Miss L. R. Lorenz, who has been here with the Streeter-Bryan people for a few days, left for her home in Cove last evening. After a few weeks she will join the Streeter-Bryan company in California, where she will be married to Frank Weeks, a member of the aggregation.

Miss Sadie Yardley of the St. George restaurant, has returned home from Long Beach, where she spent a week with 21 other young women who were the guests of the Portland Telegram as the result of a subscription contest. The stay at the beach was cut short a week on account of cool weather there.

## HARRIMAN IS AFTER 7000 FREIGHT CARS.

Harriman is in the market for 7000 cars, mostly freight cars. Some of the new equipment will be cars for construction purposes on new branch lines, says a San Francisco item. There will also be 100 cabooses. The new equipment will be divided among the Southern Pacific, Union Pacific, Oregon Short Line and the C. R. & N. Harriman's four big lines in the west.

This decision was reached at a conference at Klamath Lake last Thursday, where Harriman is spending his vacation, and where he is holding conferences with most of the leading officials of the so-called Harriman system.

When it is remembered that an order for a large number of cars means orders and specifications for steel, steel castings, bar iron, malleable iron castings, railroad specialties of various kinds, car wheels, lumber and a large variety of other material, it will readily be appreciated that the business affects a great many interests scattered throughout the country.

Mr. Harriman is representing there is to be a big improvement in business all over the country in a few months, because of the large crops. He is in close touch with all reports from the agricultural districts

and from the industries and merchants dependent upon the farmers.

A few days ago he was in receipt of advices to the effect that this year's crop would amount to fully 2,666,000 bushels, as against 2,592,000 for 1907, and that the wheat crop would amount to 672,000,000 bushels, as compared with 634,000,000 bushels last year.

Friends who have recently talked with Harriman, at his summer retreat, say he expresses the opinion that the first half of 1908 demonstrated that the country is in a very different condition from that following any previous financial panic. During its years of prosperity it has accumulated actual wealth. The enormous investments of the last 10 years have been more promptly productive than those of any previous period of expansion.

Indeed, he is said to say that it is not too much to state that there has never been a like period in the history of this or any other country in which its energies and capital have been so effectively directed and completely employed as during the last 10 years in the United States.

According to him views he is said to express the reports coming from all sections show there are two factors in the situation distinctly more important than all others, and one of them makes powerfully for improvement, while the other is a drag upon recovery. The first is the condition of the farming class, and the other the condition of the railways. The reports from the agricultural districts and from the industries and merchants dependent upon farmers show business with them to have been but slightly disturbed, while every industry which looks to the railroads for patronage has suffered severely.

## MAY TURN SALMON RIVER INTO MILL CREEK.

Deputy State Game and Fish Warden C. L. Whitney, William Russel, George Strum and Fred Harmon returned yesterday from a hunting and fishing trip in the Blue mountains near the headwaters of Salmon river beyond the crest of the mountains, says the Walla Walla Union.

They brought back reports of numerous bear and deer signs but failed to land any of the big game. They did, however, have excellent luck fishing and strung many a fine speckled beauty which would measure 20 inches or better. They claim old settlers in the mountains say there were more bear than there are at the present time and the country near there is a veritable hunter's paradise.

While on this trip Mr. Whitney took special pains to investigate the feasibility of turning the waters of Salmon river into the channel of Mill creek. A conservative estimate of the flow of water in this stream is placed at five times that which flows through Mill creek when the latter is a full tide.

Mr. Whitney thinks that by cutting a four-foot tunnel through the crest of the mountains this could easily be done and water could be supplied both for domestic uses in this city and the irrigated farms in the valley sufficient for all purposes.

The Salmon river is fed from cold springs and the water is as pure as it can possibly be for the walls of the overhanging canyons are so steep that cattle and horses cannot descend to its brink.

There could be no possible objection from any source from turning the waters this way because and Salmon flows through a country absolutely uninhabited and its waters are not used for any purpose.

Three freight cars were broken into between Plaza and Rosalla Wednesday morning and a quantity of merchandise was stolen. Three men were seen to run from the train when it reached Rosalla, but they escaped.

## NEWS OF MILTON

### STATE TEMPERANCE WORKER OF WASHINGTON.

Push Club Takes Up the Matter of Big Exhibit for District Fair—Rev. B. J. Hoadley of the M. E. Church Accepts Call for Another Year.

Milton, Aug. 31.—Rev. W. B. Eakin, a former pastor of the M. E. Church in this city, and now working in the cause of temperance as state organizer for the state of Washington, spent a few days in town visiting friends.

Mrs. George Miller returned home on Friday from Portland, where she has been visiting friends. Miss Lola Rennie, who is taking a course of training for a nurse in the Portland Sanitarium, accompanied her home.

Robert Pert of Seattle, arrived in Milton last week and has accepted a position as plumber in A. Allen's plumbing shop.

Rev. Mr. Hilton, pastor of the Christian church, who has been spending his holidays in the Cascades mountains near Ellensburg, returned to Milton on Saturday and occupied his pulpit on Sunday.

Mrs. B. J. Hoadley, wife of the pastor of the First M. E. church of Milton, who has been spending the summer at the seaside, returned to her home this week. Rev. Hoadley has

accepted a unanimous invitation from the board to return to Milton for another year.

Rev. Gabriel Sykes, district superintendent, occupied the pulpit in the M. E. church yesterday and administered the sacrament.

At the meeting of the Push club tonight Mac Cockburn, one of the directors of the county fair, will advocate the advisability of a big exhibition from this end of the county.

The Dorothy ranch, consisting of 60 acres, a few miles above Milton, has been sold in 10-acre lots, bringing \$225 an acre. The following gentlemen have been the purchasers and will build homes and plant orchards, in the near future: Paul Austin, George Harris, H. Grady, D. Harris, A. A. Munn, B. Smith, B. Paulsen and J. Demaris.

### Preached at Freewater.

Freewater, Aug. 31.—Rev. J. M. Cornelson preached last night in the Presbyterian church at Freewater to a large audience. The congregationalists gave up their service for the occasion and the Presbyterians of Fruitvale, Valley, Milton and Freewater united in the service.

Dan Kirk of Hudson Bay, has bought an automobile from Rev. Andreas Bard of Walla Walla. It is said to be the speediest auto in the valley.

For sale—Beautiful piano and other furniture at great bargain. Mrs. Hilton, 312 South Main.
