BAKER WINS FIELD MEET.

(Continued from Page One.)

ers knew no bounds. They could hardly have been more hilarious had he won first place.
Pendleton was weak in the jumps and weights, though Storie surprised everybody by clearing the bar at 8 feet 2 inches, and Chapman in the broad jump leaped farther by many inches than he ever did before. It would, therefore, seem that with proper training the local team will be able next year to render a still better account of itself.
There are many who believe that but for the illness of Boylen, which prevented his entering the mile and to half mile, Pendleton would have won yesterday's meet.
Two Minor Accidents.
Only two minor accidents occurred yesterday to mar the day. When getting ready for the hammer throw some one let the leaden ball fly out into the crowd, striking Carl Eaton, aged 14 years, on the side of the head. Fortunately, no bones were broken, but the injury received was very painful. The foot was packed with ice

and the boy brought home in a buggy.
The other accident occurred just at the conclusion of the meet and as the crowd was making a mad rush for home.
The horse being driven by Miss Pauline Mimms and Miss Hazel Howland became frightened at the wild stampede for home, whereupon the girls attempted to jump from the buggy. Miss Howland fell on the ground and received a few injuries, while Miss Mimms fell just behind the horse and under the front wheel. The frightened animal drew the wheel up to her body and then stopped. The screams of the frightened girl promptly drew an abundance of assistance to the rescue, Oliver Huston being the man who lifted the wheel and allowed the girl to escape. She was not injured in the slightest.

SPECIAL OREGON SESSION COSTS THE STATE \$4500
Salem, Ore., May 26.—A detailed statement of the cost of the special session of the 1909 legislature issued by Auditing Clerk Corry shows that the taxpayers had paid but \$4500. It shows that the session in 1902 cost \$5600, the largest item of which was the mileage paid by the legislature.

NEW RIFLE RANGE FORMALLY OPENED
Portland.—With a thoroughly modern and fully equipped rifle range available, the Portland companies of the Oregon National Guard opened the 1909 target practice season last Saturday at the range near Clackamas Station purchased several months ago by the United States government for use by the state in developing marksmen.
Nearly 100 officers and men were on hand to occupy the targets, the two companies assigned to the firing line having unexpectedly large turnouts. Guardsmen enthusiastically marched to their new range—a goal for which they have been striving for many years. The spacious grounds were in striking contrast to the cramped and totally inadequate range which in past years has done service for the Portland troops. From 1000 yards right up to the targets the line of fire lay over a strip of ground as smooth as a floor.
Companies E and G, Third Infantry, were the ones to have the first day at the targets. The organizations assembled at the Armory at 7 a. m. and an hour later marched to the Union depot, equipped for the field. The trip to the range was made over the Southern Pacific, a ride of 35 minutes landing the troops at Clackamas station, 11 miles south of Portland. From that point a march of 500 yards saw the companies on the range. Company E was in command of Captain C. E. Smith, Senior Captain of the regiment. Company C was in command of Captain L. A. Bowman. Adjutant-General W. E. Finzer and Major F. S. Baker, state inspector of small arms practice, were on the range all day directing the details of the opening day's work.
Fire Over Short Ranges.
Good scores were numerous, totals of 40 and better out of a possible 50 being nothing out of the ordinary at the 200-yard range, slow fire. In view of the fact that many recruits were on the line, the company averages were not very high, however. The forenoon was spent at the 200-yard range, slow fire. After mess the troops moved back to 300 yards. Experts and sharp shooters were permitted to fire over the short ranges in order that they might accustom themselves to the conditions.

A telephone line is being constructed in the Alps which will hold the record for height.

Blemishes On the Face
Don't go about with a face full of blotches or other skin eruptions. Clear off these disfigurements in a short time at little expense. These unsightly blemishes come from impure blood and a disordered system but will all disappear after a few doses of
Beecham's Pills
which do the work quickly and thoroughly. Salves, ointments and washes never cure a pimply face. You must get the poison out of the system. This is what Beecham's Pills do. They move the bowels, start the bile, carry off the impurities, cleanse and vitalize the blood and

HOTEL CASHIER IS MARRIED TO MILLIONAIRE
Los Angeles, May 26.—Leaving three weeks ago, ostensibly to see her dying mother in Kansas City, Mrs. Octavia Leitner, the handsome young cashier at the Hotel Kankershim, became the bride in that city of Milo Baker, a millionaire, who had been a guest at the hotel here many months. Her beauty is of so striking a type that Professor Adolph Heinrich, a noted German artist, painted her portrait as "Miss Angelezo," a picture that has attracted wide attention locally.
Mr. Baker was a widower. He owns much improved Los Angeles business property. He also is interested heavily in Nevada mines. He is 45 years old and has a son. The bride is 20 years his junior. The romance was not even suspected at the hotel; in fact, the cashier seemed to distribute her attentions about equally among the clerks, who suffered a severe shock tonight upon hearing of the marriage.

PORTLAND HAS COSTLY FIRE AMONG FACTORIES
Portland, May 26.—A fire thought to have been started by boys smoking cigarettes, today destroyed property valued at from 25 to a hundred thousand dollars. Two factories, one of them used by manufacturers of furniture, and the other for sashes and doors, were completely destroyed. The fire started in the lower southeast corner of the sash factory and near the center of Portland's Italian colony. One Italian risked his life by running into a burning building to save a parrot. Noting some feathers burned he took the bird to the river and held its head under the water until it was dead.

FIND THE BODY OF WOMAN AT CLIFF HOUSE
San Francisco, May 26.—Washed upon the rocks near the Cliff house, the body of a well-dressed woman was found today by Junius Schmidt,

night watchman. She was apparently 33 years old and has been in the water but a short time. She is attired in a kimono. The latter fact leads the police to believe that she was probably killed and carried to the lake.
GIVES FIFTY THOUSAND DOLLARS TO WHITMAN
Walla Walla.—That D. K. Pearsons the benefactor of Whitman college, is still greatly interested in the growth of the institution, and that the academy that bears his name is to be provided with funds for vast improvements, is given out by Dr. S. R. L. Penrose, of Whitman college, who has just returned from an extended visit in the east. According to Dr. Penrose, a check for \$50,000, will be sent to the academy officials in July, the money to be given unconditionally.
President and Dean Hendrick have just returned over the Soo-Spokane road from the east where they visited to secure new men for the faculty to fill the need caused by the growth of the institution. While there they visited the leading educational institutions of the country, including Yale, Harvard, Princeton, Chicago, Wisconsin and Pennsylvania.
They also met the officer of the general education board, and of the Carnegie foundation for teaching, while in New York city, and secured from them a promise to be present at commencement. Dr. Wallace Butt-rick, of the general education board will visit the college during commencement week, and about the same time Dr. Henry S. Pritchett, of the Carnegie Foundation, will inspect the institution, preparatory to admitting it to benefits of the foundation.

Pickpocket Returns Loot.
Seattle, Wash.—A wallet belonging to Dr. R. T. Freeman of the University club, containing cancelled notes, foreign stamps and coins, some small change in United States coins and one unendorsed note, was taken from a mail box at First avenue and Madison street yesterday. Postmaster George F. Russell this morning advised Dr. Freeman the wallet was taken. Dr. Freeman says the wallet was stolen by a pickpocket.
This is the second time pickpocket's loot has been deposited in letter boxes by thieves in the last three days. Postmaster Russell Sat-

Beauty in Gold, Silver and Glass

as in all other articles, depends on the artistic taste displayed in the manufacture. No matter what beautiful or precious metals may be used in the manufacture, if the taste is lacking, there is no beauty in the result. We have always borne this fact in mind in the selection of our goods, and the result is that the artistic element enters into even our most inexpensive pieces of Jewelry, Silverware and Cut Glass.
