## O. A. C. GROWING

TWENTY ACRES VALUABLE LAND IS BOUGHT.

The Tract Just Added Is Surrounded by College Property—Cost of 20 Acre Tract Is From \$1500 to \$3000 Per Acre—Expected That Over \$1500 Students Will Be Enrolled This Year.

For the purpose of arranging for the purchase of 20 acres of land lying between property already owned by the institution, there was a meeting of the regents of the Oregon Agricultural college in the office of Attorney W. W. Cotton in this city yesterday, says the Oregonian.

Mr. Cotton was absent from the meeting, but a number of the other regents attended. Among those in attendance were Governor Chamberlain, J. H. Ackerman, superintendent of public instruction; A. H. Buxton, president of the State Grange; and Regents W. P. Keady, Portland; J. T. Apperson, Oregon City; W. M. Pierce, Hot Lake; J. D. Olwell, Central Point; B. F. Irvin, Corvallis; E. E. Wilson, Corvallis; W. J. Kerr, president of the college faculty; and Regent Mrs. Clara B. Waldo, Salem.

Twenty acres of land lying alongside and between the property already owned by the Agricultural college has been a source of hindrance to the progress of the institution. At the time the site of the college was selected, title to this property could not be secured and consequently the college buildings and land surrounded it.

It was decided at the meeting to purchase the 20 acres, which will cost from \$1200 to \$3000 an acre. The purchase will be made at once and the property will be a valuable acquisition to the college.

The Agricultural college is in splendid condition, according to J. K. Weatherford, of the college, who arrived in Portland yesterday. There will be between 1500 and 3000 students in attendance next year, he predicts, and in order to accommodate them it will be necessary to ask for an addition to the administration building.

"I noticed that the recent good roads conference recommended that the college establish a chair of road-building in connection with our engineering department," he said. "As a matter of fact, we have had such a chair for a long time, but will increase its usefulness and employ more assistants."

### GRECIAN SUGAR BEETS.

Two Men Control Entire Industry of the Country.  
Consul General George Horton, writing from Athens, gives the following account of the obstacles encountered by the beet sugar industry in Greece:

The beet sugar industry in Greece is controlled by the brothers George and Solon Christaki Zographos, whose headquarters are at Lararinas, Thessaly, where their factories are also located. About 1000 acres are cultivated, but this area keeps the factory running only about two months out of the year. Herein lies one of the chief obstacles to the manufacture of beet sugar in Greece.

The area of cultivation can be increased only by turning small crofters out of their holdings, for it is difficult to induce the peasants to try any new crop or to cultivate it according to new methods. All the beets now available are raised by the factory owners. The land is prepared as for turnips and the seed sown in drills, at the end of March or mid-April, and the crop is gathered in July.

The cost per long ton of the beets ranges from \$10.90 to \$14.50, delivered at the factory. The beet land is a loose, loamy, open soil. Irrigation is depended on, the spaces between the drills being flooded three or four times during the season.

but the gap is steadily narrowing.

"Re-employment days" are becoming general. St. Louis had one on June 1, when 15,000 idle persons were put to work. On a far larger scale the Pittsburg district had one on July 26, when every plant of the United States Steel corporation, the largest concern in the world in its field, resumed operations.

The other shops of that corporation all over the country will, it is expected, all be running by August 1. All the independent steel concerns in the Pittsburg district, it is announced, will be at work with a full force by the first week in August.

The department of agriculture in Washington says the crop outlook is better on the whole than it ever was before at this time of the year. It estimates that the value of the country's farm products in 1908 will reach the \$3,000,000,000 mark.

This will leave all records far behind. It will be more than double the value of the farm yield of 1900, which was \$2,764,000,000. Big crops have always heretofore meant good times for the country and they will mean the same this year.—James W. Van Cleave, American Industries.

### BIG CARGO FOR THE ORIENT.

German Steamship Eva Leaves Portland for Vladivostok.

With a cargo of 1,854,640 feet of lumber laden at Portland and a large quantity of general merchandise taken on at Sound ports, the German steamship Eva cleared for Vladivostok and Manila yesterday, says the Portland Oregonian.

The lumber loaded at Portland was valued at \$7444.84 and the larger part will be discharged at Manila. The four and general merchandise are principally for the Siberian port.

The Eva is the first vessel to clear foreign this month. She will be followed, however, by a large number of craft for foreign ports. The August business is usually light, but the prospects are at present for a larger export business than that for the same month of last year.

During that period the foreign exports consisted of 9,803,307 feet of lumber, no wheat and 31,941 barrels of flour. The Arabia, which is scheduled to sail for Hongkong and Japanese ports next week, will take a quantity of flour, and there are several craft loading lumber which will be ready by the end of next week.

During her stay in Portland the officers of the Eva had trouble with the Chinese crew, who were bent on going ashore. Eight sailors were lodged in the county jail and held there until yesterday, when they were returned to the ship. The Eva left down for Astoria.

### GIRL SIX FEET TWO.

Lillian Lee Would Give \$5000 to Reduce Her Height.

Nature has discouraged Miss Lillian Lee, a member of the "Follies of 1908" company, to such an extent that she is thoroughly disgusted with the footlights and shortly will terminate her professional career, says a dispatch.

Miss Lee, who bears the distinction of being the tallest woman on the American stage, measures six feet two inches.

She declares her height is a handicap to her dramatic advancement and asserts she would willingly part with her life's savings of \$5000 if it were possible to reduce her height three or four inches.

### Rain Fills Jail.

The presence of the circus here Wednesday, combined with the rain of yesterday, which caused a temporary layoff of a large number of harvesters, have been responsible for an undue activity at the police station, and if the weather does not clear up and allow the men to return to the fields, the probabilities are that Chief Davis' next monthly report will show a broken record in the matter of receipts and the number of cases handled, says the Walla Walla Union. Up to midnight last night fines paid and bonds forfeited amounted to \$59.50 and the number of cases handled 28 in number, exceed any previous two days' work in many years.

Ten passengers left here on Tuesday morning's stage for Bend, where they were going to assist in fighting the forest fires raging near that place. A number of men have also been brought from Shaniko for the same purpose. The fires south of Bend cover a large area and the flames are making great headway through the dry timber.—Madras Pioneer.

Bert Moore, arrested at Albion for conducting a blind pig, broke jail the night after his arrest and has departed for parts unknown, leaving his supply of booze behind. Friends on the outside passed a small crowd bar through the bars of the jail, to him.

## THE AMOUNT OF YOUR "BELIEF IN ADVERTISING" WHICH IS PUT INTO TYPE IS WHAT COUNTS.

There is probably a clothing ad in today's paper that will remind you that your new suit is overdue. Meet the ad "face to face," and it will help you to meet the clothes problem that way.

If you have lived too long in one place, look at the furnished rooms advertised today—and get a change of scene.

It won't pay you to try to deal with a buyer who wants your property only half as much as "the right man" would want it.

Any quest by which you can make a "new test" of want advertising today? Think it over.

Your store is NOT "big enough," or prosperous enough, unless your ambition and aspirations are under-sized.

There never was a day in any calendar when adequate advertising would do more for your store than it will today.

LOOK IN OUR CLASSIFIED COLUMNS FOR WANT ADVERTISING.
