

Is there more than one kind of Ivory Soap?

No! But there are a hundred imitations. A dishonest grocer will offer one of these and say "This is Ivory"; or "This is just as good as Ivory."

Do not accept it unless it is stamped **IVORY.**

Ivory Soap
99 ⁴/₁₀₀ Per Cent. Pure.

NEWS OF THE NORTHWEST

Bank Will Pay in Full.

Prairie City.—By the consumation of a sale completed at Baker City yesterday evening when the Dixie Meadow mining property was sold to Spokane capitalists, the defunct Prairie City bank will be able to pay its depositors dollar for dollar.

Train Up Snake River.

Huntington.—Tomorrow morning the first passenger train to traverse the Northwestern road up the Snake river will leave here and will run to Robinette, at the mouth of Powder River. This inaugurates passenger traffic up the Snake and until the road is extended to toward Lewiston, that town will be the terminal.

Farmers Union at La Grande.

La Grande.—Mr. Cox, the energetic organizer of the Farmers' Union movement, has been working in and around North Powder for some days and last night organized a local at that place with 15 of the best known and most progressive farmers in that end of the county as charter members.

Would Bond Klamath Falls.

Klamath Falls, Ore.—Steps are being taken to have the city council submit to the voters at the coming election the matter of bonding the city for \$95,000 for the purpose of constructing a sewer system. Members of the council are favorable and it is quite probable that the issue will carry. This is the greatest amount of bonds that the city can vote under the present charter.

Think School Building Unsafe.

Portland.—Lack of ample doors for escape in case of fire renders the Sunnyside public school unsafe, according to a report submitted at the meeting of the Sunnyside Push club last night. On the second floor it is reported that there are seven rooms, all of which are dependent for exit up on one stairway. The outside doors, too, it is said, are kept locked during the day, making the school most unsafe.

Prairie City Mine Sold.

Baker City.—What is no doubt one of the largest and most important deals that has occurred in Eastern Oregon mining circles for some time, was closed today and mining men from Spokane acquired title and ownership to the "Dixie Meadows" mine located near Prairie City. While the price is not known it is stated \$250,000 is a small enough estimate, and probably \$25,000 of that amount was paid down when the deal was closed.

Roseburg Men Missing.

Roseburg, Ore.—A team and wagon left at the Weaver livery barn at Myrtle Creek, on March 29 last, has caused the officials to become suspicious of either a theft or foul play. The two men who left the team and wagon have not been seen or heard of since they arrived at Myrtle Creek, over two weeks ago. They registered at the hotel as W. McDonald and F. McDonald, and left town on the first south bound train.

Want Their Brother Jailed.

North Yakima, Wash.—Three sisters of the Naches valley have complained to the Prosecuting Attorney Ward that their brother, Joe Wedell, threatened the life of one, assaulted another and held the third on the ground while his sister-in-law pounded her face black and blue. Those complaining are Emma Terry, who exhibited two badly blackened eyes

and lacerated face, Mrs. Esther Little and Mrs. Winnie Meyers. Warrants were at once issued for the arrest of Wedell, his wife and Mrs. Chase, his sister-in-law.

Medford Wants Motor Service.

Medford, Ore.—The commercial bodies of Southern Oregon will petition the Southern Pacific railroad company to establish an interurban motor car service on its lines. This service, with the one which will be established June 1 by the Rogue River Valley Railroad company, between this city and Jacksonville, will give the residents of the valley an interurban service sooner than by waiting for the construction of an electric railroad.

Wheat Supplies Gone.

Walla Walla.—Looking after business interests and sizing up the prospects for the coming wheat crop, a number of prominent grain men yesterday made a trip over this valley in an automobile and report that never in the history of the country has the shortage of grain been so pronounced. The surplus is nearly all exhausted and in only a few of the warehouses is any grain stored. In Estmar station, near Dixie, where enormous quantities were stored last fall, but one lot remains and that comprises about 400 sacks.

Many Indicted in Harney.

Burns, Ore.—At this term of circuit court the grand jury found 15 true bills of indictment against parties residing in Harney county, most all for gambling. Seven were against one man; the court allowed him to plead guilty to one charge and held the others in abeyance during good behavior. All the parties were from Drewsy. Two married women from there were the prosecuting witnesses. It was their intention to indict some who had been in the habit of gambling with their husbands. As it was necessary to mention the names of all who were in the games, true bills were found against the women's own husbands.

LORD ROTHCHILD'S COWS MAKE RECORDS

London.—When we consider that the average milk yield of the ordinary cows of this country is variously put at from 400 to 450 gallons a cow a year, and that a 700-gallon cow is a remarkably good one, it is interesting to know that in the Tring herds belonging to Lord Rothchild there were four cows, each of which gave considerably over 1000 gallons of milk during the year that ended with Michaelmas. A ten-year-old red polled cow, Clarissa, gave 13,577 pounds of milk (roughly, 1350 gallons) during that period, and has further given an average of 12,233 pounds of milk a year for the three years she has been in the herd. The other three cows were shorthorns. Darlington, Crauford 15th gave 12,370 pounds of milk in the year, and has given an average of 10,003 pounds a year for eight years; Red Rose 3d gave 11,656 pounds of milk in the year, and Barrington Dushess 31st, 10,947 pounds.

LARGE AUTOMOBILE REAL ESTATE DEAL IN OHIO

Toledo.—One of the largest automobile real estate deals which has taken place in this country for some time has been consummated by J. N. Willys, president of the Overland Automobile company of Indianapolis, and Col. Albert Pope, president of the Pope Manufacturing company of Hartford, for the purchase of the mammoth Pope-Toledo manufacturing plant at Toledo. The Pope-Toledo factory is conceded to be one of the largest and best equipped automobile manufacturing plants in the United States. It comprises twenty-four buildings of modern construction, having floor space of 400,000 square feet and covering twelve acres. It is fully equipped with hundreds of thousands of dollars of modern machinery. Many large automobile concerns have endeavored to obtain this superb plant, but it remained for John N. Willys to close the deal.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

WITHDRAW 350,000 ACRES IN BAKER

GOVERNMENT PREPARES FOR RECLAMATION SCHEMES

State Officials of Reclamation Service Are Notified of Withdrawal of Large Tracts—Thief Valley Lands Included in Segregation—Will Insure Activity in the Baker County Irrigation Scheme.

Baker City, April 15.—Fifteen townships, or approximately 350,000 acres, have been withdrawn by the government, part of which will be irrigated by the Thief Valley irrigation project, which lies about 14 miles northeast of Baker City. At least 25,000 acres of this withdrawal will be subject to irrigation from the proposed Thief Valley reserve. The subdivisions withdrawn, de-

scribed by township and range, are as follows: Township 6, range 40 east; township 7, ranges 40, 41, 42 and 43 east; township 8, ranges 42, 43 and 44 east; township 9, ranges 42, 43, 44 and 45 east; township 10, range 46 east.

Finest Land in Baker.

The land lies on the lower benches of lower Powder valley and is said to include some of the finest land in Baker county, it being somewhat similar to the land under the Baker Irrigation company's system. While the Thief Valley project is several miles further out than the Baker Irrigation company's lands it is probable that electric lines will connect both to Baker City in the near future.

Notice of the withdrawal was received by Mr. Jacobs, the promoter, from E. G. Hopson, supervising engineer of the United States reclamation service in Oregon, Washington and California.

The notification received by Mr. Jacobs authorizes the preliminary work of the project. The company will have a force of 30 men in the field at once, running levels to determine the irrigable area. After this has been done the real work of the project will be undertaken.

CHICAGO MAY PRINT OWN TEXT BOOKS

Chicago.—"Home-made" text books written by Chicago teachers and printed by the School Board. This is the policy that is likely to be adopted as the result of the report made to the Board of Education, showing discrimination against Chicago school children. While the district superintendents today are busying themselves with the report checking up the prices for books in various parts of the country, the special committee on text-books is turning its attention to the "home-made" book proposition. Members point out that the board has demonstrated its ability to compete successfully with the publishers in printing books for use in the schools. For some time past the school trustees have been experimenting along these lines, and the result of their test is said to be favorable to the idea.

SHIP CHARTERED FOR EXPORTING WHEAT

Portland.—Close to \$1,000,000 worth of wheat will be taken to foreign ports from Portland by six vessels which were chartered by Kerr, Gifford &

Co, and Girvin & Eyre for new-crop loading this morning. Each of the carriers was taken at the union rate of 27s 6d. The fleet is composed of the French barks Baby Cheyave, L'Hermite, Neully, Farchal de Castries, Cornil Bart and Hoche. Except the Neully and Cornil Bart, all of them are headed in this direction with general freight. In the grain line it is the biggest day's business for more than a year. It really marks the beginning on the part of the exporters to secure tonnage for handling the new crop. Previous to this only two other carriers had been engaged.

"INDIANS" PLAYS ATHENA TEAM HERE SUNDAY

Manager Dick Sullivan of the local baseball team has scheduled a game with the Athena nine for the local diamond, Sunday afternoon. "The Yellow Kids" have always played a good article of ball and the manner in which they clipped the wings of "The Winged Pa" last Sunday would indicate that they have not forgotten how.

The "Indians" will be crippled by the loss of Alexander, who will not be in the game for several days longer, but they expect to be able to pull down the victory.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, lacks appetite, poor digestion, a halt back feeling and a general run-down condition of the system, show that the blood is weak or anemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.
