

GROCERIES ARE AN ABSOLUTE necessity to every human being. From the day you enter the world until the day you leave it you have to patronize, directly or indirectly, some grocery store. You have to eat to keep alive. Among the earliest lessons taught in life is a regard for your diet, by selecting only fresh and wholesome food, and a regard for your purse by practicing the well established rules of economy. We can sell you fresher and better goods and more of them for cash than you can buy elsewhere on open account. Look over our stock, get our prices, and be convinced.

CITY TO COLLECT FOR STREET WORK

MOST OF THE OVERDUE BILLS FOR MACADAMIZING.

Ringling of the curfew at 8:30 Each Evening Will Be Stopped as the Sound of the Fire Bell Frightens All Except Small Boys for Whom It Is Intended—Cost Will Be Added to Street Improvement Liens Where Collection Is Made by City Attorney.

At the meeting of the city council last night the city attorney was instructed to proceed at once to foreclose all outstanding liens for street work. There is now in the neighborhood of \$1000 due the city for street assessments. One paving assessment is still due while the remainder is for the macadamizing work on Franklin, East Court and West Alta streets.

Fire Limits Extended.
At the meeting last night the fire limit was extended to include the block burned last week, the ringling of the curfew was abolished and considerable routine business transacted.

SUICIDE AT BAKER.

Young Man Shoots Himself Under Strange Circumstances.

In a despondent frame of mind, bordering on aberration caused by brooding over something more imaginary than real, Draper M. Dobbins, night watchman in the employ of the Baker City Iron and Supply company, shot himself through the heart at 10:50 yesterday morning, with a revolver of 38 calibre, dying almost instantly, the act being committed almost in the presence of two or three people just inside of the business office of the company, says the Baker City Democrat.

Young Dobbins was engaged in conversation with Mr. Stewart, one of the owners of the iron works, and turned from him and through the door of the office.

A shot was heard and when those near by went outside the prostrate body of the suicide lay on the ground. The young man was of an eccentric turn of mind and very sensitive and at times indicated that he might commit self destruction.

Child Coughed Up a Ring.

One of the most peculiar cases that has come before the attention of local physicians for many years is the case of Miss Jennie Glasford of this city, a niece of Ex-Councilman William Glasford. For many years Miss Glasford has been a sufferer with throat trouble, her case was taken before physicians who were baffled at the case and could do nothing for her. This morning the case unraveled itself when in a coughing spell a small gold ring was dislodged and expelled from her throat. The ring was a small child's ring, but how it happened to lodge in her throat is a mystery.

Wenaha Stages Taken Off.

J. A. Borie, proprietor of Wenaha springs, has decided to take the stages out of service between the springs and the railroad as the summer season is closing. However, he will meet any one who will wire that they desire to go to Wenaha springs at any time. The season has been very successful and Mr. Borie is well pleased with his first year's experience. He has added much to the service and attraction of the resort and will add still more from year to year.

Suit to Collect.

Suit to collect \$400 from U. S. Montgomery, has been started by the Hastings Industrial company of Chicago. The amount is said to be due upon a note given the plaintiff and it was a subscription to stock in the Freewater creamery. The complaint was filed today by C. T. Godwin.

Crazy Negro Runs Amuck.

Mount Olive, Miss., Aug. 27.—Crazed by the long indulgence of cocaine, Gus Bullock, a negro, today ran amuck in this city and as a result of his insane outbreak, two white men are dead and another wounded. A posse followed Bullock to his cabin in the outskirts of town and shot him down. The body was riddled with bullets.

Wallace Had Bad Fire.

Wallace, Ida., Aug. 27.—The whole property of the Lane Lumber company and several residences were destroyed by fire early today. The cause is unknown. It is estimated the loss will be \$100,000. It was feared at first that the whole town was doomed. Half of the city fought the flames and extinguished them.

Woman's Body in a Lake.

IDAHO COMPANIES RETURNING HOME

GUARDSMEN ENJOYED OUT-ING AT AMERICAN LAKE

New Service Uniforms Are Now Worn by the Idaho Companies—Color Is Olive Drab and Will Be Issued to Oregon Guardsmen Soon—New Color Is Much Preferred by the Men.

Returning from the maneuver grounds at American Lake two battalions of the Idaho national guard passed through here this morning. They are traveling by special train and it stopped here for a half hour or longer while the men swarmed about the city, many of them taking breakfast in the city.

The Idaho regiment has just finished 10 days of work at American lake and the officers and men all declare they enjoyed the maneuvers greatly. The regiment was camped on the same ground where the Oregon regiments camped.

Other guardsmen at the lake at the same time were the Montana and Dakota regiments, each with 12 companies. The Idaho regiment also had three battalions, the other battalion being from the north end of the state and therefore required to go home over the Northern Pacific.

The Idaho regiment has already received the olive drab service uniform which is shortly to be issued to all the guard regiments of the United States. However they received them too late to have them issued in time for the encampment.

It is known that the Oregon regiments will be given the drab uniforms shortly and when they are received the guardsmen will then be fully equipped with the same arms and clothing as the regulars and they will be in shape to take the field any time they might be called out.

At the present time the khaki constitutes the service uniform for the enlisted men and it is considered good only during warm weather. If called out in the winter time the guardsmen not supplied with the drab uniform would have to wear the blue, which is not good for service.

WHEAT TO CALIFORNIA.

Coast Vessels to Supply Southern Mills With Oregon Cereal.

It is believed that considerable wheat will be shipped from here to California this season, more so than last year. Preparations to handle the grain are already under way, it having been announced that the steam schooner St. Helens will be here shortly to take a full cargo to San Francisco, says the Oregon Daily Journal. A few days ago it was announced that one of the Dollar liners under the American flag, would be here shortly to load wheat for California.

Year before last wheat shipments were unusually heavy, a constant stream of it going in steam schooners and occasional large steamers of American registry. Cargoes measuring as high as 2500 tons were set afloat occasionally and every regular liner carried from 500 to 1000 tons each trip.

Last year the shipments were not so heavy, although the total was a respectable quantity. A couple of cargoes were shipped in sailing schooners the Mindora and Oliver Olson being the craft engaged for each one voyage. If the lumber shipments show a heavy increase during the winter months, it is quite possible that a few of the sailing vessels now lying idle in the Columbia and at San Francisco will be pressed into service.

John Muir With Harriman.

John Muir, America's greatest naturalist, is visiting at Pelican Lodge with E. H. Harriman, the two being friends. Mr. Muir spends the greater part of his time out in the woods near the Lodge, and campers near have wondered about the old man whom they have seen sitting on a log, dictating to a young man. The young man is Mr. Harriman's stenographer, and the railroad magnate and the naturalist divide the day with him. The woods and the streams near the Lodge are perfect in their natural beauty, and Mr. Muir finds much of interest there. The streams are of crystal clearness and on a still day the reflection of the timber growing close to the water's edge produces some beautiful effects. It is not known how long Mr. Muir will stay at the Lodge.

Many old houses in Holland have a special door which is never opened save on two occasions—when there is a marriage or a death in the family. The bride and bridegroom enter by this door; and it is then nailed or barred up until a death occurs, when it is opened and the body is removed by this exit.

NEW ERA IN TROTTING STARTS IN NEW ENGLAND.

Readville, Mass., Aug. 27.—The well earned victory of M. H. Reardon's Indianapolis stallion, Allen Winter, at the Readville track today, thereby capturing the largest share of the \$50,000 American trotting handicap from a field of 33 starters, is believed by many of the 20,000 followers of harness racing who saw the contest, to establish a new era in the history of the sport and insure its rejuvenation in this country.

The race was novel in its conditions, which placed the horses a mile behind the usual starting point on a handicap based on their previous performances and at the conclusion it appeared to be the general opinion of all who saw the two preliminary heats and the grand finals that this system of racing would be popular in the future.

It was the first race in which Allen Winter had trotted this year and Lou McDonald, his driver, sized up the field in the two preliminary heats. In the first he watched 16 horses placed at marks from 1320 to 1370 feet behind the usual starting line sweep once and a quarter round the track to a grand finish with Beraldo in the lead.

In the second heat with his own horse 1570 feet from the wire and 670 feet to travel, he pushed Allen Winter carefully but surely past three other horses and kept ahead of the others, finishing a good third.

The first heat had been run off at a 2:08 gait for the mile, but the second was a few seconds slower. Then came the battle for final honors and the money, with 16 well known trotters in the field, the fastest being Sweet Marie, 2:05.

judge to a big bell it was possible for each judge to signal when his own horses were on the mark and facing the right direction. When all the judges were unanimous the bell rang automatically and the field was away. It was found that Prince had captured second money and San Francisco third money.
