WILL NOT INTER MEREDITH IN WESTMINSTER

London, May 21.—The Westminster authorities have declined to place the ashes of George Meredith in the abbey. A strong appeal to the dean to this effect was strongly supported by the Society of Authors, representing all the leading writers, by Premier Asquith, Lord Morley, Rudyard Kipling and James M. Barrie. Mr. Barrie made a personal appeal to the dean, but in vain. The action of the Westminster authorities has caused much disappointment, as it is known that the question of space was not involved.

NEED OF IRRIGATION IN WILLAMETTE VALLEY

Salem, Ore., May 21.—Advance sheets of the topographic map covering 125,000 acres of the Willamette valley between Eugene and Junction City have been received by the state engineer at Salem. This area was surveyed during the summer of 1908 by State Engineer Lewis in conjunction with the United States geological survey. The finished map will be published for distribution by the United States geological survey, Washington.

The map shows the irrigation and drainage possibilities of this section and will prove valuable to commercial interests. It shows but one or two houses to the square mile. By promoting and encouraging the practice of irrigation and more inexpensive and diversified farm, this map should show from 20 to 40 houses to the square mile. A bulletin on irrigation in Oregon recently issued by the department of irrigation illustrates by diagram the need of irrigation in the Willamette valley. The striking feature brought out by this diagram is that the summer rainfall in the Willamette valley is much less than that which occurs in some semi-arid regions, and far less than that which occurs in the eastern humid states.

STILL ALIVE AFTER FALLING 350 FEET

Reno, Nev., May 21.—One man suffered a fracture of a leg, while two companions were only slightly bruised and shaken when a lift in the shaft of the Quartette mine broke today about 10 feet from the opening, precipitating the three miners to the bottom of the mine, 350 feet below. Twelve feet of water in the bottom of the mine prevented all three from being killed. The three men were George Ackley, Harley Holmes and Charles Butterfield, Chicago men, who own the mine.

The men were being brought to the surface in the lift when the cable broke on one side of the bucket, causing it to tip and throw the men out. Ackley, whose leg was broken, struck the side of the shaft in his fall.

PARDONED RUSSIAN GENERALS ARE CHEERED

St. Petersburg, May 21.—Lieutenant-General Stoessel and Rear-Admiral Nebogatoff, who were pardoned by Emperor Nicholas, walked forth from the fortress of St. Peter and St. Paul this afternoon. A large crowd gathered at the gates to see the two officers come out, and Stoessel was warmly congratulated on his release.

Rear-Admiral Nebogatoff, who today finds himself in reduced circumstances, was met only by his son. He walked to the nearest station of the streetcar line, carrying his personal belongings in his hand. Emperor Nicholas extended mercy today to eight other naval officers who were dismissed from the service. The dishonoring features have been revoked and the men are regarded as having retired from the service in the ordinary way.

OREGON'S WAR CLAIM OF \$193,500 ALLOWED

Salem, Ore., May 20.—Attorney-General Crawford received formal notification yesterday afternoon that the United States court of claims, at Washington, D. C., had allowed the state's claim against the United States for Indian war veterans' bounty, and has sent in the claim to congress with the recommendation that an appropriation be made to cover the amount. It is believed that the special session of congress will enact a deficiency appropriation bill during the present session, in which event Oregon's money will be forthcoming pretty soon.

The total amount of the claim allowed is \$193,534, and is based upon the government's offer of a bounty of \$150 for every man that would volunteer to serve during the civil war. Oregon mustered in one regiment, First Volunteer Infantry, which, although its services were not called upon to engage in the war in the east, did service in putting down the Indian outbreak in this state, which the government recognized as equivalent to service in the rebellion.

Acting upon the good faith of the United States government, the Oregon legislature authorized the issuance of 2760 bonds, in favor of the veterans entitled to the government bounty of \$150, in 1884, at the par value of \$50 each, bearing interest at 7 per cent per annum. The state redeemed these bonds, the principal amounting to \$129,041, the interest at \$63,868, expense of advertising for redemption of bonds before maturity, printing, etc., \$644, making the total \$193,543, which was allowed by the court of claims. The state's claim for \$623,44 for raising and equipping several companies of militia as a reserve was not allowed by the court of claims, because the act of July 17, 1861, made no provision for raising troops for state service, and the militia companies were not called upon to do service for the general government.

400 NEW YORK BAKERIES CLOSE THEIR DOORS

New York, May 20.—A bread famine among the 800,000 residents of the East Side was inaugurated yesterday, when more than 400 bakeries closed down. The trouble started with the increase in the price of wheat, and was augmented by the strike of the bakery employes on the East Side.

At a meeting of the bakery owners it was decided to close all their shops, numbering more than 400, commencing yesterday morning. The police, hearing of this, detailed an unusually large number of men in this section during the hours when the housewives usually visit the bakeries. This was a fear that the riotous scenes of a few years ago, when the price of meat was raised, might be repeated. Bakeries which are not affected by the action of the meeting will not be able to supply one-tenth of the demand for bread in the crowded East Side and therefore it was believed that there would be an unprecedented demand for flour and bread from other sections.

As Jones wended his uncertain way homeward he pondered ways of concealing his condition from his wife. "I'll go home and read," he decided. Later Mrs. Jones heard a noise in the library. "What in the world are you doing in there," she asked.

"Reading, my dear," Jones replied. "You old idiot," she said, scornfully, as she looked in at the library door, "shut up that valve and come to bed."—Success Magazine.

### ARRESTED FOR SELLING IMAGINARY BOOZE

Los Angeles, Cal., May 20.—Alleged worthless certificates of an imaginary whisky warehouse and a number of disgruntled liquor dealers will figure in the trial of Nathan Roemer, who was arrested today in San Francisco.

He is a whisky salesman, and the complain filed charges him with having obtained money under false pretenses. According to the police, Roemer's victims are numbered by the score, and the losses mount into the thousands. He is said to have "worked" nearly every town in Southern California where a saloon is to be found. His very low prices proved irresistible bait.

The complaint sets forth that he stated that the Pleasant Springs distillery, New York, had a great quantity of whisky of the Pleasant Spring Club brand stored in a United States bonded warehouse at Stanley. The liquor was offered at a bargain. Roemer traded the warehouse certificates for cash, it is alleged.

A Deferred Reward. A little boy in Trenton, who has but recently mastered his catechism, confessed his disappointment therein in the following terms: "Say, dad, I obey the Fifth Commandment and honor my father and mother, yet my days are not any longer in the land, for I'm put to bed at 7 o'clock every night just the same."—Lippincott's.
