THE "ALBERTA RED"

FAMOUS WINTER WHEAT
OF THE NORTH

Through Half a Century of Trials in
the Rigors of the North it has Be-
come Acclimated to All Parts of
Canada—This Year This Famous
Wheat is Paying the Entire Cost
Price of the New Land.

As the Polled Angus cattle have
been acclimated through centuries of
life in the northern climate, so has
the famous "Alberta Red" winter
wheat been acclimated and made im-
mune to the cold of the northern
climate. For the past half a century
farmers in the far north, up in north-
ern Alberta, Saskatchewan and Mani-
toba have been growing this hardy
wheat, enjoying yields all the way
from 35 to 60 bushels per acre under
the most unfavorable circumstances.
For this reason this hardy wheat
of the far north is converting hun-
dreds of square miles of Alberta into
rich and productive fields. It has
been trained to grow in the north.
Repeated tests and repeated sowing
in the cold climates have made it in-
vulnerable to the rigors of even
northern Saskatchewan, while in Al-
berta it yields and flourishes in enor-
mous quantities in all kinds of sea-
sons.

This year the famous Alberta red
winter wheat is paying for the seed-
ing, harvesting and fending of land
and beside paying for the land.
Yields of from 35 to 60 bushels are
common on the new land recently
thrown open by the Canadian Pacific
east of Alberta.

It costs but \$7.50 per acre to break,
seed and fence the new land and \$4.50
to cut and thresh it, while the land
is yielding from 35 to 60 bushels of
wheat at 50 cents. The total cost of
seed and harvesting the land is
but \$12 per acre, while the crop is
worth all the way from \$26 to \$40
per acre.

Since the first cost of the land is
but \$12, \$15 and \$18 per acre, ac-
cording to its location, it is seen that
thousands of poor settlers owe their
homes to the hardhead and staying
qualities of the Alberta red.

All the way through Alberta prov-
ince as far as the eye can see this
year are wheat fields, the shocks
thick on the ground and the elevators
full. So the land yielded exceptionally
well this year and prices of land have
advanced all the way from \$5 to \$8
per acre in the past year and it is
thought they will advance still more
in the next year on account of the
enormous crop and the heavy immig-
ration into the country this year.

Passed Examination Successfully.
James Donahue, New Britain,
Conn., writes: "I tried several kid-
ney remedies, and was treated by our
best physicians for diabetes, but did
not improve until I took Foley's Kid-
ney Remedy. After the second bot-
tle I showed improvement, and five
bottles cured me completely. I have
since passed a rigid examination for
life insurance." Foley's Kidney Re-
medy cures backache and all forms of
kidney and bladder trouble. Pendle-
ton Drug Company.

**HEAVY WEIGHT BATTLE
IN THE BOSTON RING**

Boston, Sept. 15.—The ring of the
Armory Athletic association will be
the scene tonight of a 12 round bat-
tle between two heavyweight near-
champions, Marvin Hart and Phila-
delphia Jack O'Brien.

Hart declares his confidence that
he will win a decisive victory over the
Philadelphia, and will then go after
Burns and challenge the lemon cham-
pion to do battle.

That is Marvin's chief object in
taking on the faking Philadelphia.
He has already trimmed O'Brien
twice. He met him in Philadelphia
May 19, 1902, and again on May 5,
1903, in six-round bouts. On both
occasions he had O'Brien on the verge
of a knockout throughout. It took
all O'Brien's foxiness and ring skill
to stay on his feet until the last bell.

As these were the Philadelphia no
decision bouts, Hart's victories do not
figure in his record, another case of
the hard luck that has pursued him
in his ring career. But the news-
papers all said that Hart whipped
O'Brien to a frazzle.

This was when O'Brien was at his
best. Burns has never whipped
O'Brien decisively. He inveigled
O'Brien into the ring out of condi-
tion at their last meeting as Burns
had agreed to lay down to O'Brien
and the Philadelphia did not get
ready for him. Burns, on the other
hand, got himself into prime shape
to give O'Brien a thorough beating.

He failed to do so, for although
O'Brien had not trained and was
given a severe nervous shock as soon
as he entered the ring, all bets being
declared off. He went the 20 rounds
with Burns and there was little to
choose between them at the finish.

Hart says all he wants is to get in
the ring with Burns. He will fight
Burns, winner take all, and will agree
to give Burns all the money if he
doesn't stop him in 20 rounds.

When Trifles Become Troubles.
If any person suspects that their
kidneys are deranged they should take
Foley's Kidney Remedy at once and
not risk having Bright's disease or
diabetes. Delay gives the disease a
stronger foothold and you should not
delay taking Foley's Kidney Remedy.

NOT A PARTICLE OF SKIN ON BODY

Worst Case of Eczema Doctor Had
Seen in 40 Years—For Six
Months Father Expected His Baby
to Die—Blood Oozed Out All Over
Her Body—Had to Be Wrapped
in Silk and Carried on a Pillow—
Now She is Perfectly Cured.

DOCTOR RECOMMENDED
CUTICURA REMEDIES

"My little girl was born two weeks
before her time and my wife died four
hours after the birth of our child
and I had to raise
the baby on arti-
ficial foods. Six
months after birth
she broke out and
I had two doctors
in attendance.
There was not a
particle of skin left
anywhere, and we had to wrap her in silk
and carry her on a pillow for ten weeks.
She was the most terrible sight I ever
saw, and for six months I looked for
her to go to her mama, but thank God
and his agents, she is alive and well
to-day and she will be three years old
the seventh of December and has never
had a sign of the dread trouble since."

"I used every known remedy to al-
leviate her suffering, for it was terrible
to witness. Dr. C. gave her up
and then I went to C. F. and got
Dr. B. and he and Cuticura Soap
and Cuticura Ointment saved her. He
recommended the Cuticura Remedies,
or said we were right in making use
of them. As nearly as I can remember,
we used eight cakes of Cuticura Soap
and three boxes of Cuticura Ointment;
but you must take into consideration
that her was an exceptional case, for
an old and good doctor said that it
was the worst case that had come to him
in forty years. I have always hinged on
Cuticura Soap to keep her skin soft and
to give her a pure complexion. James
J. Smith, Wood and Metal Pattern

5000 engineers and contractors' work-
men are engaged today on the biggest
task of its kind ever undertaken—the
task of constructing the gigantic new
water supply system which New York
city is creating for itself at a cost of
\$162,000,000; the system which in
eight years, or a little longer, will be
delivering into the city 500,000,000
gallons of water daily and which will
avert, it is hoped permanently, the
impending threat of water famine
from our present city, says a New
York item.

When finished the Catskill aqueduct
will be able to carry not only the
250,000,000 gallons of water daily
which the Ashokan reservoir will fur-
nish, but also the additional quantity
which it is proposed later on to draw
from other watersheds of the Cats-
kills.

By 1915, it is calculated, New York
will be using 710,000,000 gallons of
water every day and to meet the needs
of a time when even Ashokan will not
be able to supply the city's great
thirst plans have already been made
to utilize further the resources of the
hills when needed.

The Ashokan reservoir itself will
cover an area of 8200 acres, or 12.8
square miles, divided by a dike into
two basins. It will be 12 miles long,
nearly three miles wide at its widest
point, and will have a shore line of
40 miles. Its storage capacity will be
130,000,000 gallons. The maximum
depth of water will be 190 feet; the
average depth 50 feet.

From the little village of West Hur-
ley, eight miles west of the Hudson
river, to its upper end beyond West
Shokan this immense storage basin
will bury under its water an area of
country having at the present time a
permanent population of 1900 and a
summer population of at least 2900.

Seven villages will be wiped from
the map; 32 cemeteries will be sub-
merged, and 2400 bodies buried in
them will have to be removed to other
resting places. Sixty-four miles of
public highways will be included
within the reservoir or discontinued
because of its building, and 25 miles
of new highways will have to be built.

The Ulster & Delaware railroad,
which runs through the Esopus val-
ley, will be submerged for 11 miles,
and to carry the road around the gap
thus made 14 miles of new track will
have to be located and built.

Foley's Orino Laxative is a new
remedy, an improvement on the laxa-
tives of former years, as it does not
gripe or nauseate and is pleasant to
take. It is guaranteed. Pendleton

THE AMOUNT OF YOUR "BELIEF IN ADVERTISING" WHICH IS PUT INTO TYPE IS WHAT COUNTS.

There is probably a clothing
ad in today's paper that will
remind you that your new suit
is overdue. Meet the ad "face
to face," and it will help you to
meet the clothes problem that
way.

If you have lived too long in
one place, look at the furnished
rooms advertised today—and
get a change of scene.

It won't pay you to try to deal
with a buyer who wants your
property only half as much as
"the right man" would want it.

Any quest by which you can
make a "new test" of want ad-
vertising today? Think it over.

Your store is NOT "big
enough," or prosperous enough,
unless your ambition and aspi-
rations are under-sized.

There never was a day in any
calendar when adequate ad-
vertising would do more for
your store than it will today.
