TO REMOVE RESTRICTIONS

AGITATION STARTED AT ALBUQUERQUE

Promoters of Irrigation Projects Would Have Residential Clause Stricken Out—Would Have Development Only Requirement for Delivery of Water.

At the National Irrigation congress at Albuquerque was begun agitation which may lead to the removal of the residence restriction attached by the government to the delivery of water through its schemes of national irrigation, and the substitution therefor of a requirement of a specified amount of development according to Col. J. F. McNaught, of Hermiston, Umatilla county's only representative at the congress who visited here yesterday while on his way to his home.

"The removal of the residence restriction was taken up by the congress," said Col. McNaught, "especially in committee meetings, and while but little was accomplished toward that end, we have hopes of getting a more favorable hearing at the Spokane congress next year.

A Successful WEDDING

Is impossible without the help of a jewelry store. Try to think what such an affair would be without the presents. Try to imagine a ringless, giftless wedding. It's unthinkable. So you would find it hard to get along without us at such a time. We have a great big, interesting array of gift materials. And the beauty of it is that the majority of them are anything but expensive. We suggest Cut Glass or Silverware or some dainty article of China. Call and take a good look through.
