

FUNDS JUGGLED BY THE PROHIS

MODEL LICENSE LEAGUE MAKES CHARGES.

Anti-Saloon League of America Said to Have Collected Immense Sum From Churches for Prohibition Work—Heavy Commission Paid for Collections—Little of the Fund Used in Actual Work It Is Charged.

The Model License League of America has just sent out a circular letter which calls attention to the workings of the Anti-Saloon League of America, and that the public may know the sentiment on both sides of the prohibition movement this circular is published. It is as follows:

We desire to call your attention to the published fact that a former solicitor of the Anti-Saloon league of America has offered to give the Anti-Saloon league \$1000 for permission to have the books of the Anti-Saloon league examined, and that his former solicitor has also offered to pay all of the expenses incident to the examination of the accounts of the Anti-Saloon league. So far the Anti-Saloon league of America has ignored the offer.

Regardless of your stand on the liquor problem, we think that you should advocate a policy of publicity on the part of the Anti-Saloon league of America. The foremost political parties of the United States are favorable to publicity in connection with campaign funds. If the political parties are willing to make public the names of those who support them, with the amounts subscribed, and also to account for the expenditures in connection with the political campaigns, it would seem that an organization such as the Anti-Saloon league, which levies so largely on the people in a semi-religious and semi-political movement, should be anxious to render an accounting.

If the Anti-Saloon league is a highly moral organization, it should have no subscribers that it is ashamed of, and it should have no expenditures that are not justifiable on the highest moral grounds.

The charge has been made that the Anti-Saloon league is headed by a coterie of men who are waxing rich at the expense of those who are contributing funds for the express purpose of relieving the community of the evils incident to the existence of the improperly regulated saloon.

The National Model License league

WOMAN'S POWER

The healthy woman; strong mentally and physically, whose ambition and magnetic influence urge men to deeds of grandeur and heroism; such women are all-powerful. Weak, sick and ailing women have little ambition; their own troubles occupy all their thoughts. They dwell upon their pains, suffer from nervousness and headaches; often are extremely melancholy, and avoid society. For thirty years

LYDIA E. PINKHAM'S VEGETABLE COMPOUND has been saving women from this awful condition. Mrs. Louise Jung, of 832 Chestnut St., Detroit, Mich., writes: "I suffered from a very severe female weakness for a long time. Lydia E. Pinkham's Vegetable Compound, restored my health. I hope it will do other women as much good as it has me."

Mrs. Emma Wheaton, of Vienna, W. Va., writes to Mrs. Pinkham: "I was a walking shadow. My husband insisted upon my writing to you and trying Lydia E. Pinkham's Vegetable Compound, which I did. It relieved all my pains and misery, and made of me a very different woman."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing-down feeling, dizziness, or nervous prostration. Why don't you try it? Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice.

has been informed that four state organizations, namely, those of Kansas, Oklahoma, Arkansas and Missouri, have broken away from the Anti-Saloon league because these state organizations have believed that they were not being treated fairly financially by the Anti-Saloon league of America and that other state organizations are expected to follow suit in the near future.

It has been charged in the press that the Anti-Saloon league of America goes into a state, forms a state organization and permits the collecting of funds from the churches and individuals by the local officials, in consideration of a commission of 2 1/2 per cent of all money collected.

It is also alleged that the Anti-Saloon league furnishes speakers in state campaigns at the rate of \$50 per day, the money being paid, not by the Anti-Saloon league of America, but by the state organization in the state in which the campaign is being waged.

Further, it is said that the Anti-Saloon league of America insists upon controlling each state organization through the appointment of state superintendents chosen by and kept in office by the national leaders.

Further, it is alleged that the national leaders insist upon controlling the state Anti-Saloon league publications and making these publications subsidiary to the national organ; a paper said to be conducted by this same coterie of leaders and for their material benefit.

It is also charged that the Anti-Saloon league pays from 15 to 75 per cent for the collecting of funds for the benefit of the Anti-Saloon league of America, and the National Model License league has been informed that out of \$1,000,000 collected from the churches last year by the Anti-Saloon league of America, \$750,000 was spent in commissions and salaries.

If it is true that of \$100 given to the Anti-Saloon league only \$25 is devoted to the purposes for which the money is subscribed this fact, it seems to us, would be of great interest to those who are contributors.

The National Model License league has been told repeatedly, and has reason to believe, that several of the leaders of the Anti-Saloon league started into the organization as poor men, and that they are now rated as men of great wealth. A showdown on the part of the Anti-Saloon league, we think, would be of peculiar interest to the needy pastors who see their congregations give hundreds and thousands of dollars yearly to the Anti-Saloon league.

HAWAIIANS COMING.

Expert Riders and Ropers Coming to Frontier Fair.

Secretary E. W. Stone of the frontier committee, has received word that a party of Hawaiians sailed today for San Francisco on the steamer Alameda to take part in the frontier days celebration in this city, says the Cheyenne Tribune.

The party includes Joseph Kibi, the champion rider of the islands, and a number of other ropers and riders, all of whom are native Hawaiians.

They will be accompanied by Eben P. Low, a prominent stockman of the islands, who saw the show last year and who was so impressed with it that he promised that this year the Hawaiian cowboys would take an active part themselves in the contests.

Mr. Lowe is himself an experienced and daring horseman and although he has only one arm, claims to be the champion one-armed roper of the world.

40,000 Bushels Sold.

The general quotations on grain throughout the country were somewhat weaker yesterday than those of Thursday, but in the Lewiston market no change was made, says the Lewiston Tribune.

The quotations remained at 76 cents for bluestem and 73 cents for club. Asotin takes the distinction of having made the largest number of early sales on the new crop. About 40,000 bushels of Turkey Red was sold there yesterday at 75 cents. This wheat grades bluestem. As bluestem brought 76 cents in Lewiston, it is seen the market in Asotin is but 1 cent below that here. The fact that buyers are purchasing at these prices in Asotin is taken as an indication that the upper river is not long to remain without a boat service. In fact suggestion was made yesterday that by October the O. R. & N. boats would again be in service. All the grain marketed at the upper river warehouses depends upon the boats as a means for getting the wheat out to market.

Estimate was made yesterday that not more than 3000 bushels of the new crop reaching the Lewiston warehouses has yet been sold, and practically no sales are reported from the warehouses along the Lewiston-Culdesac line.

HYBRID WHEAT YIELD BIG.

Quality Is Better than Average—Should Be Used for Seed in Whitman County.

Pullman, Wash., Aug. 11.—Great interest is being awakened in the new varieties of hybrid wheats propagated by the experiment station of the Washington State college and which are being grown extensively for the first time this year. These wheats are crossed between well-known varieties. The crossing of different varieties was inaugurated by Prof. W. J. Spillman, now head of the experimental part of the department of agriculture in Washington, D. C., many years ago.

The vast fields of wheat grown in this section are said to be of the hybrid varieties known as "No. 108" and "No. 123." C. A. Price, a local grain buyer and farmer, said: "Not a bushel of this wheat should be sent out of the country. Every bushel should be used for seed by farmers of Whitman county. It means several bushels an acre more. If the Washington State college had done nothing more than produce these varieties of wheat it would have paid several times over its cost to the state."

Hundreds of people who suffer from backache, rheumatism, lame back, lumbago and similar ailments are not aware that these are merely symptoms of kidney trouble. Pinules for the kidneys act directly on the kidneys, bringing quick relief to backache and other symptoms of kidney and bladder derangements. 30 days' trial \$1 and guaranteed or money back. Sold by A. C. Koeppen & Bros.

FIND HUMAN BONE IN FIRE.

Dry Hay in Barn Burned so Quickly, Drunken Wanderer May Have Been Caught.

Endicott, Wash., Aug. 11.—While looking through the ashes of the J. C. Reinke barn, which burned a few days ago, Marshal Cole found a bone which, when taken to Dr. Henry, was

pronounced to be the bone of the wrist of a human. It is thought that the fire was started by a tramp, probably drunk, and that he was burned with the barn. The fire when first seen appeared to have started from the inside. The ashes are still too hot for a thorough investigation. The dry hay in the barn made such a hot fire that if a person was in the barn he would have been completely cremated.

Adam Benner, who works for the Interior Warehouse found a fire in a car this morning when he went to work. The fire had not gotten a start and was put out by men at the warehouse. It was probably started by a tramp sleeping in the car.

For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts and all manner of abrasions," writes Mr. W. Stone, of East Poland, Maine. It is the proper thing too, for piles. Try it! Sold under guarantee at Tallman & Co.'s drug store. 25c.

WHEAT YIELDS 55 BUSHELS.

Andrew Huber's Crop on 160 Acres Worth \$6160.

Nez Perce, Idaho, Aug. 11.—Andrew Huber is harvesting 55 bushels of wheat per acre on a 160-acre field of velvet cast wheat. The field of wheat is one of the best on the prairie. The grain is as high as the horses' backs, and it stands so heavy on the ground that the binders can not take a full cut, because the machine clogs with the heavy grain. At the prevailing market price this crop is worth \$6160.

DeWitt's Kidney and Bladder Pills will promptly relieve all Kidney and Bladder disorders. Sold and recommended by Tallman & Co.

Wanted—By Japanese boy, house or office work by the day. Can talk English and give satisfaction. Leave orders at this office.

NORTH BEACH

Invites---Invigorates---Infatuates.

Nature's lavish hand endowed North Beach with every attraction as a place of rest, rejuvenation and recreation.

North Beach is a stretch of beautiful woodland dropping gently into the "Pacific" and skirted by 20 miles of smooth, sandy beach—delightful for bathing.
