

GROCERIES ARE AN ABSOLUTE necessity to every human being. From the day you enter the world until the day you leave it you have to patronize, directly or indirectly, some grocery store. You have to eat to keep alive. Among the earliest lessons taught in life is a regard for your diet, by selecting only fresh and wholesome food, and a regard for your purse by practicing the well established rules of economy. We can sell you fresher and better goods and more of them for cash than you can buy elsewhere on open account. Look over our stock, get our prices, and be convinced.

STUDENTS SHOW A FINE SPIRIT

FIRST MEETING OF STUDENT BODY LAST NIGHT.

Funds for the Expenses of the Student Organization Will Be Provided by Small Contributions From Individual Students—Debating, Football and Other High Class Features Are to Be Plentiful This Year.

Pendleton high school students showed yesterday afternoon that they are entering upon the year's work with a good stock of enthusiasm and school loyalty. These are qualities in which they were strong last year, and evidently the same spirit will again prevail.

It was the first meeting of the student body for the year and Harold Warner, president of the association, was in the chair. During the meeting the members of the faculty, several of them being new members, gave brief talks to the students and several students spoke on subjects that are now live issues in the school.

In order to start the student body fund for this year it was voted to accept voluntary subscriptions from students with the proviso that no student donate more than 50 cents. The subscription was started yesterday and \$30 was immediately secured. All high school money, from student enterprises, goes into one general fund and the expenses of the football,

basketball, debating teams, etc., are paid from this fund under the direction of an executive committee.

Last year the students paid off an indebtedness of \$125 in addition to financing all the enterprises of that year. It is the policy of Superintendent Landers and Principal Hampton to see that the financial end of the various student enterprises is properly looked after.

FINED FOR GAMBLING.

Proprietor of Soft Drink Resort Pays \$75 to the City.

Dee Matlock, proprietor of the Columbia resort, contributed \$75 to the exchequer of the city yesterday afternoon. It was the amount of his fine for conducting a gambling house. On the night that a poker game was discovered in the rooms above the Matlock place recently, the proprietor left on a night train, a fact that prevented his arrest at that time.

But upon his return yesterday a complaint charging him with conducting a gambling house was made in the recorder's court by City Attorney Raley and Matlock was brought before Judge Fitz Gerald.

Shortly after 4 o'clock Matlock appeared and admitted his guilt to the recorder.

"As this is your first offence your fine will be \$75," said the court and the \$75 was paid.

The five men who were caught gambling in Matlock's place were charged \$25 each for their sport.

New Law Firm Organized.

Watts & Nell will be the name of a new law firm in this county, the members of the firm being Homer I. Watts of Athena, and the other member of the partnership his Harvard classmate, Nell. The latter arrived here today from the east for the purpose of taking up the practice of law in this county. Under the arrangement Mr. Watts will have an office at Athena while his partner will be located at Freewater.

Mrs. W. P. Caviness Dead.

Word was received here yesterday of the death of Mrs. William P. Caviness, Malheur county. She died there on August 7 from paralysis and was 42 years of age. The deceased and her husband formerly lived here and her maiden name was Miss Juliet Kelsoy. Sid Saylor of Umatilla, is a brother. The first news of her death was received here yesterday by Mrs. C. J. Smith and the information has caused much regret among former friends of the deceased.

Here From Alberta.

Jonathan Johnston, agent for the Canadian Pacific irrigated and wheat lands near Calgary, Alberta, is in the city today a guest of Hotel Bowman. He has just returned from the north and is enthusiastic over the fine crops of all kinds which are being harvested in Alberta this season. He will return in a few days with a party of homeseekers from Walla Walla.

New O. R. & N. Operators.

J. L. Whiting, who has been on the "split" trick as operator at the O. R. & N. offices in this city, is now working the last trick from 10 p. m. to 8 a. m., and F. D. Shepherd is working the "split" trick. Mr. Whiting takes the place of Alfred Noth, who is now ticket clerk at the Walla Walla offices.

To Heppner for Burial.

At 8 o'clock this morning the remains of little Virginia Carroll, who died at Pilot Rock yesterday, were shipped from here to Heppner for burial. The child was the daughter of Mrs. W. J. Carroll of Pilot Rock.

TEA

The way to buy tea is in packages; somebody is responsible for it.

Your grocer returns your money if you don't like Schilling's Tea.

THE REASON WHY!

Do you know that this bank is growing more rapidly than any other bank in the county? Watch our statements to the comptroller, and see. We carry a larger reserve than any bank in the county. Our customers and the public at large feel more at home in our bank than any in the county, why—because we make their interests our interests. If you have money to deposit or need money, come in and see us.

OLYMPIC ATHLETES WERE ASLEEP

PASSED THROUGH PENDLETON ON TRAIN NO. 5.

Local Boys Were Misinformed as to Time They Would Go Through and Met Today's Train Instead—Oregon and Idaho Football Managers Here on Way to Respective Schools to Begin Season's Work.

Smithson, Gilbert and Kelley, heroes of the Olympic games, passed through Pendleton on train No. 5 last night and as a result this city was unable to make any demonstration in their behalf. When they passed through all three world record breakers were sound asleep in Pullman berths and could not have been seen had their admirers remained up to meet them.

Among local people it was generally presumed the trio would pass through on No. 1 today and at that time a number of students and other friends of the athletes were on hand only to learn that they had been misinformed.

Football Managers Here.

Several northwest college football men of prominence were also in the crowd at the O. R. & N. depot, some having arrived on No. 1. All of the big colleges of the states are now preparing to open and a bunch of students were on the trains passing through today. Ralph McEwen of Athena, manager of the U. of O. football team this year, was one of those to take No. 1 for Portland. He is now lining up university players for the coming year and says the school will lose five of its old men.

Manager Savage of the University of Idaho was likewise one of those going through today. He is bound for Moscow where he will have the business management of the football eleven this winter.

Charles Stricklin, formerly of the Pendleton high school, but who has been at Moscow the last two years, was another one of the group. He is now bound for Corvallis to attend O. A. C. this winter.

Edgar Smith, of this city, who has been at Oregon for three years, was another of the group, as was also George Strand, star quarterback on the high school team and Orville Reeves, one of last year's speedy halfbacks. Smith is going to Cornell this year and will leave the coming week. With the work he has had at the U. of O. he will be able to finish Cornell in one year.

DEMONSTRATION TRAIN FOR WESTERN OREGON

More elaborate than any similar train ever run over a railroad in the Pacific northwest will be the farming demonstration train to be operated through the Willamette valley, Oregon, by the Southern Pacific company in October, recently announced by R. B. Miller, general freight agent for the Harriman lines in this territory, says the Pacific Homestead.

The train will be run under the direction of the Oregon experiment station, and Dr. James Withycombe, director of the Oregon experiment station, will be in charge. He will have a number of assistants, and lectures and demonstrations will be given that are calculated to improve farming conditions and methods.

A striking feature of the train will be a number of dairy cows that will be carried in special freight cars and housed in part at stalls. These animals will be high class dairy cows and they will be milked at various stations by a compressed air milking machine that will be demonstrated to the farmers. The milk will be run through separators carried on the train and the various processes of dairying will be shown.

The cows will show the farmers the best types of dairy cattle and their proper care will be impressed upon the farmers by object lessons.

There will be a number of cows given over to exhibits of various kinds that will be highly interesting to the farmers. Modern agricultural implements of every sort will occupy one car. An exhibit of grains and grasses will be carried. Material for horticultural instruction, showing the best methods of budding, grafting, pruning, spraying and packing fruit will be carried, and a special series of object lessons will be given to show the farmers how to pack fruit commercially.

Boys Freewater Farm.

Walter Bitney of Pendleton, has bought the old Pierce place just east of the Freewater Times. The place of town on the telephone line, says consists of 59 acres and the consideration given was \$5000. Mr. Bitney is a successful wheat rancher, this year having raised 4600 sacks of wheat. The family will remove here in about two months, but in the meantime the Times will weekly tell them of the doings of their neighbors. Mr. and Mrs. Bitney will have a hearty welcome, and from what we have seen of them they are just the kind of people we need. Thrifty, intelligent, up to date people in their methods are Mr. and Mrs. Bitney and they will find a place at once in the life of this progressive community.

Seeking Artesian Water.

Water has been struck in the well which is being drilled at the Niswonger place near Powell Buttes at a depth of 508 feet, and the water stands 30 feet deep in the well. But Mr. Niswonger wants an artesian flow and the well will be sunk deeper, plans being made to go 1500 feet if necessary.—Madras Pioneer.

Men and Young Men Are Demanding College Brand Clothes

WHY?

Because they demand style, fit, quality and finish moulded together by the best craftsmen in America and assuring absolute correctness—cheerful attire that satisfies that ever sought feeling, of being well dressed.

\$20 TO \$35 SUIT.
