Northwest.**

EXPECT BIG YEAR FOR 'VARSITY

Over Two Hundred Freshmen Enter
With Opening Week—School Has
Many New Professors of Different
Branches—New Librarian Enters
on Work—Congestion of Classes Is
Now Relieved.

Eugene, Sept. 24.—Over 200 freshmen are expected to enter the University of Oregon during the present week, according to Registrar Tiffany, who says that the school's outlook this year is exceptionally brilliant.

The faculty of the university has been increased this year by the addition of nine members. Last year it was impossible to do this, owing to lack of funds, and as a result many of the professors were compelled to take more classes than they could properly handle. As the prospects are very favorable for a large increase in the student body this year, the increase is very welcome.

In the department of political science Professor James D. Barnett will assist Professor Young. He is a graduate of the College of Emporia, Kan., and took his Ph. D. degree at the University of Wisconsin.

Dr. Hugo Koehler has been secured as instructor in the German department, and will take charge of the elementary classes. This will relieve Professor Straub, who took part of the freshman class last year.

Miss Mary H. Perkins will take Miss Slater's place in the English department. Miss Perkins is a graduate of Bates college and took her A. M. degree at Radcliffe.

Professor F. L. Barker will assume the head of the mining department, vacated by Professor Terrill. He has taken the degrees of B. S. and E. M., the latter at the Colorado School of Mines. He has had practical experience, and is known as one of the best experts in the middle west.

The other new instructors are Assistant Professor L. R. Alderman, in the department of education; James Currie, in the department of chemistry; Samuel Elliot, in the department of psychology; Associate Professor Fink, in the department of civil engineering, and Miss Mozelle Hair, in the literature department.

The university will also have a new librarian. Miss Camilla Leach has resigned, and her place will be taken by M. H. Douglas. Mr. Douglas received his training at the library school of the University of Wisconsin and was librarian at Iowa college, where he built up a splendid library.

Professor Carson will also be assisted this year by Mrs. Ella M. Ponnell, who will act as assistant dean of women, and perhaps teach in the English department.

These changes will make the faculty much stronger, and will relieve the congestion of last year.

PROHIBITION CAMEL WILL WILL BE USED ON BALLOT

Chicago, Sept. 24.—The prohibition camel has been entered in the national race against the republican elephant and the democratic donkey. In a number of states the law requires that each party have an official emblem printed on the ballot, that no voter may mistake his ticket.

Alonzo E. Wilson, state chairman of the prohibition party, announced today that the prohibitionists have decided to adopt the camel as their mascot, replacing the emblem of the fountain and rising sun, which formerly indicated the prohibition column.

Among the reasons advanced by Mr. Wilson for the selection are that the camel is the original "water wagon" that can discern a fresh supply of water farther than any other quadruped; that it can travel faster than the elephant or donkey, and that it is under no necessity of getting a bump on itself, being already supplied with the article.

A Paying Investment.

Mr. John White of 38 Highland avenue, Houlton, Maine, says: "Have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the 60c bottle of Dr. King's New Discovery; before that was half gone, the cough was all gone. This winter the same happy result has followed; a few doses once more banished the autumnal cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Sold under guarantee at Tallman & Co.'s and Pendleton Drug Co.; 50c and \$1. Trial bottle free.

IMPERSONATING WITTE AND WINS HIS WAGER

New York, Sept. 24.—A tall, distinguished looking man stepped from a cab in front of the entrance of the Hotel St. Regis at noon yesterday, surveyed his surroundings leisurely, and slowly mounted the steps. He passed several guests in the lobby, who turned to stare at the stranger. At the desk he found himself looking into the keen eye of the day clerk, who has seen service at the hotel since it opened, says the American.

While the stranger was in the act of dipping the pen in the ink and reaching for the register, the clerk's eyes opened wide, and an exclamation came to his lips.

"Why, your excellency, Count Witte, when did you arrive?"

The remark was pitched in a tone which could be heard by a dozen persons. They stepped forward quickly to obtain a better view of the distinguished Russian, former minister of finance, counsel of the czar and special envoy of the peace conference at Portsmouth, Maine, where he signed

PULL OUT A HAIR.

The Way to Tell If Your Hair Is Diseased.

Even if you have a luxuriant head of hair, you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic. You can make a test yourself that you can see and understand, which will tell whether your hair is healthy or not. Pull a hair out of your head, if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want everyone in Pendleton whose hair requires treatment to try our Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. Rexall "93" Hair Tonic is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, to tighten the hair already in the head, grow hair and cure baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 93 heads, which should be sufficient proof that Rexall "93" Hair Tonic contains extraordinary curative and hair growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you to try it at our risk.

Rexall "93" Hair Tonic is a clean, clear preparation which does not grease, gum or thicken the hair, and it has a very pleasant odor. We have it in two sizes, prices 50c and \$1.00. The Pendleton Drug Co.

the famous protocol which settled the war with Japan.

The greatest excitement prevailed for a minute, while the visitor surveyed the clerk with amusement. Then he spoke in easy, even tones:

"Thank you, so much. I win my bet." And he departed more quickly than he came.

It developed that Henry Jewett, who portrays the character of the Russian grand duke in Liebler & Co.'s "The Man From Home," at the Astor theater, and who "makes up" so cleverly that he is the counterpart of Count Witte, had taken \$25 from Joseph Plunket, Liebler & Co.'s acting manager, on a bet.

When Count Witte was last in this country he spent several weeks at the St. Regis with his suite. Jewett declared he could enter the hotel in his makeup and fool the clerk. It cost Mr. Plunket \$25 to find that Mr. Jewett was right. At the hotel yesterday it was said that in another moment the double of Count Witte would have been recognized.

HOW TWO MILLIONS FOR WATERWAYS WAS SECURED

The Upper Mississippi River Improvement association has more than demonstrated its "right to exist." It has afforded a concrete example of what may be accomplished by united effort, in arousing public interest and in securing action by congress, says the St. Paul Pioneer Press. To the efforts of this organization must be attributed the voting by congress of \$2,000,000 in four annual installments for permanent works of improvement. To the same agency we owe the change of plan which provides for a six-foot channel at low water all the way from the Missouri to St. Paul, instead of the four-and-a-half foot channel originally contemplated. It is this association which is to unify effort for the making of one great tributary, the St. Croix—through a canal connection with Lake Superior—part of a grand "Lakes to the Gulf" waterway; the canal and river at the same time, bringing the Twin Cities the coal and other tonnage of Lake Superior, at a fraction of the present cost. The same unity of effort is to develop that other tributary, the Minnesota, as the great water highway for the grain of the Red river region to the Twin Cities and onward to the gulf.

There is every motive, then, for the cities along the upper river, and particularly for St. Paul and Minneapolis, to show a lively interest in the approaching meeting of the association, at Clinton, Iowa, September 22-24. The attention given by congress to that portion of the great waterway improvement program now before it in which the upper Mississippi states are most concerned, will be measured by the zeal with which the cities and commercial bodies hereabouts demand such attention. If we sit still and let the St. Louis and Chicago people do all the shouting for their pet items of waterway improvement, we must expect to see them "hog" the appropriations of congress.

The Clinton gathering will again "hammer" for this appropriation. If other associations are wise enough to concentrate their hammering also upon this one object, there is little doubt that it will go through. Well-informed congressmen share this view. If it does, the upper Mississippi and its two northernmost tributaries are sure to receive early attention when those millions are to be apportioned.

Nebraska Bankers.

Lincoln, Neb., Sept. 24.—Members of the Nebraska Bankers' association from all over the state met in annual session here today. The convention will continue through tomorrow, after which many of the delegates will proceed to Denver to take part in the national gathering of bankers.

White Plague War.

Philadelphia, Sept. 24.—Many men eminent in medical circles are present at the Conference of Tuberculosis opened here today, virtually as a part of the International Congress in Washington. A program of important papers and addresses has been prepared for tomorrow and Saturday.

Read the East Oregonian.

LA GRANDE PLANS SYSTEM FOR PURE WATER SUPPLY

La Grande, Ore., Sept. 24.—La Grande is to have an adequate water system, and following this a sewer system will be installed, which will do much to place the city on a basis of cities double its size in the northwest. The city council is negotiating the sale of \$160,000 in bonds, which were voted last year but were not sold, on account of the financial stringency in the east. A bond brokerage firm in Chicago has agreed to

take the bonds, having sent a man here last week to look up the law and pass upon the issue.

When the money is available, work will begin on the Beaver creek system, surveyed and carefully planned for two years. The supply will be taken from a mountain stream 17 miles south of the city, flumed to the city, creating a power for electrical generation equal to 350 horsepower, and dropping into the city water enough to serve the city for domestic purposes, fire protection and sewerage purposes until the town shall have trebled its present size. Present

plans are to generate power for city lighting, the installation of a municipal plant being among the possibilities in future years. At present the lighting is done by a private concern.

A Sure-Enough Knecker.

J. C. Goodwin, of Reidsville, N. C., says: "Bucklen's Arnica Salve is a sure-enough knecker for ulcers. A bad one came on my leg last summer, but that wonderful salve knocked it out in a few rounds. Not even a scar remained." Guaranteed for piles, sores, burns, etc. 25c at Tallman & Co.'s and Pendleton Drug Co.

To Run in Autos.

Dallas, S. D., Sept. 24.—Several automobiles have arrived here to be used by entrants at the opening to settlement of the Roseburg Indian reservation next month. Many prospective settlers are already congregating here and the number is expected to amount into the thousands long before the date set for the opening, October 19. The lottery system will be used in awarding the lands.

DeWitt's Carbolyzed Witch Hazel Salve is the best thing to use for piles. Sold by Tallman & Co.
