

BECOMING A MOTHER

Thousands of women have found the use of **Mother's Friend** robs confinement of much pain and insures safety to life of mother and child. This liniment is a God-send to women at the critical time. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but it prepares the system for the coming event, relieves "morning sickness," and other discomforts.

MOTHER'S FRIEND

Sold by druggists at \$1.00. Book of valuable information mailed free.

THE BRADFIELD REGULATOR CO.
Atlanta, Ga.

Is an ordeal which all women approach with dread, for nothing compares to the pain of child-birth. The thought of the suffering in store for her robs the expectant mother of pleasant anticipations.

FINANCIAL COST OF BEING PRESIDENT OF THE UNITED STATES

When President Taft took the oath of office on March 4 and became president of the United States he did so at a salary of \$75,000 a year.

Many persons, doubtless, imagine that of this amount the frugal president will lay by a neat little sum, so that when he becomes a private citizen he will not, for some time at least have to worry about the future.

As a matter of fact, it is likely the president will leave the White House not very much richer than when he entered, unless he should make judicious investments in the meantime. It is said Theodore Roosevelt spent more than his salary in upholding the dignity of his office. It is costly to be president of the country, and, it is declared, most of the executive's salary is eaten up by expense. Just how the chief executive of the nation goes through his money, however, it will be interesting to learn.

When President Taft took his trunk into the White House he knew of a few things that would cost him nothing—the house which should shelter him, the fuel to keep him warm in winter and the gas and electricity with which the house would be lighted.

Must Pay Living Expenses
His living expenses, he knew, must be paid out of his own pocket. What they would be he realized would depend upon the scale of magnificence entertained; that there must inevitably be entertainments, and entertainments fittings in their splendor to the importance of the country he served. He knew there would be teas, musicales, balls, state dinners, often costing a thousand dollars or more.

Of course, President Taft knew all these things. But it is not to be assumed they bothered him. No one places the presidency of the country on a commercial basis or regards it as a money-making proposition. It is a task of patriotism and love—and, from a financial standpoint, an expensive one.

The domestics employed in the White House will be paid by the government; purely personal servants the paid by Mr. and Mrs. Taft. The government will supply the president with a barber, a stable groom who will have charge of household servants.

But the coachman of the president will be paid by him. President Taft must buy his own horses and the oats to feed them. On the other hand the government will supply, free of cost, many other services required.

Should the president or his family become ill there will be no doctor's

YOU MANUFACTURE FAT?

If it were not for the fact that you add to your fat every day, you would soon get back to a decent figure. Each day's activities consume some of your excess. But it is "off with the old—on with the new" with you every twenty-four hours, so that the fat balance remains unchanged.

Now, people who take Marmola Prescription Tablets really get thin, but harmlessly so, and a hint as to the reason is given above. They eat and drink with undisturbed delight as formerly, and yet they lose, many of them, a pound a day. The reason is Marmola causes the body to stop manufacturing useless fat; hence the body it is introduced into gets thinner as a matter of course. Each day's activities alone would account for the delightful result.

Check up results from this point of view and you can really understand why Marmola Prescription Tablets cause no ill effects or wrinkles, but on the contrary, help the stomach and the appearance. They are nature's allies, not her competitors. This commends them to all, even the timid, as safe; and since they reduce one, as fast as desirable, that is all that is required.

When you get tired trying other methods of getting thin test this one. Marmola Prescription Tablets come in large, generously filled cases, and if your druggist can not supply you, which is unlikely, you can get one or more cases by mail by sending the price, 75 cents, direct to Marmola Company, Dept. 664, Detroit, Mich.

ills. The regular surgeons and doctors of the army or navy will respond to any call of the president, who, as commander-in-chief of the army and navy, is their superior. In case of death the government would bury the president, and perhaps pay his widow a pension for life of \$5000 a year.

Uncle Sam Makes Repairs.
If there are to be any repairs made in the White House it will cost the president nothing. Mrs. Taft need simply call upon the engineer officer of the army who is also employed as the superintendent of buildings and grounds, and he will see to the repairing of a roof or remedy a defect in the heating apparatus.

When President Roosevelt moved into the White House he found it sadly in need of repair. It was compared to a flat located over a museum. The state dining room was draughty, the furnishings soiled and faded, the furniture old-fashioned.

Emphatically Mr. Roosevelt declared that the president of a great country should live in a style befitting the dignity of his position. The cabinet listened to him and agreed. The White House was remodeled, new furniture was bought and the place took on a new appearance.

Dinners Come High
Mr. Taft, as president, will have \$35,000 at his disposal each year for furnishings for the White House. A similar amount will be allowed for repairs. There will also be allowed \$4,000 for taking care of the grounds, \$300 for greenhouses and \$6000 for fuel.

Of course, the president will have to defray nearly all expenses of entertaining. His affairs must be elaborate to a great degree. Now while he may spend \$1000 or more for each of his state banquets, the flowers for the decorations will cost him nothing. Yet this is a mere bagatelle. The music, supplied by the Marine band, will also be free.

In the great state dining room Mr. Taft is able to entertain 100 guests. Before President Roosevelt had the White House remodeled the room accommodated only 40. Of necessity, the president must entertain largely. It is said that during his term President Roosevelt never took a meal at home without guests excepting his breakfast. He entertained more extensively than his predecessors; the cost, it is said, far exceeded his salary and made quite a hole in his personal fortune. Without a private fortune such as Mr. Roosevelt's, it is thought Mr. Taft will not be able to entertain to such an extent.

Persons can readily understand the heavy drain upon the president's purse when they consider the state dinners, with forty to fifty guests; the cabinet dinners, with guests numbering from eighty to 100. Each season there are four such functions, costing each from \$500 to \$1000.

Then there will be the coming-out party of Miss Helen Taft; there will be gowns and other things to provide. During Mr. Roosevelt's term he had to defray the expenses of the coming-out parties of his daughters, Miss Alice and Miss Ethel. Then there was the wedding of Miss Alice to Nicholas Longworth. For functions such as these the feminine members of the official family must be fittingly gowned, and the ball dresses may approach or exceed the thousand-dollar mark. The costuming bill for a single season is staggering.

Of course, Mr. Taft will have to pay for the clothing for his sons, their tutoring and schooling and incidental expenses. And one can understand that with the magnitude of his position the expenses of a president, compared with a man in private life, are proportionately large.

Many persons imagine that when the president travels, his bills are paid by the government, just as a traveling salesman's are covered by his firm. During the latter part of Mr. Roosevelt's term the sum of \$25,000 a year was allowed for traveling expenses, but when the president's sal-

ary was raised to \$75,000 this item of relief was dropped.

The traveling expenses of the kaiser of Germany, which are paid by the German government, are said to be about a half million dollars a year, with further allowance of a similar sum. Even if he wanted to do so, president Taft could not very well practice the economies of President Fallieres, of France, who receives so much more than he. The French president is painfully economical. When he succeeded M. Loubet there were fifteen horses in his stable. All excepting three were sold by M. Fallieres, and these are said to be old and decrepit. Upon official occasions M. Fallieres has been accustomed to hire horses—even to drive visiting sovereigns.

One can readily see that Mr. Taft cannot do what the private millionaire can—salt away his income. Comparing his salary with that of other presidents, it does not seem too large after all. The president of Mexico receives \$36,000 and the presidents of San Domingo and Haiti each \$24,000.

DR. CLARK TELLS OF GROWTH OF C. E. MOVEMENT

Portland—Dr. Francis E. Clark, founder of the Christian Endeavor movement and president of the international society, held meetings Sunday afternoon and evening at the First Presbyterian church. In the morning he spoke at the First Congregational church. Saturday morning and after noon he addressed the Christian Endeavor rallies at the First Congregational. He left last night for California. Yesterday afternoon the largest meeting was held and Dr. Clark gave a most interesting talk on the Christian Endeavor movement throughout the world. He recently returned from Endeavor conventions held in England, Norway, Germany, France and Spain, and said the movement has spread remarkably rapidly there.

Particularly impressed was he with the strength of the Christian Endeavor in Spain, where so much Catholicism would lead one to expect very little. The convention was held at Barcelona and the attendance was so large that the Sunday meetings were held in a large theater and the others in a dance hall. The former 80-year-old chaplain to Queen Isabella was one of the principal speakers. He was converted to Protestantism immediately after the abdication of Isabella.

"Where," asked Dr. Clark, "can the Christian Endeavor not be found? Many societies were represented in the battleship fleet, in the hospitals, deaf and dumb asylums, among all sorts and conditions of men. There are 4000 Christian Endeavorers in the prisons of the country today. I need hardly say they have become Endeavorers since their imprisonment. It is gratifying to know that not one of these men and women who have gone out of these prisons has gone back. The Christian Endeavor organization has opened its arms wide enough to take them in. Though some of its members are behind prison bars, they are men and women still and should have the sympathy of human hearts."

Women Who Are Envid.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Tall & Co. and the Pendleton Drug Co.

Parson to Address Brewers.

Atlantic City, N. J.—A public session will be held by the United States Brewer's association this evening, at which one of the speakers will be the Rev. Dr. John P. Peters, rector of St. Michael's Protestant Episcopal church in New York, and chairman of the committee of fourteen, which was organized for the suppression of the Raines law hotels. This committee has invited the co-operation of the brewing trade.

Dr. Allen McLane Hamilton, a well known specialist in nervous diseases, will speak from the medico-physiological standpoint.

John Koren, of Boston, a statistician, will speak on the legislative aspects of the liquor problem and local option.

Ten Years of Eczema.

Reports on eczema dating back 10 years show the value of external treatment. Druggist McAllister of this city can tell any sufferer what reports he has been getting from patients who used oil of wintergreen, thymol and glycerine in liquid form, as compounded in D. D. Prescription. It would be interesting to know whether any person cured as much as 19 years ago has had another touch of the disease.

SPORTS OF ALL SORTS.

Jimmy Britt will meet Johnny Summers in London on June 15.

Donnie Sullivan of the Naps is laid up with typhoid fever.

It is being whispered that the Cleveland team is burdened with too many managers.

Before being hurt George Stone of the Browns was hitting them to all corners of the lot.

Low Drill is managing the Superior team in the new Wisconsin-Minnesota league.

Stanley Ketchel says he will fight Bill Papke if the latter comes up with a \$10,000 side bet.

Roger Bresnahan and his Cardinals made monkeys of the Doves in the last St. Louis-Boston series.

The Detroit Tigers have had hard going with the eastern teams.

On account of poor health Johnny Coulon has called off his bout with Monte Attell.

Rochester, Toronto and Montreal are setting a fast pace for first honors in the Eastern league.

The Wichita team, the new member of the Western league, got a good start in select company.

"Big Bill" Kay, the slugger, who led the American league's hitting department in 1907, is now with the Albany team of the New York State league.

No mistake about the Boston Americans drawing the right numbers when they picked out Hooper and Wolter, the California players.

Jem Kondrick, an English bantam-weight, has arrived on these shores and is looking for a bout with some of the little fellows.

By preventing the White Sox from scoring a run in 34 consecutive innings the Athletics are entitled to use the label "Going Some."

Robert Emslie has been an umpire since 1887, when he started with the International league. Since 1891 he has been with the National league.

There is talk of a field day in Boston after the close of the regular season, to which all major and minor league ball players are to be invited.

Very few youngsters have made a better showing with the majors than Tris Speaker with the Boston Americans and "Dots" Miller, with the Pirates.

Evidently George Moriarty is troubled with heat in the head. Twice this season the Tiger third baseman has started to muss up visiting players.

If John McGraw doesn't get his Giants started pretty soon the report of Gotham's hammer and anvil explosion will be heard around the world.

The Galveston Sand Crabs have been making a steady climb in the Texas league since Jack Warner quit the team. Jack allowed frost to gather on his feet too soon.

Al Lippe is trying to arrange a bout in Paris between Harry Lewis and Willie Lewis.

Pitchers Check, Cicotte, Ryan, Arellanes and Morgan of the Boston Americans represent five nationalities.

"Bugs" Raymond is pitching good ball in spite of the fact that the giants seem a pretty wabbling aggregation.

The San Antonio and Dalles teams are putting up an interesting fight for first honors in the Texas league.

"Jigs" Donahue, the former White Sox, should make a good captain for the Washington team. That sounds like a knock.

Pitcher Bell of the Brooklyn team has been showing the heavy hitters of the National league some real pitching for late.

More moving pictures shown than any other theatre in the city—the Pastime.

Now Is the Time Before the Hot Weather to Install a Gas Range.

Are You Compelled to

- work in a hot dirty kitchen, carrying wood and coal and shaking grates,
- start your fire an hour before you will use it, burning up good fuel,
- keep poking the fire and then have only a measly little blaze, making your coffee lukewarm and your hot cakes white and doughy,
- pay a fuel bill big enough to stagger your pocketbook,
- spend nearly all your time in the kitchen, getting yourself all dirty and too tired to go and dress to go out and enjoy yourself.

DON'T YOU THINK YOU HAD BETTER THROW OUT ALL THIS HOT, HARD WORK, BUY A GAS RANGE AND COOK WITH GAS?

Then you can get your meals in your best gown without boiling it. Turn a valve and strike a match and you have a strong, steady, concentrated heat any time of DAY or NIGHT and at a second's notice, and

ALL THESE HOT SUMMER DAYS WILL NOT BE SPENT IN A HOT, DIRTY KITCHEN.

When you're down town drop in our office and let us show you all about a gas range.
