There's a hope for every woe, ,And a balm for every pain, But the first joys o' our heart Come never back again. There's a track upon the deep, And a path across the sea; But the weary ne'er return To their ain countrie! -Robert Gilfillan.

* * * * * * * * * * * * * HENEY'S STALWART WORK.

In prosecuting the San Francisco grafters Francis J. Heney is doing stalwart work. It is work that, is entirely good for San Francisco and for California in spite of the bitter criticism that is made of the prosecution. Heney is being harshly criticised and abused because has has cut deep. In freeing San Francisco from graft he hase been forced to cut close to the heart of that city just as he went close to the heart of Oregon when he prosecuted our land fraud cases

In his argument to the jury in the ment started upon an experiment, that Calhoun case Heney laid stress upon of making the tribesmen their own that fact that corrupt bosses are business managers. In prosecuting Calhoun, Heney has done right. Calhoun was the man "higher up." It was his money that thing at last but he has been very bribed Ruef, Schmitz and the San Francisco supervisors. It was Calhoun's traction company that profited by their dishonesty. It would be a farce, a travesty on justice, to prosecute Ruef, Schmitz et al. and allow Calhoun, the "biggest fish of all" to go free

KEEP THE CITY CLEAN.

Over in Tacoma a health officer has just made a rigid inspection of the restaurants and other public eating houses of that city. As a result of his tour he has given orders that in every public eating house the dishes be thoroughly scalded every time they are used. The restaurant men declare themselves entirely willing to comply with the request.

This incident is here mentioned because it shows how by proper work on the part of city health departments the public health may be protected. sults. He experimented last year and Such inspections are needed in every that that it was a paying proposition. city, whether large or small.

CHOOSING THE VACATION.

Father wants to have it spent In Nature's loveliness, Where the fish in streamlets hide The fishermen to bless; Where, above all other things, He does not need to dress.

Mother wants to have it spent With change of more than air; Wants a room to hold her trunk, For this is all her care;

Where, above all other things, Her new clothes she may wear,

Sister wants to have it spent Quite heedless of the view; All she wants is proper nooks Constructed just for two; Where, above all else, is pressed The old suit ever new.
