PENDLETON, OREGON, THURSDAY, OCTOBER 8, 1908.

NO. 6398.

CHICAGO WINS CHAMPIONSHIP

Thirty-three Thousand People
Witness Greatest Game in
History of Baseball.

CONTEST PRECEDED BY FIST FIGHT

Windy City Nationals Will Meet Detroit Americans to Decide World's Championship—Great Excitement Prevailed and Hundreds of Extra Police Used to Preserve Order—Games Shut Long Before Game Was Called—Weather Ideal—Game Won in Third Inning.

New York, Oct. 8.—Early indications are that millions of fans will endeavor to crowd themselves into the polo grounds, a space holding 35,000, this afternoon to witness the greatest struggle in the history of organized baseball for the championship of the national league.

The crisis has arrived after two weeks of suspense. Chance brings the Chicago Cubs, refreshed after a three days' rest. The game decides which team is to meet Detroit, champions of the American league, for the world's championship.

Weather Ideal.
The weather is ideal with a warm sun and a slight breeze cooling the bleachers, which are filling rapidly.

The jam at the gate is terrific and an extra detail of a hundred and fifty police, including mounted squads, has been ordered to the grounds to aid in restraining the crowds from scaling the fence.

The gates will be closed long before the game starts on account of the crowds.

Fans Miss Fans.
There is an attendance of 25,000 at 1 o'clock. The noise is terrific. The New York fans are hissing the fans from Chicago.

Matthewson pitches for New York, Pfeister for Chicago.

Pitcher McGinnity of New York and Manager Chance of Chicago, engaged in a fist fight before the game started. McGinnity tried to push Chance off a base during practice. The men were separated.

Chicago was first to bat but made no runs in the first inning.

New York Scores First.
Tenny of New York, made a safe smash and scored later. Pfeister was unsteady and Brown succeeded him at the end of the first inning. Score, New York 1, Chicago 0.

In the second Chance slammed out a safe one but was caught napping. Hoffman was sent to the bench for protesting and Howard took his place. Steinfeldt and Howard fanned. No runs.

When New York came to bat McCormick and Bridwell flew out and Matthewson went out on an infield hit. No runs.

Chicago Gets Busy.
In the third with Chicago at the bat, Tinker made a three-bagger, Killing flew to center, scoring Tinker. Brown went out. Schultes' two-bagger scored Killing while Chance's two-bagger scored Evers and Schultes. Steinfeldt fanned. Chicago, 4.

Chicago Wins.
Chicago wins by the score of 4 to 2. New York made a run in the seventh inning. Devlin and McCormick singled; Bridwell was walked, filling the bases; Doyle popped out and Tenny flew out, while Devlin scored on a throw in; Herzog flew out. There were 33,000 paid admissions.

National League Games Yesterday.
At New York—New York 2, Boston 2.

At Philadelphia—Brooklyn 2, Philadelphia 4.

American League Scores.
At Washington—First game, Washington 1, New York 0. Second game, Washington 9, New York 4.

At Boston—First game, Boston 14, Philadelphia 1. Second game, Philadelphia 5, Boston 3.

Pacific Coast League.

Los Angeles, Oct. 7.—Los Angeles won the second game from Portland today by pounding Garrett hard. Score: R. H. E. Los Angeles 8 14 2. Portland 2 5 3. Batteries—Nagle and Hogan; Garrett and Frambes.

San Francisco 1, Oakland 0.

San Francisco, Oct. 7.—San Francisco shut out Oakland today by a score of 1 to 0. The winning run was scored in the second inning, when Beck scored a home run. Score: R. H. E. San Francisco 1 5 0. Oakland 0 3 5. Batteries—Sutor and Berry; Nelson, Loucks and LaLonde.

GLASS DRIVEN INTO BRAIN; GIRL LIVES

Surgeons Perform Operation That May Save Life of the Victim.

New York, Oct. 8.—Although the point of a large silver of glass pierced her skull and entered the brain, it is believed that Blanche Goldstein, 15 years old, of Brooklyn, will lose neither life nor reason as the result of an operation performed by surgeons at St. Mary's hospital.

The remarkable vitality of the child was taken advantage of by the doctors and a tumor gathering at the base of the brain was removed and the wound was closed antiseptically and the brain covering brought together. The puncture in the skull was small and it will be easily trepanned.

The child was playing in front of her home last Friday when a large pane of glass was dislodged from a window on the third floor of the house. It crashed edgewise on her head, a sharp fragment entering the top of her head. The girl fell unconscious and cut her chin and face severely on fragments of the glass on the sidewalk. Upon the removal of the gathering on the brain, the little girl who had been semi-unconscious since the accident, brightened up perceptibly and asked that her parents be brought to her. She recognized them at once upon their arrival. The doctors predict a complete recovery.

CRIMINAL INSANE TREATED CRUELY

WASHINGTON INSANITY COMMISSION REPORTS.

Committee Appointed by Governor Mead Finds Bad Conditions at Walla Walla Penitentiary—Patients Kept in Cells for 22 Hours Each Day—No One to Blame—Separate Building Is Needed.

Seattle, Oct. 8.—The state insanity committee, appointed by Governor Mead to examine into the conditions of insane criminals and the criminal insane confined in the state penitentiary at Walla Walla, has reported that the conditions were extremely bad, and because of inadequacy, were cruel.

Many of the patients are dangerous and on that account cannot be granted the privileges enjoyed by the convicts. The result is that they are confined to their cells for 22 hours each day, with but two hours for open air exercise. This with vitiated physical conditions due to prolonged confinement, tends to sink the unfortunate into hopeless dementia.

The commission reported that the conditions demanded a separate building for these patients where under protective walls for the public safety they could have light employment, exercise and some freedom. The conditions as they now exist are pointed out to be a great disgrace to the state though no individual blame can be made.

CLERK OF SUPREME COURT JAILED FOR DRUNKENNESS.

Sacramento, Cal., Oct. 8.—It was learned today that H. W. Griffin, clerk of the supreme court of Utah, spent 15 days in the county jail charged with disturbing the peace here. He was arrested last Monday on complaint of a passenger in a Pullman car who claimed Griffin attacked him. He was sentenced to 90 days.

Influential friends in Utah had Griffin brought into court at the end of the 15th day and discharged. Friends claim Griffin was in San Francisco, where he was drugged.

STAGE ROBBER DAYS SURVIVE

Lone Robber With White
Mask Holds Up Roseburg
Myrtle Point Stage.

SEVEN PASSENGERS RELIEVED OF VALUABLES.

Superintendent of Stage Line Compelled to Put His Hands Up With the Others—One Woman Hides \$1500, While Another Carried Valuable Jewels Safely in Her Stocking—Portland Man Saves Purse by Dropping It—Two Revolvers in Booty Secured.

Roseburg, Ore., Oct. 8.—"Hands up, this is no joke."

With this command a lone robber, masked with a white handkerchief, stepped out of the brush half a mile south of this city at 10:30 last night and compelled Superintendent W. C. Benham of the Myrtle Point stage line, Tom Duncan, the driver, and seven passengers, to deliver their valuables.

Among the passengers was Mrs. Rooney of Toledo, Ore., and Mrs. Burnett of San Francisco, who were unharmed.

The robber failed to find \$1500 in the possession of Mrs. Rooney, and several hundred dollars worth of jewelry concealed in the stocking of Mrs. Burnett. From the five he secured a total of \$43.50 and two revolvers. A man named Hastings, of Portland, saved his purse, containing \$69, by dropping it.

The robbery occurred on a high grade. A posse is in pursuit.

D. R. TRAPP GUILTY IN SECOND DEGREE

Murdered Slim Jaspersen, Also a Bartender in August at Huntington.

Baker City, Oct. 8.—After being out 15 hours the jury in the case of the State of Oregon versus D. R. Trapp, returned a verdict about noon yesterday of murder in the second degree. Trapp shot "Slim" Jaspersen last August in a saloon at Huntington. Both men were bartenders, and the motive for the shooting has never been disclosed. Trapp's defense was that he was drugged, and while under such influence shot Jaspersen. The murder was a cold-blooded affair according to the evidence, Trapp entering the Frazier saloon at Huntington and deliberately shooting Jaspersen. The murderer's father was here from Missouri, and is suffering intensely from the disgrace of the whole affair.

Washington's Charity Board.

Seattle, Oct. 8.—Governor Mead was elected president of the Washington conference of charities and corrections. W. B. Vincent of Spokane, and Mrs. Levi P. Ankeny of Walla Walla, are among those appointed on the executive committee.

Kermit Plays Football.

Boston, Oct. 8.—Among the scrub material for the Harvard freshman football team is Kermit Roosevelt, son of the president, who is endeavoring to get on the regular team. He is rather light, but is a snappy player.

Home Burned.

The residence of Charles Pindell was burned to the ground at Lewis Monday night. The fire was started by the overturning of a lamp by the children, who were playing hide and seek.

WAR CLOUDS IN EUROPE'S SKY

Scores Injured in Clash Between Servian Mob and Belgrade Police.

CRETE HOISTS FLAG OF GREECE ON HIGH.

Troops Have Hard Time to Subdue Uprising of Belgrade Populace. Aroused by Weak Tenor of Protest Against Action of Austria—Albina Declares Independence From Turkey and General Rebellion Is Feared—Turk Says His Country Will Declare War.

Belgrade, Servia, Oct. 8.—Several scores were injured today in a clash between the police and a mob which was attacking the foreign ministry.

The people became incensed at the weak character of the note of protest sent by the ministry to Austria regarding the recent action of that nation. The mob threw stones and the police used sabers. In some instances the mob overpowered the police and took their sabers, but the crowd was finally driven back after a hard fight with the troops, who answered the first call issued in the trial of Ukase Tuesday.

Albania Rebels.

Vienna, Oct. 8.—Albania today declared its independence of Turkey, according to a dispatch. This, following a similar action of Crete last night leads to the belief that there will be a general rebellion throughout the Turkish dependencies unless some stringent action is taken immediately. Albania's population is 2,000,000.

A Young Turk movement has been started in the northern part of Albania. The uprising there against the sultan will probably prove serious.

Turkey Will Declare War.

London, Oct. 8.—A member of the Turkish embassy declared today that unless Austria retreats from her present position Turkey will undoubtedly declare war.

Crete Joins With Greece.

Canea (Island of Crete), Oct. 8.—A decree announcing the union of Crete with Greece, was published here last evening. Events leading up to the climax followed each other throughout the day with dramatic rapidity. The town was bedecked and early in the morning people began flocking in from all directions. There was much firing of guns and revolvers, with plenty of cheering, but perfect order prevailed. Musicians mingled with Austrians freely and unmolested.

At 2 o'clock in the afternoon the demonstrations in favor of the union with Greece occurred on the military review grounds. More than a hundred thousand people, one of the largest crowds ever seen here, gathered at this place. All the prominent revolutionary leaders, each with his banner flying, appeared and they were supported by the heads of the different political parties, the mayors of the towns, the clergy and other influential men in the councils of the island.

Speeches were made by various representatives, who declared that the peaceful political revolution which they had assembled to consummate was not directed against the powers, which had been the islands' benefactors, but solely at proclaiming the island's union with the motherland. They called upon the government to

act henceforth in the name of the free kingdom of Greece. They urged the people as a duty to go respectfully and announce their decision to the representatives of the powers, then they must call together an assembly to confirm the people's decision by an official vote.

FIGHT TO DRINK RUM FROM GUTTER

Indiana Town Witnesses Wild Scenes When Liquor Is Poured Into the Street.

Chicago, Oct. 8.—Gutters of Hammond, Ind., ran brimming with liquor yesterday.

Derelicts from the city's slums fell over each other in a mad fight to drink from the foaming current. Thousands of other men and women cheered as barrels of beer were poured into the sewers and bottles of wine were cracked and thrown on the city dump.

Four thousand dollars' worth of liquor was spilled by the authorities as a wholesale libation to the county option law. The wine and beer had been seized two months ago in a raid on four "blind tigers" near Whiting. The liquor had been kept stored in the basement of the city hall. It was destroyed by order of Judge Reiter.

The county option law was passed a few weeks ago by a special legislature convened by Governor Hanly at Indianapolis.

PENITENTIARY FOR BEHRENSSEN

FEW WITNESSES AND SHORT ARGUMENT

Jury Finds German Guilty of Attempted Assault on Little Daughter of County Clerk Saling Last Spring at Weston—Defendant Greatly Worked Up When Placed on Stand.

Guilty as charged, was the verdict brought in by the jury at a few minutes before 3 o'clock this afternoon. The crime charged is a penitentiary offense.

With less than 15 minutes of argument in all the case of State vs. John Behrens was submitted to the jury at 1:30 o'clock this afternoon.

But few witnesses were called in the trial. Mrs. Saling, mother of the baby girl, whom Behrens is alleged to have assaulted with criminal intent, told of the discovery of her child in the abandoned house in company with the defendant. Of the fact that the baby was disheveled and crying and that after striking the man she rushed out with the baby, calling Mr. Lavender, the marshal at Weston.

Lavender testified to the condition of Behrens's clothing and to the particulars of placing him under arrest.

Behrens was his own and only witness. He flatly contradicted the evidence given against him in some respects and while on the stand seemed to be greatly worked up over the accusations made.

The theory of the defense was that the charges were the result of the excitement of the baby's mother rather than the result of an attempt at actual crime.

The jury in the case consisted of D. Kimbler, D. C. McCullen, O. Alder, A. W. Ruzg, H. C. Dunn, C. H. Rosenberg, James Johns, J. A. Isaacs, A. A. Cole, Isaac Jay, S. K. Yates and D. F. May.

Two Plead Guilty.

In court this morning Sam Starr and Frank Neas appeared before Judge Bean and changed their pleas of not guilty to guilty. The men were under indictment for illegal liquor selling.

New Flying Machine.
Washington, Oct. 8.—Uncle Sam's war department will soon try out another aeroplane, as it is announced that the Herring flying machine, of which wonderful things are expected, will arrive at Fort Myer for its government trial a week from today. Little is known of the Herring machine, since its construction has been kept a profound secret, but there is much talk of important revelations in the science of mechanical flight.

An extension of time has been granted to the Wright brothers for the reconstruction of their wrecked machine and every opportunity will be accorded the daring aeronaut by the war department.

Chinks Are Caught.

Bellingham, Wash., Oct. 8.—Seven Chlamen, smuggled across the border near Sumas, probably by white men, were captured last night on the outskirts of Clear Brook by W. C. Hatton, a farmer, acting on instructions from the immigration officers.

Taft Is Resting.

Cincinnati, O., Oct. 8.—Taft arrived here this morning and went to the home of his brother to rest. He will register this afternoon.

Chinks Are Caught.

Bellingham, Wash., Oct. 8.—Seven Chlamen, smuggled across the border near Sumas, probably by white men, were captured last night on the outskirts of Clear Brook by W. C. Hatton, a farmer, acting on instructions from the immigration officers.

(Continued on page 5.)

SENTIMENT UNANIMOUS IN FAVOR OF RETAINING WOOLEN MILLS

The Pendleton woolen mill will not be moved from this city if the bankers, business men and others who have been seen by this paper today, act upon the sentiments expressed.

In order to ascertain the feeling of local people upon the subject of the woolen mill a half dozen or more prominent local people were interviewed and almost with a unanimous voice they declared for the retention of the manufacturing plant that has done so much for the city in the past.

Local merchants are a unit in saying the plant should be continued here, the bankers say the business is a paying one and sheepmen say it would be well for the sheep industry of the county to have a woolen mill here.

It is now probable that the board of managers of the Commercial association will be called together shortly to talk over the subject and to name a sub-committee to investigate the matter with a view to making a stand in favor of keeping the mill in the city.

As matters now stand the woolen mill plant will be offered for sale next Saturday, October 10, by the sheriff under the foreclosure proceedings brought by the First National Bank of Hartford, Conn., which holds the big mortgage against the plant.

While it is the presumption that the bank, or its agents, will bid in the plant to protect itself, yet the general sentiment is that the mill property may be had at a low figure.

Mill a Money Maker.
That the woolen mill can be made a profitable industry is the firm belief of G. M. Rice, cashier of the First National bank, who in his capacity as a financier, has had much to do with the backing of some of the men who have run the business in the past.

"I know from familiarity with the affairs of the mill that it has made money," declares Mr. Rice. "I am satisfied that with the proper management the mill can be made a success. I believe that the business men and other people of this city can afford to take stock in a company

formed to purchase the mill. The mill is a fine thing for the town in many ways and I believe that to keep it going would be doing more good for the city than will be derived from some other things that have been attempted."

Sheepmen Made Money.
Among local people it is generally known that during the year he operated the woolen mill Jacob Sheuerman made a profit of \$10,000 out of the plant. An investigation of this impression made today, indicates that it is true.

Charles H. Carter.
For many years Attorney C. H. Carter has been secretary for the old mill corporation and though the old company has seemingly failed to make any money out of the business, Mr. Carter is an enthusiast in favor of keeping the mill going. He says that from his knowledge of the business he believes that a woolen mill can be made to pay in this city.

T. C. Taylor.
"I believe," said T. C. Taylor, "that if a competent woolen mill man

MORE WATER POWER FILINGS

John E. Tate and George D. O'Connor File on 24,000 Miner's Inches.

WALLA WALLA RIVER TO BE FURTHER DRAINED.

Documents Filed Today With Recorder Hendley Provide for Construction of Two Monster Dams Across River Just Above Present Power Site of Northwestern Gas and Electric Company—Water Will Be Transported in Barrel Flume to Hudson Bay Country.

Filings upon 24,000 miners' inches of the already well drained Walla Walla river, were registered this morning by Recorder Hendley. The filings are identical in character and phrasing, and were made by John E. Tate and George D. O'Connor.

O'Connor was formerly connected with the Northern Pacific at Walla Walla and is now connected with the Walla Walla Valley Traction company.

The filings also preempt a right to build a dam across the river in each instance, for the purpose of storing the waters to be released when needed and transported to the Hudson bay country in a 72-inch barrel flume.

The dams, if completed as set forth in the filings, will be monstrous affairs, 150 feet high.

The location of Tate's filing is at what is known as "Elbow," while O'Connor's is near Table Rock.

LA GRANDE RUM MEN UNEASY.

Editor Says Grand Jury May Return Several Indictments.

La Grande, Ore., Oct. 8.—The circuit court for October convened Monday morning and the grand jury is in session. Its first action was to free a defendant who had been charged with beating his wife.

While there is nothing to warrant the belief exactly it is rumored about that the jury will consider charges of bootlegging before its session is over. With the prestige of the Pendleton grand jury to back the rumor some are inclined to believe that several indictments are pending on charges of local option violation.

The circuit court has an especially heavy docket this year. It includes an equity case in which an estate valued at \$30,000 may revert to the state. The heirs number six and over a year ago the father died, leaving the property evenly divided. All dispensation was made by the administrator, who was discharged after the final settlement. The state has found evidence that John Greyson, the dead man, was an illegitimate child, hence the heirs apparent are false. There are said to be no legal heirs.

INDEPENDENT GROCER STRIKES AT ASSOCIATION

Tacoma, Wash., Oct. 8.—Prosecuting Attorney Rowland today is investigating the charges of conspiracy made by Richard Rims, a grocer, against the Tacoma Grocers' Protective association.

Rims claims the association conspired with Tacoma wholesalers to prevent him from buying goods because he refused to maintain the prices dictated by the combine. He declares the association threatened to boycott him last week unless he ceased cutting prices.

New Flying Machine.

Washington, Oct. 8.—Uncle Sam's war department will soon try out another aeroplane, as it is announced that the Herring flying machine, of which wonderful things are expected, will arrive at Fort Myer for its government trial a week from today. Little is known of the Herring machine, since its construction has been kept a profound secret, but there is much talk of important revelations in the science of mechanical flight.

An extension of time has been granted to the Wright brothers for the reconstruction of their wrecked machine and every opportunity will be accorded the daring aeronaut by the war department.

Chinks Are Caught.

Bellingham, Wash., Oct. 8.—Seven Chlamen, smuggled across the border near Sumas, probably by white men, were captured last night on the outskirts of Clear Brook by W. C. Hatton, a farmer, acting on instructions from the immigration officers.

Taft Is Resting.

Cincinnati, O., Oct. 8.—Taft arrived here this morning and went to the home of his brother to rest. He will register this afternoon.
