LIBRARY RECEPTION THURSDAY NIGHT

PUBLIC INVITATION TO INSPECT NEW QUARTERS

Joint Committee From Library Commission and City Council Arrange for Entertainment—Object, to Familiarize People With Library in New Location.

For the purpose of formally opening the new public library and also to give people an opportunity to inspect the city hall a reception will be held on the coming Thursday evening.

Arrangements for the big event are now being made by a joint committee from the library commission and the city council. As a committee to represent the library commission Mrs. Fee, president of the board, appointed all the members of the commission excepting herself. J. V. Tallman is the chairman. The following members of the city council will represent that body, Councilman W. H. McCormack, Councilman A. L. Knight, and Councilman T. G. Montgomery.

While the complete plans for the reception have not yet been worked out the members of the joint committee hope to make it a very pleasant affair. An orchestra will probably be secured for the evening and refreshments will be served.

The principal reason for holding the reception is to make the people of the city familiar with the library in its new location. The new quarters have been well furnished and as it is desired to make the library a public institution in the fullest sense the members of the commission would like to have it made use of by all the people. For the coming reception a general invitation is extended to the public.

COLONISTS BY THE THOUSAND.

side trips down the Willamette valley, to Hood River, the Rogue river country, the Walla Walla valley or any other of the score or so districts that have proved most popular with the newcomers since they first began to arrive, two months ago.

Most of them seem to be farmers of a most responsible and highly desirable class. Few of them are "camping" at the depot, the greater number having gone to modest priced hotels with their families. They will be in Portland three or four days.

possibly a week, and then will have settled in their new homes and be hard at work making a new west.

The general passenger department of the Harriman lines is utterly unable to figure out as yet how many people will have come to Oregon during the two months of the colonist movement. The sale of tickets on low rates was stopped Saturday, but it will take until Tuesday or Wednesday for people who have started from eastern points the latter part of last week to reach Portland.

THINK PALOUSE CHIEF DROWNED

Hoosis Mox-mox, chief of the practically extinct Palouse tribe if Indians, is believed to have met death in the Umatilla river last Thursday. The old Indian, who is nearly 90 years of age, started out to cross the river on that day and has not been seen since. His pony was found wandering around on the river bank with the wet saddle still on him and showing evidence of having had a struggle in the river.

The body of the chief has not been recovered and two Cayuse ponies have been offered as a reward for the person who will find it.

The drowning is supposed to have occurred at the crossing just below Thorne Hollow and near the scene of the Cayuse wreck of two years ago.

For Walla Walla Meeting.
Invitations have been received by Pendleton people to attend the annual meeting of the Washington Conservation association which is to be held in Walla Walla May 13 and 14. The meeting will be held in the rooms of the Walla Walla Commercial association and a strong list of speakers have been invited. Among these are Harriman and Hill. Representatives of the reclamation service will also be present.

FIFTY BRASS BEDS FOR HARRIMAN'S CASTLE

Middleton, N. Y.—Fifty brass beds have arrived for the new castle which Mr. Harriman is completing on East Mountain, in the town of Woodbury, Orange county. These beds are of Harriman's own designing.

A fact that has become known about the Harriman castle is that it will have four heating systems. These will be steam, hot water, electricity and open fireplaces. Work has been rushed on a wing of the castle for the Harriman family to occupy this week.

The castle has been under construction for five years, and it will stand as one of the most magnificent private residences in America. Already it represents an outlay of \$3,000,000, and the total cost has been estimated at \$5,000,000.

ONE THOUSAND HUNTERS IN "BUCK ROUNDUP"

San Francisco.—One of the largest hunting parties ever organized in this state has been planned by the citizens of the northern part of Mendocino county. One thousand men will be engaged for 10 days, beginning August 3, in beating the country for bear, deer and coyotes, and the affair, which is known as a "buck roundup" is said to have the sanction of the game commissioner. A great circle will be formed by the hunters, and this will gradually close in on the doomed beasts until they will be completely at the mercy of their pursuers.

A young woman, a public school teacher in a New York suburb, has formed a lunch club for the mothers of her pupils, to assist them in putting up suitable school lunches for their children.
