

In looking for your fall clothes you may

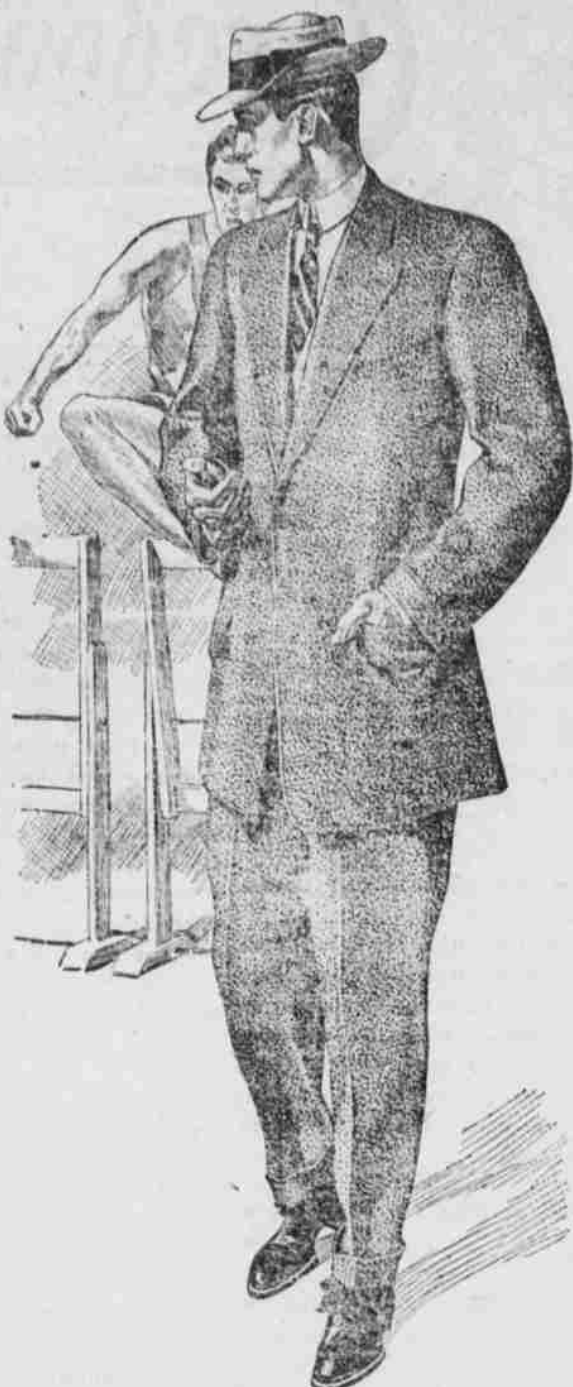

come across some dealer or clerk who tries to argue with you that "a little mercerized cotton doesn't do any harm; even makes the fabric better."

If anybody tries to "string you with that kind of talk, just laugh at him. Tell him you're willing to wear clothes made from part-cotton fabrics--if your self respect allows you to admit it; but give him to understand that you're buying adulterated goods because the price is lower.

Don't say because they're cheaper; they're not. Don't say because you save money; you don't. Just say, because the price is lower.

Or better still--for you and every body else--say, "nothing but all-wool will do me," and that pretty near amounts to saying nothing but Hart, Schaffner & Marx clothes in this town.

Here's the place for them.

FORESTRY HEADQUARTERS IN THE WEST

Plans for the forest service field headquarters which are soon to be established in the west are being rapidly worked out in detail. Each headquarters will be modeled after the Washington, office. In all there will be six district headquarters, one located at each of the present inspection district headquarters--Portland, San Francisco, Albuquerque, Salt Lake, Denver and Missoula, Mont., or some other points equally well or better located for the purpose.

At the head of each office there will be a district forester and an assistant district forester. Under these will be experts in charge of the various lines of work. A chief of grazing will have charge of range matters. A chief of products will handle preservative treatment of timber and strength tests and study market conditions.

A chief of lands will look after such matters as land examinations. The office of lands deals with the questions involving the validity of claims asserted under the public land laws; applications for special use of the resources of the national forests; changes in boundaries of forests, and the examination of lands applied for under the act of June 11, 1906, for agricultural settlement.

There will also be in each district a chief of silviculture, who will have charge of timber sales, planting and silvical experiments, and a chief of operation. The latter will supervise the personnel of the forests, the permanent improvement work through an engineer in charge; the accounts of the district, including receipts, disbursements and bookkeeping, which will be directly supervised by an expert accountant; and the routine business of the district.

In each of the lines of work the management will be in the hands of a man who is a specialist and who has had thorough experience both in the west and in Washington. The foresters and clerks at each district headquarters will number about 50. The establishment of these field districts will bring the service into more immediate touch with the public. It is merely the completion of

COFFEE

The dealing is simple. If you don't like Schilling's Best, it costs you nothing.

Your grocer returns your money if you don't like it; we pay him

the movement started some time ago to have the forests administered as far as possible by men actually on the ground.

The change will not affect the investigative work of the service, which will center, as hitherto, in Washington. Mr. Pinchot is expected soon to name the men who will fill the various positions.

STATE WON'T SELL LAND.

Farmers on Minadoka Tract Complain of Ruling.

W. G. Davies, engineer in charge of the ditch construction for the reclamation service, states that considerable complaint is being made from settlers on the Minadoka tract because the state land board has leased considerable land in that section for five years, which means that it will not be put on the market for six years while water has already been delivered there, says the Boise Capital News.

They point out the fact that at Wendell and Jerome the state land was sold one year before the delivery of water, while on the government tract it is being held instead of sold for home purposes.

The state owns several thousand acres of land under the Boise-Payette project and considerable of this can be put under water, but it is feared by the reclamation officers that the land board may hold this land for several years and it would be impracticable to run pipe lines and ditches on land which would remain idle for any length of time.

TOUGH GANG WITH CIRCUS.

Baker City Tolerates Yeggemen, Bums and Thugs for a Day.

Following a big circus there is always a tough element and the greatest show on earth is no exception to this well established rule, says the Baker City Herald. Show people are not in any way to blame for this condition of affairs for the country is free, and if a bunch of John Yeggemen, or a lot of half civilized barbarians happen into the city the same day that the circus comes it is really no fault of the show.

Yesterday morning bright and early Baker people began experiencing difficulty with its brand of undesirable people. They are here in large numbers and all around the depot and Center street packing was carried on in a wholesale manner. Not content with the ordinary

tramp courtesy they in many cases became brazen and bold. Yardmaster Thompson was kept busy looking after things around the station.

By evening many were getting their hides pretty well soaked and the gutter caught a portion of the bunch.

When Henry Bowman, the night policeman at the yards, came on duty he found plenty to do. Sizing the situation up he walked among them and it was only for an instant that they thought they would raise their voices in protest.

Bowman's club worked well and he seemed to have plenty of strength behind it. When he had finished the first act it was necessary to drag one out and the remainder were sitting up and taking notice.

Call for Paving Bids.

Unless plans are not carried out, the city council will tonight adopt the plans and specifications for street paving prepared by City Engineer Gulland and will authorize the city clerk to advertise for bids, says the Lewiston Teller.

It is expected the contractors will be allowed 30 days in which to file their bids and after the bids are opened the council will decide upon a pavement and set a date for hearing remonstrances against the proceedings. Unless the movement is again blocked by a majority of the property owners the contract may be awarded by October 15 and the paving of the business district commenced this winter.

A Cough Remedy that Cures.

Hickory Bark Cough Remedy, made by the Hickory Bark Cough Remedy company, of Salem, Ore., guaranteed to cure your cough, or money refunded. Guaranteed to make a friend of you. For sale by all druggists and first class dealers everywhere. Pendleton Drug Co.

Indians Protest Taxes.

Muscogee, Okla., Aug. 12.--Indians of the Chickasaw nation are holding a pow-wow at Sulphur today to devise plans for defeating the proposal to tax Indian lands. Under the treaty the redskins were not to be taxed until the title passed from the allottee or until after the expiration of 21 years. Attorneys will be employed to make a fight for the enforcement of treaty stipulations.

A sure cure, one you can depend upon. Hickory Bark Cough Remedy. A sure cure, no it's pure! Use it for all lung trouble, coughs, colds, hoarseness and sore throat. For sale by any druggist and first class dealers everywhere. Pendleton Drug Co.

TWO TICKETS IN A STRUGGLE

IDAHO DEMOCRATS START BIG CONTEST.

Rival Tickets Will Contend for the Mastery of the Party in the Gem State--Committee of 10 Prominent Attorneys to Conduct the Case.

The contest between democratic factions of Idaho will get into the courts and a bitter struggle for the mastery of the party in the Gem State is assured.

The contending factions have employed a committee of 10 of the best attorneys in Idaho to conduct the case and the "merry war" is now on. The Boise Capital News says of the latest:

Delegates from Ada, Boise and Owyhee counties and some from Blaine and other counties arrived in Boise yesterday morning at an early hour on their return from Wallace.

The returning party contained members of the appointed delegation from this county also. The train from Wallace also bore members of contesting delegations which were seated by order of Dubois from Bannock county and regular delegates from Washington county.

There was no cessation of enthusiasm for the ticket nominated by the stalwart democrats, however, and loyalty to the ticket was greater even than at the beginning, and determination was written upon every brow.

All express the determination to press the fight for clean and decent democracy to the utmost and there will be no compromise nor tenders of compromise from this time on.

A committee of 10 prominent attorneys has been appointed to have charge of the litigation that is expected to result from the nomination of two tickets. This committee consists of John C. Rice, James H. Hawley, K. I. Perky, John F. Nugent, J. T. Pence, F. E. Fogg, George Tannahill, Karl Paine, Earl Sanders and C. O. Stockalager.

STILL HUNTING FOR LITTLE CECIL BRITTON.

Paroled Convict Duping Parents of Boy Lost at Toll Gate.

A special from Lewiston, Idaho, to the Oregonian says: Cecil A. Brittan, the Walla Walla boy, 7 years old, kidnapped at Tollgate in the summer of 1906, is either secreted in the Grand Ronde district or the parents are the victims of a plot to extort money, because of their anxiety to recover the missing boy.

The hunt for young Brittan was directed to the Grand Ronde section by Sam Breen, a paroled convict from the Walla Walla penitentiary, who is alleged to have confessed to complicity in kidnapping the child, and who was placed upon parole to assist the parents in their search.

Breen visited Lewiston last week and rode into Grand Ronde section. He returned Saturday night and was met by R. L. Brittan and wife, parents of the child. Breen said he had met the parties with the boy and that a horse was shot from under him when he attempted to carry the child away.

L. M. Butler of Spokane is said to be associated with Breen in the search. The entire party left for the point in Eastern Oregon where Breen said the captors had headed for after the encounter in the Grand Ronde section.

Little credence is given to the story of the shooting and it is generally believed that the Brittan family has been victimized.

Portland Cement in Portland.

A great cement plant is to be built in Portland--the first instance in America in which Portland cement has been manufactured in a city of that name. Portland and Salt Lake capitalists have organized a company with a capital of \$1,200,000, and the lime rick will be brought from Roseburg, where they own a tract of 100 acres of choice rock. W. C. Nibley and associates of Salt Lake City hold one-half of the stock, with Portland capitalists the other half.

For Sale.

640 acres of fine wheat land, five miles east of Helix, one-half summer fallow; fine house and barns, and other improvements. On easy terms. One half cash, balance on time, 7 per cent interest. Enquire J. M. Bentley, Hartman Abstract Co., Pendleton, Ore.

Annual reduction sale on all seasonable lines at Goodman Hardware Co.'s. Refrigerators, freezers, ham-mocks, churns and many other articles to be closed out at cost.

"Known For Its Strength"

What It Means

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

A Bank's Capital

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

This bank has a
Capital of 200,000.00
Surplus Fund of 50,000.00
Undivided Profits 25,000.00
Additional Shareholders
Liability 200,000.00

A TOTAL OF **475 000.00**

This means that this bank must lose practically half a million dollars before its depositors could lose a cent.

This protection is for **YOU.**

SECURITY

Plating New Townsite.

Property in the new town of Fenn, located on the Culeesac-Grangeville line between Cottonwood and Grangeville, will be on sale as soon as the survey is completed by Engineer D. C. Wrighter and the blue prints prepared, says the Lewiston Teller.

This is the statement made today by J. P. Vollmer, owner of the townsite, who returned Saturday evening from a visit to the prairie country.

"Fenn will be one of the most important towns on Camas prairie," said Mr. Vollmer today. "It will be the greatest delivery point on Camas prairie and will receive much of the year's grain crop. It is expected the

railroad will be completed to Fenn by the middle of October and to Grangeville by November 1."

Mr. Vollmer also visited Grangeville, Cottonwood, Vollmer and Craig mountain. He states the Craig hotel at Vollmer is now operating its dining room and is one of the best hotels in the upper country.
