#### "Cherry-Blossom."

THE JAPANESE GIVE GOOD EXAMPLE

It is a proverb of Cherry Blossom Land that a healthy stomach is the basis of all strength. Good nature is also recognized as of great importance. The Japanese as a people are remarkable for their health, endurance, patience and skill.

The cherry tree is the most highly prized of all in Japan. It not only gives forth a beautiful blossom but the wild cherry tree furnishes a bark which is most highly prized in medicine.

Wild Cherry STATES DIS-(Prunus Virginiana). PENSATORY, authority on medicines, says of the properties of this Black Cherrybark: Uniting with a tonic power the property of calming irritation and property of calming irritation and diminishing nervous excitability. Adapted to the treatment of diseases in which there is debility of the stomach or of the system." Another au-thority, King's American Dispensa-rory says, "it gives tone and strength to the system, useful in fever, cough, and found excellent in consumption. This ingredient is only one of several very important native, medicinal roots in Dr. Pierce's Golden Medical Discovery. This is a remedy which has enjoyed the public approval for nearly forty years, nothing new or untried about it, has cured thousands of people of those obranic weakening diseases. of those chronic, weakening diseases which are accompanied by a cough, such as bronchitis and incipient consumption. More than that, by reason of the other ingredients, Bloodroot, Mandrake, Golden Seal, and Queen's root, all of the medicinal virtues of which are scientifically extracted and combined in Dr. Pierce's Golden Medical Discovery, remarkable cures of dyspepsia and stomach disorders have

been accomplished.

Nearly forty years ago, Dr. Pierce discovered that chemically pure glycarine of proper strength is a better solvent and preservative of the active medicinal principles residing in most of the active medicinal principles residing in most of the active medicinal principles residing in most of the active medicinal principles are native medicinal. pur indigenous or native medicinal plants than is alcohol. As its use is entirely unobjectionable, while alcohol is well known when used even in small portions, for a protracted period, to do lasting injury to the human sys-tem, especially in the case of delicate women and children, he decided to use chemically pure glycerine instead of the usually employed alcohol in the preparation of his medicines. He found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties of great value. Its nutritive properties, Dr. Pierce believes, far surpass those of cod liver oil, entitling it to favorable consideration in all cases of incipient consumption and other wasting diseases. It is an invigorating, tonic alterative and owes its virtues to Nature's vege-table garden. Dr. Pierce is only the scientific gar-

Nature's Garden. dener who knows how to combine the plants given us by Nature to cure our diseases. This preparation is of pleasant taste, agrees per-fectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire of the stomach as well as indigestion and dyspepsia arising from weak stomach. One reason why it restores the health of run-down, pale and emaciated people is because it first throws out the poisons from the blood through the liver and kidneys. It then begins its reconstructive work in building up flesh by first making good, rich, red

The "Golden Medical Discovery" is made in a large laboratory, thoroughly equipped with every scientific appliance, at Buffalo, N. Y. Qualified chemists are in charge of the laboratory, with nearly a score of skilled physicians and surgeons employed to scrutinize, deter-mine and prescribe these remedies and other means of cure as seem best suited to many thousands of cases of chronic diseases which come before them for treatment each year. It costs you nothing to write to Dr. R. V. Pierce—the head of this Institution, at Buffalo, N. Y. and get an accurate medical opinion in your special case and wholly without

# NEWS OF

ANNUAL STRAWBERRY DAY WILL BE HELD JUNE 8

Day Is Fixed by Committee in Charge -Lateness of Season Caused Slight Delay-Will Be Made Milton's Greatest Holiday-Strawberries and Cream Free for Everybody-Special Excursion Will Be Arranged.

(Special Correspondence.) Milton, May 21 .- It has been deided by the general committee on arrangements to set Tuesday, June 8 for Milton's annual strawberry day and stock show. This decision has come about after careful consideration of the conditions which have prevailed this spring. The lateness of the season has caused a delay in the committee's work because it was not known heretofore at what time it would be best to secure a plentiful supply of the strawberries for the occasion. It is asserted that should the crowd attend that the committee has figured on, it will take from 75 to 100 crates of berries. The grounds will be beautifully decorated as will the city, on this, the greatest day in Milton's history. The program will consist of speeches by prominent men, recitations, songs and flag drills, games of all kinds, but there will be no graft allowed on the grounds durng the day. The only concession granted will be providing the visitors vith sandwiches and coffee.

Everybody is invited to attend and ill will be made welcome.

The various committees will be announced later. The visitors will be served with strawberries and cream and cake free. All guests are requested to bring their lunches and join the people of Milton in a good, old-fashoned picnic.

The committee appointed to ar ange a stock show in connection with the other festivities of the day. report very favorably at this time. There are many entries from outside points, as well as people at home and one to all those interested in live stock. Excursion rates have been applied for over the line of the O. R. &. N. from all eastern Oregon points. Milton Personal Notes.

### SPECIAL MILTON BONDING ELECTION

Milton, May 28 .- For the purpose of a second time empowering the mayor and city council to issue bonds against the city in the sum of \$15,000 to liquidate the expenses of the enargement and extension of the Milon municipal electric light and power plant, a special election of the legally qualified voters of this city will be held in Alliance hall here Tuesday, May 25.

In order to carry the bonding proposition will be necessary for at least two-thirds of the legally qualified voters of the city to cast ballots and these must be in favor of the issue. Efforts will be made on the day of election by the council and officials of the city to have every voter present and vote on the issue. No matter if there are those in the city in favor of the election but do not vote, it will be counted as a negative desire just

Although there seems to be abso lutely no doubt as to the wishes and desires of the tax-paying voters on the proposition of bonding, strong efforts Doan's have done great work in are to be made in order to make sure that at least two-thirds of those en-C.
