**BEAF PRICES REACHED BEDROCK AND GRIEF CAME TO SHIPPERS OF HOGS—A Slight Improvement in Pork, Though Steer Market Is Very Weak—Wheat Market of World Seems to Be Unsettled.**

(By Hyman H. Cohen.)  
 Portland Union Stockyards, Oct. 31.—Today ends a month that has been of great trial to the livestock industry. During that period prices have gone to the bow-wows on several occasions, and it took a strong heart to remain firm.  
 Steer prices, and in fact, all cattle prices struck the bottom of the well; the price of steers being weak even at the low level. While from this there has been no advance up to the present time, the indications are that conditions will improve somewhat before long.  
 To the shipper of hogs October has been a month full of sorrows, for while prices never really touched a ruinous figure, values are considerably below the high market, from where the slump started. Already there has been a slight improvement in the price of hogs, but it is not now expected that any further improvement of note will be shown in that line for several weeks or a month. While the run of hogs was not so liberal as last week, when the price touched the bottom, it just about suited the demand.  
**Steer Market Is Very Slow.**  
 To the steer market there seems not the slightest show for improvement in the near future. As long as grass-fed stuff is shoved off onto the market, there will be a lack of support to prices. Packers' requirements in the steer line at this time are very small, because most of them are already filled up with cheap-priced stock. This will cause the improvement to be postponed for a longer time than would have otherwise been the case. Among the livestock commission handlers the opinion is general that the market for steers will not do much better for fully a month, or until the grass-fed stuff is out of the way.  
 While there is a slow call for steers the demand for cows and heifers is liberal, but prices are not of the best. There is an especial good call for speyed heifers because of their low prices, considering the quality.  
 Sheep market showed more liberal arrivals during the past six days; total arrivals reaching 2361 head, compared with 1128 for last week and 1135 for the previous six days. During the past week there was not the slightest change in sentiment in the sheep market from what ruled the previous six days, and all prices are unchanged.  
 Following is the general range of values on stock ruling in the yards for late shipments:  
 Hogs—Best east of mountains, \$4.26; ordinary, \$3.25; medium cows, \$2.95; stage, \$2.50; bulls, \$1.75.  
 Cattle—Select east of mountains, \$3.75; medium steers, \$3.75; ordinary, \$3.25; medium cows, \$2.95; stage, \$2.50; bulls, \$1.75.  
 Sheep—Best wethers, \$3.50; ordinary wethers, \$3.25; lambs, \$3.00; straight ewes, \$3; mixed lots, \$2.50.  
 Veals—Choice young calves, \$4.50; heavy ad rough, \$3.50.  
**Wheat Market Unsettled.**  
 Chicago, Oct. 31.—Liverpool showed indifference to the strength displayed here yesterday. That, and the absence of export demand for American wheat were the bearish features. Matters connected with the most vital features of the domestic situation were bullish. There were only 445 cars at Minneapolis and Duluth, compared with 504 the like day in 1907.  
 Weather was frosty and favorable for marketing by farmers if so disposed, but haste on their part appeared no longer to exist. The market was bearishly affected by an Argentine cable that said the frost damage to wheat was light and fully compensated for by the increased acreage. An estimate of the world's shipments for the week made the total about 3,000,000 bushels. There was no relief to the stagnation of business until near the end of the session when further pressure of offerings was causing increased weakness. December wheat closed at \$1 and May at \$1.03 3/8, being about 5-8c decline in each for the day.  
 There was a firm feeling in corn, although for some time past the trade was very small. Receipts continued light, but the weather ideal for curing corn. With the early downward tendency of wheat scalping operations in corn rather favored the selling side, so that early slight gains were soon converted to loss. Liverpool was from unchanged to 1-8c lower. Sample market was weak, and prices from 1 to 2c lower. Closing prices showed considerable loss, and were at the lowest point of the day. Sharp decline in the cash market was responsible for the heaviness of feeling at the close.  
 In oats there was dull buying and selling of no particular significance from a speculative standpoint. Receipts were moderate, and also shipments. Prices were for the most part a trifle under the closing figures of the day previous. Offerings in the sample market were readily taken at prices of the day before.  
 Depressive influence of heavy receipts of hogs of very poor quality was the prominent influence on the provision market. There was no

buying of sufficient volume or urgency to change the general direction.

**DESERTED WIFE TO GET FORTUNE**

After having deserted his wife and family in Russia and left them uncaared for for a period of 14 years, Louis Noske, a Russian, evidently repented on his deathbed, for just a few days before he died at a Bellingham hospital he called an attorney and to him intrusted \$2000, his entire fortune, with instructions that it be sent to his wife, if she could be located.  
 For years Noske had lived in this county and been cared for by a man named Stanley Reid. This person had never heard the man speak of his family in all the years he had known him, and having no information as to his action in sending the money to the deserted family, he went into court and succeeded in having himself named as the administrator of the man's estate.  
 This brought to light the fact that the money had been turned over to an attorney of this city, and an order will be asked in the superior court tomorrow calling on the attorney in the case to produce the funds. Reid wishes the estate to go to the state school fund, and there promises to be a legal battle.

**General Polycarpo Borilla Said to Be Threatening a Revolution.**  
 City of Mexico.—Private advices received last night from Honduras indicate that conditions there are even worse than reported in the press dispatches. According to this information it is not ex-President Borilla, but General Polycarpo Borilla, who threatens a revolution. This breach has been caused, it is said, because Davila is drawing away from President Zelaya of Nicaragua.  
 An attempt, it is reported, was recently made on the life of the private secretary of President Davila, whose conduct has incensed the wing looking to the moral support of President Zelaya. The jails, it is reported, are full of political prisoners.  
 These private telegrams declare that unless there is outside interference on the part of Mexico or the United States, a revolution is inevitable.

**STOWAWAY LIVED TWO MONTHS ON CHEWING GUM**

Port Townsend, Wash., Nov. 2.—Living for 5 days on chewing gum and drinking water, three Japanese stowaways were found in the lazaretto of the bark Leader just previous to the departure of the ship for the United Kingdom with a cargo of wheat.  
 The Leader left Liverpool for Puget Sound via Japan, leaving at Kobe, Japan, a large cargo of general merchandise. It was while the ship was discharging cargo that the men slipped on board and secreted several cases of chewing gum and mineral water, and stowed themselves in the hold, where they existed nearly two months chewing the sweetened gum. The captain says that had he not found the men the chances are they would have been taken back to Japan and thence to Liverpool. They had eaten nearly three cases of chewing gum to Japan. The men will be taken back to Japan.

**THE AMOUNT OF YOUR "BELIEF IN ADVERTISING" WHICH IS PUT INTO TYPE IS WHAT COUNTS.**

A business man cannot afford to "miss" news that affects his particular line of business. Nor can the "buyer" of the supplies for the house and family afford to "miss" news affecting prices of things that have to be bought.  
 Bargain-hunting is not, as sometimes supposed, the pursuit of a wild desire to spend money for things not needed. It is the quest of the best opportunities to buy the things that ARE needed.  
**LOOK IN OUR CLASSIFIED COLUMNS FOR WANT ADVERTISING.**

Where one woman wastes either time or money because of a bent for "bargain-hunting," 50 women save and conserve both.  
 It is not well to try to load a ship with cargoes far beyond her cargo capacity. Nor well to try to advertise a big store in a small space.  
 A fixed purpose to find a certain number of new customers each week is a good sort of advertising ambition for a merchant.
