GREEK AGAINST GREEK AT MILTON

STEALS IMMIGRATION MONEY OF COUNTRYMEN

Milton Greeks Employ One of Their Countrymen to Act As Immigration Agent—Fund Raised for Bringing Over Some Cousins—They Found to Be in Jail—The Countryman Agent Keeps the Passage Money—Arrested in Walla Walla.

The Umatilla county courts are to have a real case of "Greek against Greek" to deal with. James Ratolas,

recently indicted by the Umatilla county grand jury on the charge of swindling a fellow countryman out of \$180, was arrested in Walla Walla yesterday and will be brought to Pendleton for trial as soon as an officer can be sent over for that purpose.

It seems that the Greek under arrest has been in this country for some time and is able to handle the English language. He has, therefore, been employed by his fellow countrymen in the vicinity of Milton to transact their business for them. Some time ago one of these men enlisted his services in an effort to bring a couple of the first man's cousins over from the old country.

To do this the \$180 necessary to pay for their passage was deposited in Milton. But when the agents of the railroad company undertook to secure passage for the two men at the other end of the journey, they found the two cousins had been sent to prison for five years and could not come. Negotiations were then entered into to secure a refund of the money deposited for their tickets.

As the Greek who could speak English had made the original arrangement he was again employed to attend to the detail of getting the money back. In this he was successful, but instead of turning the money over to the friend to whom it belonged, he put it in his own pocket and left for Walla Walla.

His indictment and arrest followed.

More Money for Library.
Mrs. A. J. McAllister, of the library and civic association, received a note yesterday from Congressman and Mrs. W. R. Ellis, in which was inclosed a \$20 contribution to their library fund.

Helix Crops Good.
Wheat prospects in the vicinity of Helix are good, according to Charles McAlavy and others who are in town from that place today. The frost administered a setback to some of the grain in the flats but the damage, if any at all, will be very slight. The recent rain and the present sunshine will go for toward overcoming the evil effects of the frost.

Marriage License.
A marriage license was issued this morning to Fred L. McCaw of Walla Walla and Miss Edith M. Seals of this county. As the bride-to-be is not of age the written consent of her mother was furnished before the license was issued.

ELKS PREPARING FOR BIG CARNIVAL

NORRIS & ROWE CIRCUS WILL BE BIG ATTRACTION

Two Big Free Parades Will be Given During the Day—Second Will be Entirely Under the Direction of the Elks—Will Use the Circus Regalia—R. Alexander will Lead the Line on a Big Elephant.

The Pendleton lodge of Elks is making big preparations for the Norris & Rowe circus which is coming to Pendleton under the auspices of the antlered herd next Friday. From present indications the day will be one long to be remembered.

Those who are in Pendleton on that day will be given more than their money's worth, even though they do not go near the circus grounds. There is to be a double attraction in the shape of a double parade. The regular regulation circus parade will be pulled off as usual at about 10 o'clock in the forenoon while at 7 o'clock in the evening the members of the Pendleton lodge of Elks will borrow the circus and pull of a parade of their own.

The full circus regalia, including the bands, callopes and animals will be available for this purpose and the parade will be headed by R. Alexander astride a monster elephant.

The following is a part of the program of the evening:

- Program.**
Camel Race—Entries, Leon Strauss, B. D. Smith James Cooper, W. A. Slusher.
Elephant Race—Entries: James Kyle, C. E. Roosevelt, W. A. Brown.

BALLINGER ORDERS MALHEUR PROJECT TO BE SURVEYED

Ontario, Or.—Secretary Ballinger of the interior department, has telegraphed the reclamation officials at Boise ordering immediate work in field to begin by surveyors and engineers for the Malheur government irrigation project.

F. E. Weymouth, supervising engineers for this reclamation district, is at Boise today, gathering a crew of engineers and surveyors and says he will be in Ontario within a day or two to begin work.

Secretary Ballinger directs that the work be hastened sufficiently to permit his personal inspection when he visits Ontario in June. He states that if the project looks feasible at that time he will order the work to be completed as soon as possible.

People here feel sure the government project will be built, as former surveyors promised great success. Private interests, who have been protesting against the government project, were heard by secretary Ballinger in Washington last week, and he stated to them that if they could show definitely they were financially able to build the project and that the people want a private project, they may be permitted to build.

Training for Big Fight.
Rochester, May 1.—Battling Nelson leaves for Hegewisch today and on Tuesday will start for San Francisco to begin his training for his fight with "Cyclone" Johnny Thompson at Colma on July 9th.

CARNIVAL WILL CLOSE.

Tonight Will Witness the Last of the Parker Shows Held Here.

Tonight will mark the close of Pendleton's six day fun festival provided by the C. W. Parker shows. Notwithstanding the unfavorable weather conditions that prevailed during the fore part of the week, the fun maker and the fun lover joined hands in a true carnival spirit, and never before in the history of the city has so much wholesome amusement been crowded into six days, with the objectionable features, which are so apt to characterize such events, so wholly absent; never before in the history of the city has any amusement organization left behind it such a clean record for orderliness, good behavior and clear cut business methods. The gentlemen who direct the destinies of the Parker shows, and the various departments, are all clean cut, likeable fellows, who apparently regard their calling as a profession, and not a mere means of making a livelihood. They are a credit to any organization and it is not difficult to understand why the Parker aggregation occupies such an exalted position in the profession of entertainment, when its policy and destiny is directed by men such as have appeared here in connection with it.

It is expected that an unusually large crowd will participate in the closing festivities, and special police connected with the Parker shows will co-operate with the local police and take more than ordinary precaution to prevent any rough tactics on the part of the over-boisterous carnivalists.

AT THE PICTURE SHOWS

Orpheum.
Program for May 1st and 2nd.
"Sentenced to Death."
"The Magic Eggs."
"The Drive for a Life."
Charles H. Sanders, the Man of the Hour.
"The Gentleman Burglar."
"The Miracle of the Statue."
"The Magic Handkerchief."
Song, "Tell me Dear will my Dream Come True."
Song by Miss Violetta, illustrated in curtain rolls, by the Orpheumscope.

Crowded Houses at the Grand.

The Grand theatre was crowded to the doors last night, it being amateur night and the patrons went away well satisfied with the talent that was shown on the stage. First prize went to Mazie Simms for her flower specialty which was put on in a very neat style. Second prize went to Goldie Spekenagle for a cow boy turn which was very good. The little girl who did the school song was very nice and deserves special mention. Prof. Bloomfield is preparing a professional minstrel show to be put on at the Grand for three nights commencing May 11th, further particulars will be given later.

"The Mills of the Gods."
"The Mills of the Gods," is the title, and New York City the scene of a new play by George Broadhurst, which will be seen here shortly. It is claimed for this drama that it is stronger than "The Man of the Hour," "A Fool and His Money," "Wildfire," and other successes of which Mr. Broadhurst is the author. This play has the distinction of a three months' run at the Astor theatre, New York, and similar runs in Chicago, Philadelphia and Boston. The play should attract a capacity audience on its presentation here at the Oregon theatre, Saturday, May 8.

Charged With Being Drunk.
Ti-Co-ni, a well-known Umatilla brave appeared before Judge Fitz Gerald this morning on the charge of being drunk and disorderly. He admitted that he had been gazing too long upon his beloved fire-water and when questioned declared he had secured his booze "at the show," evidently meaning the carnival.

Purchases Another Shetland.
W. L. Thompson, cashier of the American National bank, has purchased a black Shetland pony of J. V. Tallman, who is fast gaining the reputation of being the Shetland pony man.

Lost—Wednesday morning, fox terrier with brown leather collar. Answers to name of "Bobbie." Finder return to Mrs. Bob Wilner, 1208 E. Webb street and receive reward.

Glad to Get Back to Pendleton.
Dr. Ford is pleased to return to his own flock, and to be ready for the services tomorrow morning and evening in his own church. He enjoyed his visit and work in Portland and Salem, but is glad to preach to "his own." He has decided to deliver a series of Sunday evening lectures to the young people of Pendleton, and will give the first one to-morrow, Sunday, evening, on "Perils of Young men."

Sunny Southern Alberta
Nearly everyone knows about Alberta and its general location, but comparatively few know the size and extent of the province. The Province of Alberta, is about the size of California, Oregon and Washington combined, and must, therefore, have a variety of climates, owing to physical conditions existing in different parts of the province. The southern part of the province lying directly east of the Crows-nest pass, is known as the Chinook belt, since the warm winds blowing across the warm Japan current in the Pacific ocean, pass through the low-gap in the mountains at this point, and greatly temper the climate of the country immediately surrounding, and east of the pass. In this particular part of the country the winters are not severe as in other parts, the snow seldom falling to a greater depth than four to six inches, and ordinary farm work can be carried on the greater part of the winter. The land is a rich dark loam and is very productive. The government reports
