BRYAN BEGINS CAMPAIGN TOUR

Flow of Oratory Will Start at Chicago Tomorrow and Continue Until Election.

CONFERENCE OF BIG DEMOCRATS AT CHICAGO.

Program for Several Weeks Mapped Out by Democratic Managers—Bryan to Stay in the Field Much of the Time during the Campaign—Dates Made for Minnesota State Fair, Labor Day in Chicago, and a Special Address on "State and Nation" at Peoria.

Chicago, Aug. 19.—William J. Bryan will arrive in this city tomorrow to begin a conference with democratic leaders and labor union officials, which may have an important bearing on the campaign. Today Mr. Bryan will speak in Des Moines and will confine his remarks principally to a discussion of the tariff.

During his three days' stay in Chicago, Mr. Bryan will meet and confer with Chairman Mack and other campaign managers and give them the benefit of his counsel.

The conference of national and international union laborers, affiliated with the American Federation of Labor, has been called for the same time and Mr. Bryan will doubtless meet the labor officials and urge upon them the necessity of giving their whole-hearted support to the democratic national ticket.

From this city Mr. Bryan will go to Indianapolis, where he will attend the Kern notification ceremonies, scheduled for Tuesday. Upon that occasion the Nebraskans will deal with the trusts and will deliver a long speech on the subject of combines and monopolies.

On the way back to Lincoln from Indianapolis, Mr. Bryan will stop at Topeka next Thursday and will deliver an address in support of the plank in the Denver platform declaring for federal and state guarantee of bank deposits.

Mr. Bryan will make this one of the important issues of the campaign and will point to the success attending the trial of the plan in Oklahoma as proof of its practicability.

Among other speeches arranged for by Mr. Bryan are those on the tariff at the Minnesota state fair, August 31; on labor, at Chicago, September 7, and on "The State and Nation," at Peoria, September 9.

CITY OF STOCKTON REST BY STRIKES.

Stockton, Aug. 19.—This city faces two strikes today, one of the teamsters, the other of the bakers. Efforts are being made to adjust matters, but the men in both instances are bitter. Union teamsters yesterday refused to go to work because the Draymen's Express association refused to sign an agreement to employ union men only. The teamsters insist that they will not work until the agreement is signed. Non-union bakers are now working in the bakeries, the unionists having walked out because they were refused an increase of wages to 50 cents per hour for night work.

UMATILLA CROP IS ABOUT HALF SOLD

Practically half the wheat of the county has now been sold, according to the estimate of J. E. Montgomery, buyer for the Puget Sound Warehouse company. Since the opening of the wheat market a month ago selling has been pretty rapid and as a result more wheat has now passed out of the growers' hands than is usual so early in the season.

At present 75 cents is being offered for club wheat in the local market and there is little selling. Apparently the farmers are hoping for another advance and do not like to sell at 75 cents when they could have secured 80 cents but a week ago.

Population of 99,000 Sees the Sole Support of the City Disappear—Score of Burned Bodies Recovered—Rescuing Parties Overcome by the Deadly Gases and Taken Out by Second Party, Almost Dead—Flames Are Raging in the Wrecked Tunnels.

Wigen, England, Aug. 19.—Between 80 and 100 men are known to have perished in an explosion in the Maypole colliery last night.

Twenty burned bodies have been recovered. It is estimated that not less than 50 are still beyond the reach of the rescuers. The men looking for them were driven back by the flames today.

All hope of taking the men out alive is abandoned. A party of seven entered the shaft, but were overcome by gas and were rescued by a second party, nearly dead.

This city, which has a population of 99,000, is at a standstill as it was supported by the colliery.

Entrance Is Blocked.

Another party which succeeded in getting half way down the shaft, found the roof caved in, blocking the entrance to the part where the men are entombed. It will require several days to remove the wreckage. There is no chance for the entombed men living that long, if they are not already dead.

TELLS OF THE FIRST FIRE IN PENDLETON

Joe Eli's collection of fire pictures has aroused interest in early day fire department history and since the publication of the stories regarding his proposed exhibit many interesting fire fighting anecdotes have come to light. While in a reminiscent frame of mind this morning, J. M. Bentley told of the first fire to occur in Pendleton after the town secured a fire engine. It was in the days before the railroad came and there were but about 40 residents in the village. The "engine" was one that had to be operated by hand and it took nearly the entire population of the city to manage the thing. Shortly after the flame-quencher had been purchased by the council a fire broke out in the west end of town and the alarm was sounded.

NEW PAVILION TO GREET VISITORS

Fair Commission Remodeling the Entire Interior of the Big Building.

PAVILION WILL BE ALL IN ONE MONSTER ROOM

No Partition Between Main Room and Annex—Bandstand in Extreme West End of Pavilion—Weston the First Town to Engage Booth for the Fair—Larger and Better Fair Is Promised This Fall—Many Private Parties Are Engaging Booths—Much Work Being Done.

When the gates of the district fair are thrown open the latter part of September the scene presented within the pavilion will be entirely different from the past two fairs.

Workmen are now busy remodeling the big pavilion and they have already made some radical changes in the arrangement. The wall between the main pavilion and the annex has been taken down, thus throwing the entire fair grounds into one monster room.

The bandstand, formerly located near the center of the old pavilion, has been moved westward to within about eight feet of the ticket office. A canopy will be arranged back of the bandstand so as to assist in throwing the sound out over the audience. This will be a great improvement in the past speakers, addressing the people from the bandstand, have made themselves heard with difficulty.

The fountain and palm garden will be moved down to a location in front of the band stand and near the center of the pavilion.

The ground within the annex will be graded down to conform to that of the main pavilion and the seats will be arranged in a semi-circle so that those seated in the grandstand will look down upon the fountain and garden and over the same to the bandstand.

By the alterations and enlargement of the fair pavilion the directors will make a more interesting fair for everything will be new. The enlargement also permits of more space for booths and there is every indication that the booths this year will be large and arranged with more care than last fall.

Up to this time but few booth locations have been granted, as the amount of available space is not yet completely known. Weston is the only town to engage room so far and it has asked for the same location it had last year.

The local high school has also requested that it be given the same booth again and a few private locations have been given. Within a short time the other towns of the district and the private concerns intending to maintain booths will be seeking locations.

Robert Mottau of Tacoma, has fallen heir to an estate amounting to \$85,000, left him by a brother in Germany.

REPEATED MURDERS TO TERRIFY KOREANS

Seoul, Aug. 19.—In order to terrify the Koreans into obedience to the Japanese regime, the Japanese government is daily publicly hanging rebels in every city outside of the capital. The order for the executions was sent out three weeks ago and the Japanese soldiers are carrying it out gleefully.

The Japanese authorities tell foreigners who make inquiries that those punished are brigands. Official reports say that Korean revolutionists have murdered 841 Japanese in the past year besides the number of Japanese killed in battle, while the Japanese soldiers have slain 16,000 Koreans in the field in the same period. No progress is made toward the establishment of order in the interior of Korea. The Koreans are still armed and are in possession of the highlands and inaccessible parts of the country.

ARMY OFFICERS FLOCK TO HAINES' DEFENSE.

Scandalous History of the German "Knights of the Round Table" Repeated in American Army Circles, Says Mrs. Annis—Moral Degeneracy Has Sapped the Manhood From the Army—Annis Buried But No Reference Was Made to the Manner of His Death.

New York, Aug. 19.—Every officer of the United States army is rallying to the defense of Captain Haines, who shot and killed William Annis Saturday over the former's wife.

Following the publication of Mrs. Annis' counter charges in the divorce brought by him, army circles are indignant at the alleged conditions depicted in her complaint.

If true, it would show a state of affairs in the American army nearly as scandalous as the actions of the "Knights of the Round Table" of Berlin.

Her allegations of moral degeneracy have aroused a great uproar of indignation.

Annis was buried today. Although he was a Mason, the burial was not under the auspices of that order. The service was held at St. Michael's Episcopal church. No reference was made to the manner of his death.

The doors of the ball room were locked and a committee of three women searched all the women until Miss Price was reached. She objected, and against her protest the plumes were found in her stocking.
