COWS FOR BEEF ADVANCE 25 CENTS

While All Livestock Lines Are Firm the Firmness is More Noticeable in Cattle—Arrivals From California Expected to Hold Down Prices—Oats and Barley Are Expected to Go Higher.

Portland Union Stockyards, Dec. 16.—The entire livestock situation is very firm. The firmness is more pronounced in cattle than in other lines, but in no instance is any easiness or dullness shown.

A number of cars of California cattle are due in time for tomorrow's market. Some of the stock is said to be select and will be for the Christmas trade. The demand for well finished steers is very heavy and for that reason prices may be stretched a notch higher by some killer who has a trade which he wants to please. Arrivals of cattle for the day were scant and scarcely made a stir in the market. Cows are up 25c with the better demand.

Hog prices are very well maintained with far arrivals for the past 24 hours.

Liberal Run of Sheep.

There was a very liberal run of sheep during the day, a total of 1005 head appearing. This is the heaviest run for some months and indicates that the colder weather in the interior and the high cost of feed with scant range has forced owners to part with some of their bands. Demand is still heavier than supplies except for lambs and if the latter are of good quality they are as eagerly sought as other grades of the sheep market.

Following is the general range of values on stock running in the yards for late shipments:

Hogs—Best east of mountains, \$6.25@6.50; ordinary, \$6.00@6.10; blockers and china fats, \$5.50@5.75; stockers and feeders, \$5.00@5.50.

Cattle—Best steers, weighing 1200 pounds, \$4.25@4.50; medium steers, \$4.25; poor steers, \$3.50; best cows, \$3.25@3.50; medium cows, \$2.75; stags, \$2.75@3.00; bulls, \$2.62@2.75.

Sheep—Best wethers, \$4.50@4.75; ordinary wethers, \$4.25@4.50; lambs, \$4.50@4.75; straight ewes, \$3.50; mixed lots, \$4.00.

Veal—Choice young calves, \$4.00@4.50; heavy and rough, \$3.50@3.75.

Coarse Grains Firmer.

Portland, Ore., Dec. 16.—That a firmer and higher market is assured for coarse grain providing only the normal demand for the Pacific Northwest product comes from the south is shown by the action of the markets today at various Pacific coast centers, and the receipt by the Portland Board of Trade of information from reliable country sources as to the available supplies for market. The telegrams indicate that small stocks of both oats and barley are for sale at primary points. Some stocks of oats are offered and may be moved on a basis of \$22.50 and \$23 a ton, track Portland, and barley at \$27.50 and \$28 a ton, same delivery.

In the south today a better tone was shown in barley, especially for deferred delivery. On the Portland Board of Trade the bids for oats were very firm, but holders were inclined to advanced their asked prices about as much as the bidders moved up their prices. Today's market shows an advance of 1/4c in the bids for December at \$1.60 a cental and a like sum for January at \$1.62 1/2.

Local barley futures were firm, with no change in either the bid or asked prices today.

While there was no change in cash wheat prices, futures here were disposed to do better because of the improvement in San Francisco prices. On the Portland Board of Trade there was an advance of 1/4c in the bids for both December and January. No business was transacted during the session.

EXPECT U. S. TO MAKE A BIG PAGEANT SHOW

London.—Frank Lascelles, who is to spend Christmas in New York, will act in the capacity of adviser to the committee of the states of New York and Vermont in their preparations for the great pageant in June. He is of opinion that the United States, with its splendid resources, will make even a better show in pageantry than Quebec, of which celebration he was the master. He realizes, however, that much of the mediaeval equipment which is such a feature of English productions must necessarily be absent.

FLOWERS TO BEAUTIFY SUBWAY OF LONDON

London.—London's underground railway stations, once a byword for dirt and gloom, are to be transformed into floral bowers or winter gardens. Since the system was electrified the stations have been cleaned and garnished. Now Superintendent Blake announces that an experiment in floral decoration is to be made at the Temple station. Baskets of ferns and evergreens will be hung from the roof and in summer flowers will be used

to brighten the formerly dingy station.

How One Doctor Successfully Treats Pneumonia.

"In treating pneumonia," says Dr. W. J. Smith of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by all good dealers.

AIRSHIPS ARE TARGETS FOR GERMANY'S CANNON

Berlin.—Experiments that have been going on here for some time have shown that it is almost impossible for dirigible balloons to escape from the fire of field pieces and rifles on the ground by going to high altitudes.

The greatest height the airships can attain successfully and safely still leaves them within range of the special cannon for shooting at balloons with which the experiments are made. Furthermore, the range of these guns is to be increased.

It is the opinion of experts that dirigible balloons will have to rely solely upon their own speed to escape the fire of a properly equipped enemy.
