**GOVERNMENT WANTS  
YAKIMA INDIAN LAND**

Oregonian News Bureau, Washington.—Senator Jones has been advised by the Indian Office that special agent Roblin, who recently was detailed to obtain the consent of the Yakima Indians to sell a part of their allotments, reports that he found a very strong feeling of opposition to the plan, especially among the older and more influential Indians, many of them being under the impression that the government proposed to deprive them of their land without adequate compensation.

Mr. Roblin is now at work endeavoring to bring the Indians to a different frame of mind. As reported to the senator, his plan is to see as many as possible of those whose lands lie under the Wapato project, and explain the desires of the department to them, singly or in small groups, and in this way it is hoped he will be able to gain the consent of the more influential Indians to the sale of their lands, and he then will have their cooperation in obtaining contracts from the others.

There are about 1600 allotments involved in the proposition and naturally considerable time has to be spent in getting the addresses of allottees, finding out which of them are dead, which are minors, etc. A large number of the allottees have been found to be dead and great deal more work will be necessitated thereby in the locating of the heirs.

The agent is of the opinion, on account of the weather conditions, that this Summer will be a dry season and that there will probably be a shortage of water for irrigation purposes on the reservation during July and August, and this condition it is hoped will make the Indians more amenable to reason, July and August also is the best time to work among the Indians, as they receive the largest payments of their lease money then and these payments bring many of them to the agency office.

It is the belief of the Indian Office that, with the foundation he is laying Agent Roblin will be able to overcome the opposition of the Indians to a great extent, and in time obtain the desired contracts from a sufficient number of them to insure the success of the project.

**DISCOVERS STONE TO BE FOUND ONLY IN OREGON**

Portland.—E. L. Beede, of Drewsey, Ore., has discovered an ornamental stone which he thinks should make a good stone from which to make souvenirs for the Seattle fair. According to Mr. Beede it is to be found only in Oregon.

"The stone is found only in this

**Best for Biscuits.**  
 A prominent teacher in one of the Domestic Science schools in Mississippi writes that she is using Cottolene in her lessons with excellent results. She says: "For biscuits Cottolene is all that could be desired. The biscuits are light and flaky, with none of that disagreeable odor often found in foods shortened with lard. Cottolene is also an excellent medium for frying croquettes and doughnuts. It gives them a clean, crisp, brown crust."

Other noted experts, such as Mrs. Rorer and Marion Harland, have given similar testimony to the merits of Cottolene. It is a cooking fat made from the finest vegetable oils; it gives better results than lard, and it is much more wholesome and economical as well.

state," said Mr. Beede. "It will take a high polish and has a peculiar beauty which distinguishes it from all others. It was used considerably by prehistoric races in their rude arts, but has only recently been rediscovered. I have been trying to find some one to take the stone in hand and have souvenirs made but as yet have been unsuccessful."

Charles Koehler a manufacturing jeweler and an authority on such subjects, was not as enthusiastic over the stone as was Beede. "A considerable quantity might bring a fair price were it shipped to Germany, where they can manufacture it, but here it is of but little value," said Mr. Koehler. "I see so much stuff like this that I can see nothing unusual about it. However it may bring a fair price should it be sent to Germany and made into fancy articles."

The stone is evidently of volcanic origin and somewhat resembles asbestos, except that it is in streaks of black and red instead of solid black. It is about as hard as flint.

**Whooping Cough**

This is a more dankeous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough, and always with the best results. Delbert McKeig, of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot recommend it too highly." For sale by all good dealers.

**WESTERN MEN WILL SPEAK ON THE TARIFF**

Washington.—There will be a flood of oratory in the senate next week. A number of senators have already expressed their desire to make speeches on the tariff bill and as a result no great progress in the actual consideration of that measure is anticipated. Last week about five paragraphs out of the 50-odd contained in the first schedule, that on chemicals were disposed of. That is the extent of the actual work accomplished on the bill. The rest of the time was devoted to speech making. The income tax and the lumber schedule have so far been the principal topics of debate.

Senator Borah of Idaho is expected to lead off Monday with a speech upon the proposition to tax incomes. Senator Piles of Washington will answer the free lumber speeches made by Senator McComber and Nelson.

Senator Bradley of Kentucky, has given notice of his desire to address the senate on Tuesday on the subject of flax and hemp. On the same day Senator Dolliver of Iowa is expected to make a speech devoted principally to the woolen schedules, in which he thinks he has found many strange things.

Other senators who expect to talk during the coming week are Cummins of Iowa, in support of the income tax; Jones of Washington, on lumber and coal; Daniel of Virginia, on tobacco, and Painter of Kentucky, in favor of the removal or material reduction in the tariff on typesetting machines.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by all good dealers.

**TARIFF SETTLEMENT WILL BRING TIMBER DEAL**

Portland.—"I look for a number of heavy transactions in timber land as soon as the tariff question is settled," said Finley Morrison, a well-known timber land operator of this city. There are probably 200 cruisers out now in the woods tributary to Portland, and as soon as these cruisers report conditions to their principals deals will begin to loom up at advanced figures.

"The tariff agitation keeps matters back some, but even if the tariff were taken off lumber altogether it would make no difference to the timber men of the northwest. Canada has no timber to spare, and so cannot compete with the American lumbermen in furnishing lumber to the consumers of the United States. On the contrary millions of feet of lumber are constantly being exported into Canada over the border north of Michigan, and the construction of the second transcontinental line in Canada will create that much more demand.

"There is only just so much available timber in the world, and the supply is diminishing rapidly every year. The anxiety on the part of timber land owners over the tariff agitation is therefore entirely uncalled for. There will be no need of anybody giving timber away, no matter how congress decides as to the tariff on lumber.

If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys, and bladder, purifies the blood and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? Koeppen Bros.

**THE LADY MACABEES ENTERTAIN VISITORS**

June Hive No. 10, Lady Macabees, of this city, is entertaining Violet Hive No. 30 of Helix today. Twelve members of the Helix lodge came in this morning and will spend the entire day in the city.

The Pendleton members of the order have made quite elaborate preparations for the entertainment of their guests. A sumptuous banquet served about noon was the principal feature of the day, though the initiation of several new members and the putting on of some special work, were also interesting features. The work was put on in splendid shape, despite the fact that much of the lodge regalia was burned in the fire which occurred in that block several months ago, and has not yet been replaced.

Those who came in from Helix this morning were, Mrs. William Dale, Mrs. Ira Scott, Mrs. Thomas Cook, Mrs. William Piper, Mrs. Ed Zeuske, Mrs. William Shannon, Mrs. John Wyrick, Mrs. Frank Myers, Mrs. Walter Beck, Miss Lulu Beason, Mrs. Helmen and Miss Emma Zeuske.

**HUNT INDIAN TREASURE IN LARGE CAVE**

Cliffs, Wash.—The big Indian cave two miles east of Cliffs still attracts a great many visitors. The sand floor has been disturbed by parties digging for imagined treasures but so far nothing has been discovered. When sufficient light falls inside many old Indian paintings on the side walls and ceiling can be seen but no one has been able to decipher any meaning. There is every evidence of this cave having been used in the dim past, but since it is in a solid rock wall it still remains a mystery as to how so much sand came at the bottom of the cave. One old Indian has been found who claims to know about its location, but he says it has not been used for hundreds of years. The residents of Cliffs continue to find valuable Indian relics.

Hoarseness, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. Koeppen Bros.
