An Echo of W. P. Rihorn.

Mrs. Anna S. Williams, the second wife of W. P. Rihorn, filed suit for annulment of her marriage in the circuit court this morning, says a Portland item. Mrs. Williams is the wife on whose complaint Rihorn was arrested on a charge of polygamy. She then discovered that her husband whom she had married as Pearl R. Williams, had another wife then living and not divorced, the other wife's name being Corda Ware Rihorn. Rihorn was arrested at Tillamook and brought back to Portland, where he pleaded guilty and was sentenced to one year in the county jail.

Thoroughbred Rams for Sale.

J. M. Keeney of the Cunningham Sheep & Land company, will arrive here this week with 1000 head of Cotswold and Lincoln rams from the Willamette valley for sale. He will be in this city all day Saturday, August 29, at the O. R. & N. stockyards and sheepmen are invited to inspect the rams. They are all young animals and thoroughbreds and this will be an opportunity to secure some fine rams for Umatilla county herds.

NO STAGE AFTER SEPTEMBER 1.

The stage from Bligham Springs station to Wenaha springs will not be discontinued until after September 1. In last evening's paper it was stated they would be taken off at once. As a number of people intended to go from this city to Wenaha Saturday and Sunday this correction is cheerfully made.

The grandmothers of the old Dutch Dunkard families of western Pennsylvania have made and used "Hickory Bark Cough Remedy" and reared their families on it for a hundred years. Now you can buy it of your dealers. Ask for it and use it, because it is pure; because it is the best cough remedy made today. Try it. For sale by any druggist and all dealers everywhere. E. A. McKenna, traveling freight agent for the Northern Pacific, arrived today from Baker City and other eastern Oregon points where he has been looking after shipments for his system. The shipment of fruit, hay, hogs, cattle and grain from eastern Oregon points will be heavier this year than ever before, according to his estimates.

MINER ASKS BIG DAMAGES.

Columbia Mine Sued for \$15,618 by Injured Employee.

Ora E. Bigelow, through his attorneys, Hart & Nichols, yesterday filed in the district court a suit for damages against the Columbia Gold Mining company, a corporation.

The complaint is quite voluminous and recites that the plaintiff was in the employ of the company as a pump man when an accident occurred and he was badly injured; that the machinery was unsafe and that it was through the neglect of the company that he received the injuries and the injuries left him a cripple for life.

The amount claimed in the suit is \$15,618, \$618 of which is for hospital fees and medical attendance.

The accident happened at the well known Columbia mine last February. Bigelow is 23 years of age and at the time of the accident was earning \$3.50 per day.

WHITMAN MAY LOSE TWO BIG ATHLETES

"Doc Brubaker" and Stanley Borleski, star Whitman college athletes, it is rumored, says the Spokane Chronicle, along with a number of other young college boys from the inland empire who have been playing professional ball this summer, intend to go to school at the University of Montana at Missoula, where the conference rulings are not in vogue and where they will be permitted to take part in college athletics, despite the fact that they have been playing ball this summer.

Borleski has been playing at Sand Point and with the clubs in the Spo-

kane City league, while Brubaker has been catching for Wardner-Kellogg. Besides these, Vaughn Jones is now playing for Wallace and John Halm is catching for the Wardner-Kellogg aggregation. They also intend entering the Montana state school. If this report be true, it is probable that the athletic relations between Missoula and the inland empire teams will be cut off.

BIG CARGO FOR ORIENT.

The Alesia Leaves Portland With Goods Valued at \$198,732.

Carrying a cargo valued at \$198,732, practically all of it being made up of flour, the Oriental liner Alesia, Captain Ernst, left down this afternoon bound for Hongkong and way ports, says the Portland Telegram. Her flour consignment measures 49,519 barrels valued at \$198,076, leaving but \$656 as the value of the general freight.

About 1000 barrels of flour will be delivered to importers in Moji and 797 barrels will go to Yokohama. More than 47,000 barrels will be discharged at Hongkong, to which port three-fourths of the shipments from the Willamette river have been sent in the past six months.

The little dab of goods on the Alesia constituting the miscellaneous freight is as follows: Five cases of beef and mushrooms, three packages of coffee mills, 17 cases of cereals and canned milk, 25 cases of electric fuses and 15 cases of condensed milk. That the steamer is loaded to capacity is shown by the fact that she is drawing 23.6 feet of water. It is planned for her to go to sea on high tide tomorrow.

CATTLE RATE LOWERED.

Government Orders Railroads to Cut Present Schedules.

A Washington dispatch says of the reduction of freight rates on cattle ordered by the interstate commerce commission yesterday:

A sweeping reduction of from 1 1/2 to 5 cents per hundred pounds on range cattle shipments, to be carried into effect by October 15, is effected in an order issued today by the interstate commerce commission in the case of the Cattle Raisers' association of Texas against the Missouri, Kansas and Texas and 58 other common carriers.

The reduction carries out the commission's condemnation last spring of the railroad advances in rates.

The rates ordered cut today are on range cattle from points in Texas, New Mexico and Oklahoma to northern ranges in Wyoming, Nebraska, South Dakota and Montana, and on cattle in carloads from the southwest to Chicago, East St. Louis, St. Joseph, St. Louis, Kansas City, New Orleans and Omaha.

Vast Range Area Burned.

A. S. Ireland, forest supervisor for the Deschutes national reserve, with headquarters in this city, returned today from the fire area south of Bend and says that first reports about the damage were not exaggerated, says an item from Prineville. Three entire townships have been burned over, half of one township being swept clean and the others destroyed except for small patches here and there. Mr. Ireland says it was the worst fire he ever saw affield. It was an unremitting fight night and day between 200 men and the flames, and the men conquered only after three weeks of the hardest kind of work, back firing being largely resorted to. Water had to be carried as far as 18 miles in some places by tank wagons devised specially for that purpose.

Good Upland Wheat.

Messrs. S. L. Baer of the Baer Mercantile company, and C. F. Oxman, the extensive sheep and cattle owner of Durkee, paid a visit yesterday to the Baer, Levinger & company's body of wheat land situated out on the Lillard Flat and Haines and brought back with them a sample of the wheat grown there estimated at about 50 bushels to the acre, says the Baker City Democrat.
