**THINKS HUSBAND IS DEAD; WEDS AGAIN**  
Mrs. George Humphrey, deserted by her husband in the east many years ago, was informed in a letter from her cousin four years later that he had died, says the San Francisco Examiner.  
Mrs. Humphrey then married W. H. Hubelein, an engineer, in this city. A short time ago she heard Humphrey was alive and in Kansas City. She addressed a letter to him there.  
To her surprise Humphrey wrote to her. He said naively that work was pretty slack there and that if she would send him enough money he would come to her here.  
Upon Mrs. Humphrey's application, Judge Graham yesterday annulled her marriage to Hubelein.  
**Electric Flashes.**  
The Oxford street branch of the Fleming restaurants in London cooks all such things as chops, steaks, eggs, fish, etc., by electricity at a daily cost of 88 cents an hour for each appliance used. This is a saving of one-third over the old method.  
The latest addition to telegraphy is a telegraphing typewriter. This device is a complete sending and receiving instrument. The message is sent in the same manner as one would proceed to write a letter. The machine in turn takes down the message just as sent.  
A new industry has been created by the demand for the new hat pins of metalized flowers. One wholesale florist of New York supplies 2,000 roses and carnations a week which are made into the new metalized hat pins by the secret electrical process. Even the natural color of the flower, in some cases, can be preserved.  
**FOR RENT**—Good storeroom in East Oregonian building. Steam heated. Rental very reasonable. Inquire at E. O. office.  
**LOST**—Child's gold band bracelet in box. Return to H. A. Macuen, shoe dept., People's Warehouse. Reward.

### TIPS TO BE REGULATED IN HOTELS OF EUROPE

Rome.—Americans visiting Europe may be somewhat cheered to learn that there is an attempt to regulate the tipping system in hotels. The Hotel Keepers' Congress, at its final sitting here, adopted a suggested system for charging hotel guests a percentage on their bills for the servants' fund.  
In suggesting the new scheme President Hoyer of the International Association of Hotel Keepers said: "When travelers desire it, hotel keepers might undertake the distribution of tips, which should be charged for in the bill at the rate of 15 per cent. on amounts of \$4 and 10 per cent. on large sums."  
Most of the delegates at the congress agreed to these proposals.

### GIGANTIC GRIFFINS FOR AN AMERICAN'S PLACE

Paris.—George Kessler, the wealthy American, has just built a palace for himself at La Muette.  
The palace would not have been built for some time to come had not Mr. Kessler been given the opportunity of purchasing a pair of gigantic stone griffins brought from Chantilly. Immediately they came into his possession he ordered plans to be made for a house in which the griffins should be the dominating decoration of the facade.  
To make the place complete ancient trees were needed. This want Mr. Kessler supplied by purchasing some land in France and having the old elms, oaks and beeches uprooted and carted to Passy.

### YOUNG PRINCE EDWARD DELIGHTS IN MECHANICS

London.—Young Prince Edward of Wales has reached the engineering stage of his naval education. At the Osborne naval college the heir presumptive to the British crown, clad in greasy overalls, is glorying in screws and gauges and callipers in learning all about how engines and boilers work.  
Like most boys, the Prince delights in mechanical mysteries. He revelled in the foundry and smithy attached to the college, where, like every other cadet for the British navy, he has to make himself familiar with the manipulations of iron and steel.  
He is also learning to cut screws on a lathe.

### QUAINT OLD CEREMONY IS FOLLOWED BY DUKE

London.—Before sunrise at Knightlow one day recently the quaint ceremony of collecting the Duke of Buccleuch's "wroth silver" drew a representative crowd around the wayside cross beneath a clump of Scotch firs. The steward read the ancient charter, which provides for a penalty of 20 shillings, or a "white bull with red ears and red nose," for every penny unpaid. All demands were met, the "wroth money" being cast into a stone trough. The Duke of Buccleuch afterward breakfasted with a number of the company, his health being drunk in hot punch.

Wheat is often the best cure for weeds.

### GOT HIS HAIR BACK

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuel, Maryland block Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '08, and began to use it for entire baldness. The hair for miles in his scalp were not dead and 15 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair and finally baldness, so that with the cause gone the effect cannot remain. Send falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.  
Two sizes—50 cents and \$1.00.

# IMPORTED BAY RUM

Distilled from the leaves; has that delicate, aromatic, oriental odor which makes people who know "what," consider their toilet or bath incomplete without it. It is void of that stinging, burning sensation, but has just enough "bite" to make it soothing and antiseptic and acts as a panacea to even the most delicate skin in weather that tends to chap and roughen. In fact, 'tis a fine toilet requisite. Ask for an original bottle of the Pyramid Brand.
