

## GOVERNMENT PLANS TO SAVE RESOURCES

Washington, Sept. 10.—The first returns to the national conservation commission show that Uncle Sam is making fine headway with his inventory of natural resources.

It is perhaps a bigger job than he at first suspected, but indications are that he is going to get through it in good time. Very likely it has cut short the vacation plans of some of his best helpers, but there has been no complaint. His corps of investigators, statisticians, experts and scientists have buckled down closely to the work all summer.

Inquiries have been going out from this and that government office by the thousand. They have gone to special agents in the field, to the government stations here and there, to bureaus of statistics all over the country, to county clerks, to township assessors, to manufacturers, to lumber dealers, to railroad and steamboat companies, and to farmers.

The chiefs of the government bureaus have been wanting to know about lands—farm lands, timber lands, mineral lands, about crops and crop production; about swamp and overflow lands; about irrigation; about navigation—how far the use of our inland waterways has decreased and the reason for the decrease; the cost of water traffic as compared with railroad rates; the use of water power and its possibilities; about all phases of the forests and of timber and lumber; about how much of minerals we have left and the probable duration of the mineral supply, and about livestock and game and fish.

This is only the most hurried kind of general sum-up of the "Schedule of Inquiries" of the national conservation commission. Just what is really to be seen only by studying a copy of this most unusual document, the "Schedule," on which Uncle Sam is basing the first inventory he ever attempted to make of his natural wealth. It can be obtained by writing a letter to Thomas H. Shipp, secretary of the national conservation commission, forest service, Washington, D. C.

The conservation commission also gets out "Bulletins of Progress" which show just how rapidly the conservation movement, started at the White House conference of governors, is going forward. These also may be obtained from the secretary.

Since the governors and the great national organizations have shown so great an interest in the conservation of resources the movement has spread all over the United States. New state conservation commissions are reported to the national conservation commission at the rate of three or four a week and large national organizations are rapidly coming forward with conservation committees of their own.

The conservation movement may be said now to be firmly established. All the government bureaus are rapidly pushing work on the inventory of resources in order that a preliminary report may be made to the national conservation commission at its meeting in Washington, Tuesday, December 1.

One week later, Tuesday, December 8, the governors of the states and territories or their representatives, will meet in Washington with the commission. Already, although the invitation has not yet been issued,

### "The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. **Purify impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It purifies and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.**

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 693 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels

the governors of some 12 or 15 states and territories have announced their intention to be present at the meeting. Among these are Governor Frear, of Hawaii, and Governor Hoggatt of Alaska.

That the conservation movement is absolutely nonpartisan is shown in the vigorous declarations in the platforms of both leading political parties in favor of conservation of natural resources. Mr. Bryan, who spoke at the governors' conference, has declared himself strongly in favor of conservation and Mr. Taft, in his speech of acceptance, went on record as an advocate of the movement.

It is a question on which the American Federation of Labor and the National Association of Manufacturers agree. Justices of the supreme court of the United States have written President Roosevelt expressing unqualified approval of the movement to save the nation's natural wealth, and Cardinal Gibbons, just before leaving to be present at the pope's jubilee in Rome, gave out a strong statement as to the duty involved in making provision for future generations by taking care of the resources of the country.

The work of compiling the great mass of material resulting from the inquiries sent out by the different government bureaus will undoubtedly be one of great responsibility and one requiring expert knowledge and peculiar ability.

For this task President Roosevelt has selected Henry Gannett of Washington, D. C., assistant director of the Cuban census. Mr. Gannett, who is one of the best known men in the government work at Washington, is just now finishing the compilation of the census of Cuba.

At the conclusion of that, by direction of the president, he will devote all of his time to the compilation of the material which, when completed, will make up the first inventory of natural resources ever attempted in the United States.

### A Paying Investment.

Mr. John White, of 38 Highland avenue, Houlton, Maine, says: "Have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the 50c bottle of Dr. King's New Discovery, before that was half gone, the cough was all gone. This winter the same happy result has followed; a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Sold under guarantee at Tallman & Co.'s and Pendleton Drug Co.; 50c and \$1. Trial bottle free.

### Publicity Cures Drunkard.

Oklahoma City, Okla., Sept. 10.—Newspaper publicity as a cure for drunkenness has been successfully tried in Oklahoma City, and the new method of reforming habitual souses may become a worthy rival of the Salvation Army tactics and the gold cure.

Recently a reporter for a local paper discovered a sad case of destitution, a worthy woman and her children being ill, starving and on the point of being evicted from the hotel they called home. Investigation of the case showed that the recreant husband and father, a big, strong ex-policeman, had for months failed to contribute to the support of his family, spending all his time and money carousing in low saloons.

Appealing for aid for the mother and little ones, the newspaper published on the first page, under a scarehead, a scathing denunciation of the drunken head of the impoverished family. There was no mincing of words, and the man was held up to public ridicule as a worthless fellow unfit to associate with decent human beings.

Instead of calling on the editor with a gun, the newspaper publicity had the effect of suddenly sobering the drunkard. He began to see the light. The spectacle of his family dependent on public charity aroused his latent pride. He called on the editor and with tears in his eyes promised to turn over a new leaf. Then he donned his working clothes and went out to hunt a job.

### Twenty-four Hour Contest.

New York, Sept. 10.—Beach track will be the scene tomorrow and Friday of the twenty-four hour contest of the Motor Racing association. A number of speedy cars and dare-devil drivers are entered and the race will doubtless be sufficiently exciting and hair-raising to satisfy the most exacting automobile enthusiast.

The promoters plan to conduct a number of short distance events on Friday afternoon and start the 24-hour contest at 8 o'clock Friday evening. It is expected that several match races between well known drivers and cars will be run as part of the short distance program on

## TO THE INVESTOR IMPORTANT

In our announcement of yesterday we failed to state that we had decided to place only a limited amount of acreage on sale at the current prices, a further increase going into effect after the disposition of this allotment. Our terms will still remain the same, making it convenient for anyone to easily take care of their land.

When you consider that we are favored with a perfect elevation for the growing successfully of all fruits and vegetables, alfalfa, etc., that we are within 12 hours of the main markets of the great northwest, favored by a climate that assures an earlier season than Yakima or Hood River, and with a depth of soil, by test, varying from 15 feet to 70 feet, these lands are bound, with the development of the next few years, to be the richest in this country.

There is no sophistry to this, but plain fact, proved by the history of developed irrigated sections. THIS IS THE TIME TO BUY. LOW PRICES, EASY TERMS.

### COLUMBIA LAND CO.

D. B. COSTUMA, Manager  
E. O. Bldg., Main & Webb Sts.  
Pendleton, Oregon.

Friday afternoon. The events will be run under the racing rules of the Motor Racing association and no sanction has been asked from the American Automobile association racing board.

An innovation in connection with the race meet is a committee to pass upon the eligibility of the drivers named by entrants of cars. The members of this committee are Guy Vaughan, Joe Tracy and A. C. Campbell, all of whom have won fame as racing drivers who have retired from track racing. Their task will be to decide whether or not the drivers named as pilots for the competing cars are skillful enough to be permitted in the various events for which they have been entered.

Cups or bronzes are to be offered for the winner of each event and there are to be four cash prizes for the four leading cars in the 24-hour race: First, \$750; second, \$400; third, \$250; fourth, \$100. A tire concern has offered a special prize of \$400 if the winning car in the 24-hour race is equipped with its tires, and \$150 for second place. Although the promoters have been assured they could have a large number of entries, they have limited the 24-hour contest to 16 cars.

### A Sure-Enough Knocker.

J. C. Goodwin, of Reidsville, N. C., says: "Bucklen's Arnica Salve is a sure-enough knocker for ulcers. A bad one came on my leg last summer, but that wonderful salve knocked it out in a few rounds. Not even a scar remained." Guaranteed for piles, sores, burns, etc. 25c at Tallman & Co.'s and Pendleton Drug Co.

### Make War on Hughes.

New York, Sept. 10.—With next week's state conventions of the republican and democrats now but a few days distant, the politicians of both parties are busily engaged in pulling the wires by which they hope to accomplish their own particular ends. The republican county convention met to organize today, and the delegates to the state convention will be selected tomorrow. Interest continues to center in the republican gubernatorial contest. Friends of Governor Hughes declare that his nomination is a certainty, but the opponents of the reform executive have not by any means given up the fight.

The republican convention will be held Monday. Secretary of State Elihu Root will preside as temporary chairman, and Joseph H. Choate, former ambassador to Great Britain, will be the permanent chairman. Mr. Choate is an ardent supporter of Governor Hughes.

Among the gubernatorial possibilities mentioned, in case the convention should side-track Hughes, are James M. Wadsworth, Jr., speaker of the assembly; Jacob Gould Schuman, president of Cornell university; Congressman Payne, chairman of the house committee on ways and means and State Senator Horace White of Syracuse.

DeWitt's Carbollized Witch Hazel Salve is the best thing to use for piles. Sold by Tallman & Co.

### "Persimmon" Regiment.

Wolcottville, Ind., Sept. 10.—Veterans of the famous "Persimmon" regiment, the 100th Indiana, met here today for their 23d annual reunion.

DeWitt's Little Early Risers are small pills, easy to take, gentle and sure. Sold by Tallman & Co.

Read the East Oregonian.

### DO NOT THINK THAT COUGHLIN DID IT

Mineola, L. I., Sept. 9.—After an examination of the prisoner Doctors Wright and Burns today declared they were convinced that John Coughlin, arrested yesterday at Sagamore Hill, was not connected with the supposed attempt on the life of President Roosevelt Saturday. To a representative of the United Press Coughlin today said his home was at Walpole, Mass., where he lived with his father, James Coughlin. He denied any intention of harming the president and asserted he was nowhere near Oyster Bay last Saturday.

The man talks in a rambling fashion and evidently is demented. He explained that he carried a revolver for his own protection and said he had no idea of ever using it except in self defense. There is no indication that the revolver has been fired recently.

He could not clearly explain the rambling story he told at Sagamore Hill last night about wanting the president to send troops to Boston to capture yeggmen.

It is probable he will be confined in the Long Island asylum unless his relatives arrange for his being cared for otherwise. It is believed he is harmless.

Millions of bottles of Foley's Honey and Tar have been sold without any person having experienced any other than beneficial results from its use for coughs, colds and lung trouble. This is because the genuine Foley's Honey and Tar in the yellow package contains no opiates or other harmful drugs. Guard your health by refusing any but the genuine. Pendleton Drug Co.

### Honor Mary Queen.

Vienna, Sept. 10.—Memorial services of a most solemn nature were held today in many Vienna churches, in memory of the Empress Elizabeth, who was assassinated by an anarchist in Geneva 10 years ago today. Elizabeth was a daughter of Duke Maximilian of Bavaria, and was married to Emperor Francis Joseph in 1854. She was universally loved and respected by the people of the dual monarchy and her memory is still held in affectionate reverence.

### Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Remedy will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Remedy is taken in time. Pendleton Drug Co.

### Postmasters Meet.

Indianapolis, Ind., Sept. 10.—Postmasters of the second and third classes from all over the United States are in Indianapolis today at the opening of the convention of their national organization. The sessions will occupy three days and postal matters will be thoroughly discussed, the speakers including Washington post-office department officials. Seattle, Wash., and Lawton, Okla., are candidates for the next convention.

When Trifles Become Troubles. If any person suspects that their kidneys are deranged they should take Foley's Kidney Remedy at once and not risk having Bright's disease or diabetes. Delay gives the disease a stronger foothold and you should not delay taking Foley's Kidney Remedy. Pendleton Drug Co.
