off at Trigo. He was assisted by
the conductor and brakeman to a
warehouse, where he was left.

After the train pulled out Sellers
crawled back on the track, evidently
starting for his home near the station.
He did not succeed, however, in get-
ting across the track, but lay down
there and went to sleep.

When the freight came along about
11 o'clock he was run over, the wheels
cutting off one leg above the ankle
and breaking the other at the thigh
and badly bruising it. Besides this
he received other injuries.

He was unable to get away from
the place where he was run over, but
lay there for seven hours enduring
untold agony waiting for help. It
did not come until about 6 o'clock this
morning when a freight from the
other way came along.

Summoning all his powers he raised
himself enough to flag the train and
then fell back unconscious. He was
found to be terribly weakened from
loss of blood. He was put aboard the
passenger train for Walla Walla,
brought to town and taken to St.
Mary's hospital, where Dr. Shaw was
summoned to attend him.

He was found to be critically in-
jured and it is doubtful if he can re-
cover.

Sellers is a rather aged man and is
the father of Mrs. Frank Hite, who
lives in Green's addition. He has two
sons in Riverville.

"I saw a cow slip by the river's
brim," murmured the long-haired
boarder who had just returned from a
stroll.
"I hope 'twant one of my cows,"
said the practical farmer. "Did she
slip clear in?"

**Ten Good Reasons Why
You Should Stop at
"The Cornelius"**

The Best in Portland.

Situated in the center of the
shopping district.
One block from the clanging
street cars.

Not so expensive as some other
hotels.
Sixty rooms with private bath.
Long distance and local tele-
phones in every room.

Writing desk in every room.
Carpeted throughout in the best
velvet carpets.
The rooms are furnished in solid
mahogany.

Every room contains a heavy
solid Simmons brass bed on which
is a 40 or 50-pound hair mattress.
The furnishings and general ap-
pearance of the public rooms must
be seen to be appreciated.

THE CORNELIUS, Park and
Alder streets, Portland's newest
and most modern equipped hotel,
solicits your patronage and assures
you good service and courteous
treatment. An exceptional hotel
for Eastern Oregon families who
come to Portland shopping and
sight-seeing.
When next in Portland give us
a chance to make you look pleas-
ed.

CORRUGATED IRON ROOFING.

Taking the Place of Tiles—England
Holds the Market.

Consul R. E. Holaday advises that
there has been a marked demand dur-
ing the past year in the Santiago dis-
trict of Cuba for galvanized corruga-
ted iron roofing, to which he adds:
This was due to the activity which
has been taking place in building op-
erations and the fact that this class
of roofing is supplanting to a con-
siderable extent the native tile roof-
ing. England supplies practically all
of the corrugated iron roofing that is
sold in this market. The merchants
claim that they can purchase a bet-

ter grade of corrugated iron for less
than they can of Americans. The di-
mensions of the iron and the retail
price at which it is sold in this mar-
ket are as follows:
Sheets 26 by 72 inches, 2 gauge,
retail at \$5 per 100 pounds, and run
10 sheets to the 100 pounds; sheets
32 by 72 inches, 28 gauge, retail at
\$4.90 per 100 pounds, and run 10
sheets to 136 pounds. Samples of
corrugated iron roofing of British
manufacture such as sold in this mar-
ket are forwarded. (They will be
loaned to the American trade by the
bureau of manufactures.)

"Known For Its Strength"

What It Means

Many people do not know what a bank's
capital means to its depositors, or the differ-
ence between a bank of little or no capital,
and one with a large capital. One of the
functions of

A Bank's Capital

is to protect its depositors from possible loss;
therefore the larger it is, the greater protec-
tion the depositors have.

- This bank has a
- Capital of 200,000.00
- Surplus Fund of 50,000.00
- Undivided Profits 25,000.00
- Additional Shareholders
- Liability 200,000.00

A TOTAL OF **475 000.00**

This means that this bank must lose prac-
tically half a million dollars before its depo-
sitors could lose a cent.

This protection is for **YOU.**
