LAND LOTTERY WORKS WELL IN COLORADO

(By Charles Hyskell.)
Fort Garland, Colo., Aug. 29.—An estate nearly as large as the state of Rhode Island is to be added to the inhabited portion of Oregon by the opening and colonization of the historic Oregon military road land grant, comprising 500,000 acres in a strip 12 miles wide and extending through southern Oregon.

The company controlling the grant has adopted the auction allotment plan, this week successfully tried out in the allotment of 65,000 acres here in the San Luis valley of Colorado. I came here to see how the new plan is going to work in Oregon.

It was amazing to see the facility and harmony with which 6752 farms and the same number of town lots were distributed among 6752 men, entire strangers to each other, who hailed from 21 states and were representative of the best class of middle-west farmers and land seekers. The lands are irrigable. The company has on deposit \$250,000 for a reservoir and canal, and now has the plant about two-thirds completed.

The homeseekers pitched a tent city among the cottonwoods along Ute creek, and put up a large tent in which the business of the land opening was to be transacted. They elected three trustees, Robert N. Rankin of Aurora, Neb.; George McNair of San Angelo, Texas, and F. A. Hiberger, Wichita, Kansas, to conduct the allotment.

COFFEE

Insist on the roaster's name; never mind the country it grew or is said to have grown in.

Your grocer returns your money if you don't like Schilling's Best, we pay him

The farms and lots had been sold by the San Luis Valley Land company and each man held a clearance receipt, nominally a contract for a deed to a farm and town lot. These contracts provided for a distribution by the auction plan, but the holders had become uneasy, because the lands looked good and there was a possibility of lively bidding in excess of \$150, the amount each had paid for his farm contract.

After conferences with the postal authorities and R. J. Martin, president of the San Luis Valley Land company, the plan of the company became more fully understood by the trustees, who then endorsed and presented it to the general meeting, where it was unanimously accepted. Thereafter not a moment's hitch occurred. The partitioning went through with remarkable rapidity, and in six days the 6752 farms and 6752 lots were distributed. Briefly the plan is as follows:

An auctioneer who understands the proceeding comes upon the scene with two boxes, a correct list of all contract holders, and lists of the farms and lots. He writes the names of the contract holders on a slip of paper and puts them in one box. Similar slips, each containing number and acreage of a farm, number and block of a lot, are placed in the other box.

After being well shaken the names are then drawn out and written on "club sheets," each containing spaces for 10 names. Each club elects a captain, or has one appointed. The auctioneer now draws from the other box slips containing the farm and lot numbers and as they come out they are written in the space opposite the name of the club members. The partitioning is then conducted from the club sheets.

Plats of the farms and lots having been distributed to each contract holder, he is enabled to know what he is getting. As each number is called out by the auctioneer the club captain having that number on his list responds with a bid of \$150 for the person whose name is opposite.

If the person desires a farm other than the one drawn for him he can get it by bidding a premium above the \$150. The plan thus gives him power to make his own selection of a farm and lot. The auction feature is the thread from which hangs the whole proceeding, and the bidding is the test by which it is made valid under the postal laws, although sentiment against bidding premiums was so strong that the bidding was kept down to a low minimum, only a few premiums were bid, and the highest was \$250.

The plan has been hailed with joy by land men the country over. It offers a solution of the problem of carrying on large operations in selling and colonizing remote western lands under the double handicap of interstate commerce commission passenger restrictions and the government's prohibition of land allotments by lottery. There will be some minor changes made for the Oregon opening plan.

Campbell-Quinn Wedding.

Miss Maud M. Campbell of Weston, and J. E. Quinn of Milton, were quietly married in the parsonage of the First Methodist church, Second and Poplar streets, at 3 o'clock yesterday afternoon, the ceremony being performed by the Rev. M. L. Saunders, says the Walla Walla Union. Only a few friends and relatives were present at the wedding. Mr. and Mrs. Quinn will make their home in Milton.

The thriest man in the world never succeeded in making a wart on his Adam's apple save him the cost of a flor button.

MILTON CLERK GETS THE GIRL

F. R. VAN WERT IN A ROMANTIC COURTSHIP.

Rival Drug Clerks in a Race for the Hand of an Iowa Girl—Van Wert Comes to Milton and Continues His Campaign by Mail and Finally Goes to Omaha and Claims the Prize.

The following interesting story of a romantic match, courtship and marriage involving a young drug clerk of Milton in this county, comes from Omaha.

An Omaha dispatch says of the interesting affair: An unusual "soda water" romance found its culmination today at the court house, when Filson R. Van Wert of Milton, Ore., applied for a license to wed Miss Jessie King, of Omaha.

The story involves an unconventional race for a bride between today's benedict and Oscar Holmes. Both are druggists and for years ran a neck-and-neck race for Miss King's hand. In Villisca, Iowa, where the bride and groom went to school together, Van Wert introduced young Holmes to Miss King.

Holmes was chief of the prescription counter force in one of the drug stores and Van Wert was at the soda fountain. One day Holmes determined to go west and make a fortune. From Milton out in Oregon came stories that he was "making good."

"Van Wert a few months later was running a cut-rate drug store in his rival's town and the fight was on in earnest.

Meanwhile each was sending the young woman in Omaha glowing letters descriptive of his deeds and prospects. Holmes was put out of the running. He closed his shop and disappeared. Van Wert will take the girl to the Oregon town.

Hundreds of people who suffer from backache, rheumatism, lame back, lumbago and similar ailments are not aware that these are merely symptoms of kidney trouble. Pinules for the kidneys act directly on the kidneys, bringing quick relief to backache and other symptoms of kidney and bladder derangements. 30 days' trial \$1 and guaranteed or money back. Sold by A. C. Koepfen & Bros.

Farmer's Arm Terribly Mangled.

John Steinburg, the well known farmer who resides on one of H. W. Price's farms south of Pullman, met with a terrible accident this week, says the Pullman Tribune. He was working about the separator of a threshing outfit and reached through a belt to replace a chain belt on a cog when his arm was caught between the rapidly revolving belt and the wheel, terribly crushing and maiming the arm. The force of the wheel threw him forward and his head struck another wheel, fracturing his skull.

The Benedictine Fathers have moved from Cottonwood, Idaho, to the new monastery site on Craig mountain, four miles west of Cottonwood, where the monastery and college will be erected. The plans for the new institution are extensive and will involve a large outlay of money.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (Helonius Dioles) which is one of the chief ingredients of "Favorite Prescription": "It invariably acts as a uterine invigorator . . . makes for normal activity of the entire reproductive system." He continues "In Helonius we have a medicine which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonius Unicorn root. Pain or aching in the back with leucorrhoea; atonic (weak) condition of the reproductive organs of women; mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant amenorrhoea; or absent monthly periods; Aching from or accompanying an abnormal condition of the digestive organs and a gastric (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonius, and the medical properties of which it most faithfully represents. Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions, and general enfeeblement, it is useful." Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states." Prof. E. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)." Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

MILTON MEN ARRESTED FOR WHEAT STEALING.

Orle Steel and Jerry Stantorf, both of whom hail from Umatilla county, were arrested by the police yesterday on advices from across the state line, informing the police that the men were wanted for stealing grain from the fields in that county, says the Walla Walla Union. Steel was arrested at 11:40 yesterday morning, and a few minutes later his companion, Stantorf, was lodged in the city jail.

The arrests were made on suspicion, but a "sweating" given the men by Chief Davis yesterday afternoon brought forth the fact that they knew something of the disappearance of wheat in Umatilla county, and when Chief Davis told Steel that his "pal" had confessed, he likewise gave the officers some information. The same ruse was worked on Stantorf and he "coughed up."

The men were seen to drive out of Milton Wednesday evening and yesterday morning they came to this city and offered seven sacks of wheat for sale at the City mills. Patrolman McCauley appeared on the scene, and notified the mill men to defer payment until the Oregon officials could be communicated with.

Constable Dikes of Milton is expected to arrive in the city today to return the men there for hearing. Dykes made a trip to this city last week in search of the men, who, it is claimed, stole wheat from a field near Milton and disposed of it here. In explaining the theft of the grain Stantorf said he didn't steal it, but simply took it and intended to pay the owner as soon as he had returned with the money.

Attention, Asthma Sufferers.

Foley's Honey and Tar will give immediate relief to asthma sufferers and has cured many cases that had refused to yield to other treatment. Foley's Honey and Tar is the best remedy for coughs, colds and all throat and lung trouble. Contains no harmful drugs. Pendleton Drug Company.

If you see it in the East Oregonian, it's so.

TINY SPARK CAUSES AUTO TO EXPLODE.

Walter Wood's automobile was totally destroyed Sunday afternoon at the Woods farm as the result of an explosion, says the Watsburg Times. As the story came to us Walter had just charged the storage batteries of Dr. H. A. Mount's machine and was engaged in charging the batteries on his own machine, when it is presumed he crossed the wires in some manner causing a spark which ignited the gasoline, causing a tremendous explosion.

Mr. Wood was blown out of the auto shed, the automobile caught fire and before the flames could be extinguished the shed was in ashes. A tank containing 160 gallons of gasoline which was stored close to the shed failed to explode, which probably saved the destruction of his fine residence. The loss is estimated at about \$3000.

There are many imitations of I. Witt's Carbollized Witch Hazel Salve, but just one original. Sold by Tallman & Co.

Holdup Captured.

Alva Bills of Ritzville, has been arrested at Monitor on the charge of holding up and robbing an Italian at Ritzville last fall. Bill's accomplices have already been arrested.

DeWitt's Kidney and Bladder Pills will promptly relieve all Kidney and Bladder disorders. Sold and recommended by Tallman & Co.

ANOTREDA LADY'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, Sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home, as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes. If the above interests you, for proof address Mrs. M. Summers, Box R. Notre Dame, Ind.
