KENTUCKY'S WOMEN VS. KENTUCKY'S WHISKEY

Paducah, Ky., Sept. 25.—That Kentucky, famous for its fair women and its Bourbon whiskey, is a house divided against itself, is shown by the enthusiasm of the delegates here today at the opening of the state convention of the Women's Christian Temperance union.

The fair women have decided that the Bourbon whiskey must go and the Blue Grass state be redeemed from the "curse of the liquor traffic." Means for accomplishing this end will be discussed by many famous men and women during the sessions of the next four days. On Tuesday, the last day of the gathering, Eugene W. Chafin, the prohibition candidate for president is scheduled to deliver an address.

ILLINOIS STATE FAIR OFFERS MANY PRIZES

A SURPRISED MINISTER.

Hyomel Cured Bronchial Catarrh After He Had Given Up in Despair.

"For many years I have been a sufferer from bronchial catarrh, and had despaired of anything like a cure. Judge of my pleasant surprise when I first used Hyomel, which brought complete relief. Hyomel has been a veritable godsend."—Rev. Charles Hartley, Sardinia, Ohio.

There are many readers of the East Oregonian who are suffering from catarrh, either nasal or bronchial. Many of these despair of ever being cured. They have soaked their stomachs with nostrums until they are disgusted with all medicines, and are now traveling in their miserable way, allowing the devilish germs of catarrh to sap them of their health, energy and vitality.

But let us reason together. Tallman & Co. the druggists, have a guaranteed remedy for catarrh, colds, coughs, bronchitis, croup and all inflammatory diseases of the nose, throat and bronchial tubes. The name of this remarkable remedy is Hyomel, and if it doesn't cure Tallman & Co. will give you your money back.

Hyomel (pronounced High-o-me) is medicated air, you just breathe it through the inhaler over the inflamed and germ ridden membrane, and its soothing antiseptic properties will allay the inflammation, destroy the germs, and restore the entire respiratory tract to its normal conditions.

A complete Hyomel outfit, including a hard rubber inhaler, costs but \$1.00, and an extra bottle of Hyomel, if afterwards needed, costs but 50 cents. See Tallman & Co. about it today.

weather is needed to insure the greatest state fair ever held in the central west.

The race track of the fair grounds, which now holds the world's race record of 2:00 1/2, is faster and in better condition than ever and some great speed contests are assured. All of the best trotters and pacers on the Great western circuit are now stabled here and will be seen in action during the next week.

PATRIOTIC CELEBRATION AT HASKENSACK, N. J.

Hackensack, N. J., Sept. 25.—One of the greatest patriotic celebrations ever held in this section will take place tomorrow, when the Fort Lee Revolutionary Battle Monument Association will unveil a handsome statue to mark where the evacuation of the Palisades is supposed to have taken place.

The great battleship New Hampshire will represent the navy department and will fire a salute. Members of the Grand Army of the Republic, the Spanish War Veterans, Sons of the Revolution and other patriotic organizations will participate in the ceremonies. Thousands of school children will march in the parade that will precede the unveiling ceremonies.

RESIDENCE RULE IS NOT LIKED

HERMISTON ASKS CHANGE IN GOVERNMENT PLAN

Believe Present Conditions Hold Back Development of the Project—Seek Change in Ruling to Require Certain Amount of Development in Lieu of Residence—Matter Will Be Agitated at Albuquerque.

Hermiston, Sept. 25.—Hermiston proposes to do some little lobbying at the National Irrigation congress at Albuquerque in which congress this project will be represented by some of its prominent citizens.

In what it seeks this project will be joined by others from the ranks of the national irrigation schemes, and whether a resolution can be gotten through the congress to that effect, at least some sentiment can be secured tending to the removal of the residence clause now attached to the securing of government water for these schemes.

Those familiar with national schemes of reclamation declare that this residence clause is now hindering greatly in the work of settling up the big projects the government has now completed. But in no instance is its working more pernicious than in the case of the Umatilla project.

As is well known, the government experts look upon the Umatilla scheme as a fruit district primarily, and declare that its conditions of soil and climate will make it one of the best fruit growing sections in the United States when once developed. For this reason the farm unit on the project has been cut down so low that it precludes the possibility of any but intensive cultivation. The 10-acre farm is the rule at Hermiston.

On such a plot one can not afford to lose any of his crop, but during the past year the breaks in the ditches, etc., ruined many of the first crops of the settlers.

As it now stands, these people are bound to reside within 20 miles of their land if they get water next year. Although it has been proven by some of the successes this year that one can make a living during the years the orchard is coming into bearing by cultivating garden and small fruit crops during the first years the failure of the past year makes it doubly hard upon those now on the ground. Many of the present settlers are people with businesses or positions in other places, who are anxious to continue with the assured income they have to give up during the pioneering days in the project.

The government officials have been making a sort of liberal interpretation of the ruling which in a measure allows this, but it is at best a subterfuge, and as Secretary Garfield has indicated a desire to assist by a new ruling it is thought that some agitation of the matter at Albuquerque may assist in the effort being made here.

It is a known fact that Carey act projects are settling up faster than those of the government of the same character, as witness the success of Twin Falls contrasted with Mindoka. The non-residence conditions are responsible for this state of affairs, according to those who have studied the matter.

Hermiston people will recommend that the residence clause will be removed and that there be substituted therefore a ruling to the effect that a certain amount of improvement be made on the property each year, or that some resident, not necessarily the owner, be required. This will force a development of the country more rapidly than under the present scheme, and will place the opportunities of National Irrigation within the reach of those who are on a salary.

LA GRANDE ELKS WILL OPEN NEW HALL

The furniture for the Elks' lodge hall and club rooms arrived and was installed yesterday, that is to say considerable of it landed here yesterday and the balance is expected along any day, says the La Grande Star.

That received yesterday was certainly handsome and will add greatly to the appearance of the hall. The La Grande lodge is one of the strongest in this part of the state, there being 400 members here.

When the rest of the furniture is installed the lodge will have a grand opening in their spacious and handsome club rooms. The time for the opening has not been decided upon yet, but will be at the next meeting.

The La Grande lodge has under contemplation the erection of a handsome building of brick or stone. No definite plans have been decided upon as yet, but may be during the winter months.

SHOCKS US, BUT SHOCK US IN THE NAME OF ART

Interest is already being manifested in this city at the forthcoming performance of "Coming Thro'" the Rye, as we are to be given the first opportunity of witnessing the sensational "Salome" dance, which is one of the new added features of this year's performance. Pendleton, like all others, clamors for everything that is new and we will see this oriental dance in its early popularity.

Miss Margaret Taylor is the one that will be seen in this vision. She is an English dancer, and one of the first to set the craze in this country, who has been praised by the press in all the cities that she has thus far appeared in by the modest way she is costumed and the classical way she executes the dance.

To My Friends

Before accepting the position I now hold, I made a thorough inspection of the stock—Clothing, Overcoats, Gent's Furnishings and Shoes, and in fact the entire line of merchandise—to ascertain if I could honestly show and recommend the goods carried here. After the investigation, I was considerably surprised at the fine line of correct and seasonable styles, textures and models carried by Mr. Moses and more so by the prices charged, which are far below any I have noted in the city, for the same quality of goods. This is explained by the fact that Mr. Moses pays cash and thereby discounts his bills—giving his patrons the benefit gained.

Based upon this inspection, I cordially invite my friends and acquaintances to call and see me—just that I may prove what I have said above—whether you care to buy or not.
