You have to eat to keep alive. **INDIANS ARE TO LOSE LANDS**

**NEZ PERCES PROTEST OPENING OF FORESTS**

Lewiston Attorneys Start a Fight to Secure Indian Forest Lands But It Is Not Believed the Effort Will Succeed—Nez Perce Forest Lands Now Under Forestry Department.

The Nez Perce Indians are greatly exercised over reports that have been in circulation and have gained wide credence, that the Indian forests are to be opened for settlement and that in some cases filings have been accepted, says the Spokesman-Review.

How these reports arose is a mystery, but the Indians, always suspicious, believe fully that the government intends to take away their timber lands.

It is said that many of the Indians are to hold a tribal conference and that the long-haired, blanket reds are clamoring that the matter be taken up at once.

The Indian department recently turned the administration of these forests over to the forestry department and surveyors have been making plats for the department and it is probable that the rumor started from this.

Fillings have been offered on these lands by white people who have heard the report, but all have been rejected, and because of this some Lewiston attorneys have started a fight to open the lands.

The result will, it is believed, be a failure, for the forests are given to the Indians by treaty and only a supplemental treaty, ratified by congress, could open them, and to this the Indians will never agree. Some 30,000 acres are involved.
