

AMONG THE EXCHANGES OF THE INLAND EMPIRE

New Boats for Upper River.

Report reached the city Monday that the steamboat recently purchased by Van Arsdale and associates at Sandpoint to be placed in service on the upper Snake river would reach here today from Riparia, says the Lewiston Tribune. It appears that the boat was shipped from Sandpoint to Riparia and Mr. Van Arsdale has employed an experienced steamboat man to bring the craft here.

Mr. Van Arsdale is the owner of the little steamer Wilhelmina, which he built here several months ago. The power equipment of the craft was inadequate and he has arranged to install larger engines. He plans also to add a third boat and has organized a company to handle the fleet of steamers.

There have been repeated rumors that Mr. Van Arsdale is associated with one of the large railroad companies, but he states he is operating independently. Report in circulation Monday was to the effect that his company is receiving encouragement from owners of cement and coal properties in the Snake river section.

Yakima Cattle to Hawaii.

Mr. and Mrs. A. W. Carter of Honolulu arrived at the Yakima last night, having left their tropical island home some three weeks ago on what Mr. Carter calls a vacation trip primarily, but which he afterward admitted had a great deal to do with buying some of the blooded stock belonging to A. J. Splawn, and with that intent Mr. Carter went out to the Splawn ranch in the Cowiche this morning to confer with the rancher and possibly make arrangements for a shipment of stock to the islands, says the Yakima Republic.

Mr. Carter, who is a cousin of Governor Geo. O. Carter of Hawaii, was an attorney for 15 years in the islands, his home being on the island of Hawaii, which is the largest of the group, but of recent years he has dropped the practice of law and become a stockman.

First Woman Autoist to Crater Lake.

Mrs. John Olwell is doubtless the first woman to drive an automobile up to Crater lake, says the Medford Tribune. In company with Mr. Olwell, Mrs. Olwell met the Harriman party at Trail, then continuing on their way to the lake.

Mrs. Olwell drove her own Reo touring car the entire distance without accident of any kind. Coming

out on the government road after dark, the car swung fearlessly over the hill and valley without lights, the fair driver expressing her confidence that there were no rocks left in Uncle Sam's road.

Will Bore Four Oil Wells.

The Ontario Cooperative Oil and Gas company, the first of the week ordered a standard rig to cost in the neighborhood of \$12,000 and as soon as the same arrives active operations for the exploitation for oil and gas in this near vicinity will be commenced, says the Baker City Democrat.

The company will bore four wells through the shale, and there is no question but that natural gas will be found, and it is more than an even chance that oil will be encountered, for all reports of this field emanating from experts, are to the effect that this section, when developed, will be one of the largest oil fields in the United States.

Fast Runner Is Dead.

Snark, one of the fastest running horses ever brought to Oregon, is dead in this city, at the age of 10 years, says a Roseburg item. A kick from a fractious racing mare in Dick Turpin's barn broke the upper bone of his right hind leg and he had to be shot. Snark was brought to his city from Grants Pass Monday with the mare that kicked him and which is owned by Al Teal of that city. Both nags had been together for the past six months, and were to have been raced at the district fair at Marshfield next week. Snark was owned by Jacob Fry of Grants Pass.

Horses Died from Thirst.

W. J. L. Anderson met with an unpleasant surprise when he went out to his ranch a few days ago, says a Medford item. He left four head of horses in a field on the ranch when he left there, four weeks ago, and at that time there was ample water running in a creek in the field, but when he returned this week he found the creek dry and three of the four horses dead from thirst. One of these was a blooded brood mare, sister of the stallion Tybald, and the other three were her colts.

ALBEE NEWS NOTES

STOCKMEN PREPARED FOR COMING OF WINTER

Berries Are Plentiful Back in the High Mountains—Cattle Coming from the John Day Country for Shipment to the Sound Markets—Exhibit for the District Fair.

Albee, Aug. 24.—Weather fine and warm in day time with thunder showers for the past four nights.

The harvest is now about gathered and although the crop is lighter than usual the quality is good and the stockmen of this neighborhood are pretty well prepared for the coming winter.

The huckleberry crop is short around here but by going back about 20 miles there are lots of berries. There are now about 25 families camped in the vicinity of Pearson Meadows and Oriental Basin, laying in mountain fruit for the winter.

The late showers are bringing out the gardens. The spuds that were thought to be a failure now give promise of a fair crop.

Ed Brehm whose horses range on Hildaway reserve, has been riding for the past month, has returned to his home in Weston. He has left Bart Baraca in charge of his stock. However, Mr. Brehm will be back and forth to keep in touch with his interests here.

Sam Neal lost about 15 tons of hay and Ed Howard about 20 tons by fire when Mr. Neal's buildings were burned about 10 days ago.

Mrs. Joseph McDill and daughter of Pendleton, are visiting relatives here.

H. T. Connell has taken a trip to the coast for the benefit of his health. He will remain until the beginning of the Pendleton fair and return to exhibit some fine horses; also a small herd of tame deer raised on the Connell ranch.

A party went to the headwaters of Owens creek yesterday, chaperoned
