MURDER AT COOK'S LANDING.

Italian Bartender Shoots Young Man and Flees.

Ben Stahl was murdered at Cook's landing Wednesday night at 11:30, being shot and instantly killed by Antonio Viczianno, an Italian bartender in the saloon run by W. K. Ellsworth, says the Dalles Chronicle.

Stahl is a young man, who lives on a homestead back of the landing. He spent several hours in the saloon. The trouble which caused the shooting was started over a purse of money.

Stahl, it is said, laid his pocketbook on the bar and later could not find it and then accused Viczianno, the bartender, of stealing it. This accusation was the last word he spoke, for the Italian instantly whipped out a gun he had beneath the bar and fired at Stahl. One shot was enough, for he dropped to the floor, dead.

The Italian was quick to realize what he had done. Leaping over the bar, he ran out of the saloon and before the people at the landing could realize what had occurred he had crossed the river in a row boat and made his escape.

The officials in this city were notified to keep a sharp lookout for the murderer. It is thought that he made his way toward The Dalles.

Antonio Viczianno, the murderer, is described as being about 25 years of age, five feet four inches in height. When last seen at Cook's landing he wore a suit of salt and pepper clothes, dark in color. He is very dark in complexion, even for an Italian.

WHALE ENTERS COLUMBIA.

Becomes Entangled in Gill Net and Fishermen Lose Gear.

Captain Olson, of the steamship Alliance, reports that a whale, which had entered the mouth of the Columbia river, became entangled in a gill net yesterday and that the net was cut away by the fishermen, says the Oregonian. The whale had entered the mouth of the river and in the vicinity of No. 6 buoy struck the net. He started forward, taking net and fish boat with him.

Captain Jones of the schooner Delta, who entered about an hour after the Alliance, says that the whale got headed out to sea at buoy No. 8, and that the fishermen were compelled to cut away. The leviathan took the net to sea.

Mary A. Burgess, aged 60 years, has brought suit for divorce, charging desertion of two years' standing.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germs which act so successfully in causing it in one hundred per cent. of cases. The application of Newbro's Herpicide, Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy, Newbro's Herpicide.

Accept no substitute. "Destroy it cause you remove the effect."

Sold by leading druggists. Send stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

"Known For Its Strength"

What It Means

Many people do not know what a bank's capital means to its depositors, or the difference between a bank of little or no capital, and one with a large capital. One of the functions of

A Bank's Capital

is to protect its depositors from possible loss; therefore the larger it is, the greater protection the depositors have.

This bank has a

Capital of	200,000.00
Surplus Fund of	50,000.00
Undivided Profits	25,000.00
Additional Shareholders Liability	200,000.00

A TOTAL OF 475 000.00

This means that this bank must lose practically half a million dollars before its depositors could lose a cent.

This protection is for YOU.
