

NORTHWEST NOTES

Burglars Loot Indian Agency.
Fort Lapwai, Idaho.—Burglars entered the government office building Tuesday evening, ransacked the desks and stole \$35 in cash which was in Superintendent O. H. Lipp's desk, besides taking sealed appraisals on some Indian heirship land, which was to be sold at an early date. The burglars effected an entrance through a window, which they sprang open with a large wood rasp. They broke into every desk in the building and scattered papers and documents around the room, although they destroyed few of the valuable papers.

Coal Find Close to Prineville.
Prineville, Ore.—Coal in workable quantity is the latest find reported in Crook county, the vein being located on or near the property of Herman Poch, its discoverer, three miles up the Ichoco creek from this city. Specimens brought in to Prineville by Poch revealed a very fair grade of fuel coal, excellent for steam or heating purposes. The man thus far has refused to tell any one just where the coal was found, but the samples are evidently an outcropping taken from a few feet below the surface.

Attacks Boy With Knife.
Hillsboro, Ore.—Sheriff Hancock tonight placed in jail O. M. Galloway, a prominent farmer living a mile north of Forest Grove, on a charge of assault with a dangerous weapon on his 17-year-old stepson. The boy was about to start to the cider mill with a load of apples, when the stepfather objected and began throwing the sacks off the load. The boy resisted and his mother says Galloway drew a knife and attacked her son.

Rich Rancher Found Dead.
Spokane, Wash.—Hanging 20 feet above the ground, suspended from a tree, one mile southeast of Valleyford, near Spokane, the dead body of Fred Mitchell, a wealthy rancher, was found Thursday afternoon by a party of young men of this city. Indications point to suicide, but no message was left by him.

BOY OF SEVEN A PSYCHIC MASTER

LAD A CLAIRVOYANT EVER SINCE HIS BIRTH
Makes His Nurse Play Selections From the Old Masters Without Any Previous Training—Tables and Chairs Follow About the Room—Amazing Performances Being Investigated.

Declaration that her seven-year-old son, Junior, has been a clairvoyant from his birth, accompany a description of astonishing power manifested in her own household, which Mrs. Jordan W. Lambert, wife of a wealthy chemical manufacturer of St. Louis, has submitted to Professor James H. Hyslop of New York. Mr. and Mrs. Lambert are well known in New York, and her brother, Marion Lambert, is at present at the Langham. They were here within the last few days and had a conversation with Professor Hyslop, who is the representative of the American Society of Psychical Research, of which both are members. The account which Mrs. Lambert gives of the manifestations covers 70 pages of the current number of the Journal of the society. The high social standing of the writer of the observations has caused the publications to be widely discussed and the incidents set forth are being commented upon by students of psychics. Connected with the demonstrations is William Hannegan, employed by the Lamberts as an attendant and nurse for their son. He is described by Professor as being as interesting a subject as he has ever been called upon to investigate. Hannegan comes of a respectable family and in his boyhood he was well instructed in the school of hard work and adversity. He himself, until only seven months ago, was not aware of his own strange gifts. He was graduated last April from the St. John Hospital Training School for Nurses in his native city, and then was engaged as an attendant for Junior Lambert, who was far from strong. A few days after he went to work at the residence of Mr. Lambert the first manifestation occurred. A large table, as if suddenly bewitched, according to Mrs. Lambert, followed him about the room. Since that time demonstrations became continuous. It seemed as if all the spirits were ready to bow to the bidding of this unwitting medium. **No Training; Plays Masters.** Without apparently making the slightest effort of his own will, he is described as having the gift of drawing the inspiration of the great composers of music in the air. Without the slightest education in music, according to his own account, he suddenly became endowed with supernatural power over the keys of the piano. He was asked to play the scores of grand operas, and he did, and then, untutored in all knowledge, he transposed the sections. His astral body wandered about the house, unlocking doors. Lost articles were located by him with more accuracy than any mind reader ever displayed, and roses of a species unknown to the spectators and which exhaled their fragrance for days be-

Electrocuted on Dynamo.
Bellingham, Wash.—Charles McKetrick, chief engineer for the Waples Electric company, at Lynden, was electrocuted Thursday at the plant and his body saved from cremation by the quick action of a fellow workman, McKetrick, who was working as a sub, was standing near the dynamo trying to fix a twisted belt when he came in contact with the current and was thrown onto the big belt.

Woman Gored by Bull.
Vancouver, Wash.—Mrs. Lulu Burgy is lying in a critical condition at her home in this city as the result of having been severely gored by a bull while walking along Columbia street yesterday. The animal was being driven by a young man on horse back, who persisted in whipping the brute, until finally it became infuriated and attacked the first individual that crossed its path.

Prisoners Break Jail.
Missoula, Mont.—Eight prisoners awaiting trial for various offenses escaped from the county jail Thursday evening and at a late, phiductool evening and only one has been recaptured. In some mysterious manner the men unlocked the door of a steel cage opening into a corridor, which leads to the bathroom. A hole was then made in the brick wall with a large iron spoon.

Spelling the Name of God.
Have you ever reflected that the name of God is spelled with four letters in at least seven languages? Here they are: Latin, Deus; Greek, Zeus; French, Dieu; Scandinavian, Odin; Arabia, Alla; German, Gott; Japanese, Zain. The old English spelling was Gode.

Loses Arm While Stealing Ride.
Roseburg, Ore.—While stealing a ride on a freight train Tuesday night, John McPherson met with an accident which will cause him to lose his right arm. McPherson says he was thrown from the train by a brakeman, but the officials doubt that. McPherson's arm was mangled so it was impossible to save it.

fore they withered were materialized by him as gifts from friends in the world of spirits. These manifestations are described in the first papers by Mrs. Lambert, and she has a record of more which are to appear in a second voluminous report.

PAYS \$350 RATHER THAN FACE FORMER WIFE ALONE

Indianapolis.—Sarah C. Bryne was granted a divorce with an allowance of \$350 by Judge Lawson M. Harvey in superior court, room 4, yesterday. The allowance of \$350 was upon one of three propositions stated by Mrs. Bryne, according to the allegations of the complaint filed in answer by her husband, H. Bryne. One of the proposals made by Mrs. Bryne was that she be allowed to go into a room with her husband for five minutes with all doors and windows locked. Mrs. Bryne is about six feet tall—and muscular. Her propositions were:
1. Plaintiff (W. H. Bryne) to pay her the sum of \$500.
2. That plaintiff give her \$350 and the family piano.
3. That plaintiff agree to stay in the room with her alone for five minutes, with doors and windows locked. Bryne is a salesman and his former wife runs a boarding house at 722 Madison avenue. He steered clear of proposition No. 3 and they compromised on Mrs. Bryne's second proposition. The piano was "thrown off" and the only consideration named, aside from the decree, is the allowance of \$350. Bryne in his complaint for divorce stated that at one time Mrs. Bryne had sailed a hatchet at her stepson.—Indianapolis Star.

Wanted Fifteen Years.
"For fifteen years I have watched the working of Bucklen's Arnica Salve; and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. It has saved us many a doctor bill," says A. F. Hardy, of east Wilton, Maine. 25c, at Tallman & Co.'s and Pendleton Drug Co.'s drug stores.

OFFICIALS ARE DESERTING WASHINGTON TODAY

Washington, Nov. 2.—Every train out of the capital city today bears its quota of officials and government clerks who will go to their homes to cast their ballots. The exodus has continued for several days, many Washingtonians who have their legal residences in the south and central and far west leaving last week and yesterday for their homes. By this evening the population of Washington will be considerably reduced and the working force in the various cabinet members will exercise their political prerogatives tomorrow, but those residing in the east will probably return tomorrow night to be the guests of the president at the White House and read the returns.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

DEVELOPMENT OF DRY FARMING IDEA SHOWN

Of the 22,000 homestead entries made during the past 15 months in New Mexico, 29,000 are located in the so-called "dry farming" districts of the territory. The territorial agricultural college and the Santa Fe railroad are establishing many experimental stations in the territory and farmers' institutes are being held at which dry land agriculture is the principal subject of study.

If you see it in the East Oregonian, it's so.

Off for the Pendleton Business College. The best in Oregon. Come learn to be an expert accountant or stenographer.

Write to J. Glenn Miller for catalogue and other information you may desire

For sale at the East Oregonian office—Large bundles of newspapers, containing over 100 big papers, can be had for 25c a bundle.

A MONARCH Range

Actually Pays for Itself in COLD CASH!

BY reducing fuel bills 25 to 50 per cent.

BY saving one quarter of the time usually spent in the kitchen.

BY eternally doing away with nearly ALL of the disagreeable labor necessary to keep the common range half way presentable.

UNDERSTAND US!

Fuel, time and labor represent real money and the Monarch Range will positively save enough of all three to pay back its own cost in a short time

We don't make this statement thoughtlessly but with a desire to demonstrate it to every intending range buyer.

Our 25 years of experience as practical stove dealers convinces us that the construction of the Monarch fully justifies this claim.

HOW THE MONARCH MALLEABLE RANGE SAVES

TIME

Much time is wasted with a common range waiting for hot fire in the morning or a baking heat during the day. The Monarch works PROMPTLY. A piping hot fire in five minutes after opening the drafts is the regular thing.

LABOR

The hardest and most disagreeable tasks about the kitchen are blacking the range top and cleaning the crusted black bottoms of cooking utensils. All this is done away with by the Monarch polished top that don't require stove blacking.

FUEL

Ranges of the common type WASTE fuel because outside air is drawn in through its open seams and joints. The Monarch utilizes ALL the heat in the coal or wood. It is built AIR-TIGHT by riveting its steel plates to Malleable Iron frames—no stove bolts or putty used.

PENDLETON, OREGON.

THE SAN FRANCISCO EXAMINER

ISSUED DAILY AND SUNDAY

It works at all times for the interest and advancement of the State of California.

It prints later, better and more news than any other San Francisco paper, because it has a leased wire service, W. R. Hearst's News Bureau Service, and his Eastern Papers' full service.

Its circulation is larger than the combined circulation of any two Pacific Coast Papers.

Advertisers have proved they obtain the best results by using its columns, and its advertising patronage is the largest and strongest on the Coast.
