MRS. WARNER IS ON THE STAND

TELLS HOW SHE RECEIVED THE CONTESTED DOCUMENT

Supposed That She Was Receiving a Christmas Gift from the Postman—Package Is Delivered on December 15.—Rebuttal Testimony All in This Afternoon.

The finishing touches are now being put on the rebuttal testimony in the Young will contest. Mrs. Mabel Warner herself is on the stand today, telling of the manner in which she received the document which is now being contested and the circumstances surrounding it.

According to the witness it was December 16 that the postman brought to her house in this city the package containing the old leather pocket book in which was found the will. This had been written on a page torn from a ledger and was folded in a blank envelope. Mrs. Warner testified that she looked all through the book before she discovered the envelope containing the will.

She also said that when she first received the package from the hand of the postman she supposed it was an early Christmas gift. Upon opening it, however, she immediately recognized the aged and worn pocket-book as one which had seen her uncle carry.

The rebuttal testimony will all be in this afternoon and then two or three days will be consumed by the contesting heirs in introducing rebuttal testimony.

MAN SUPPOSED TO BE DEAD COMES HOME

New York.—The request of Mrs. James P. Hoover that the police seek her missing husband was the first intimation the public had that he was not buried last Sunday afternoon in the graveyard at New Brunswick, N. J. Mrs. Hoover stated that after an unexplained absence of five weeks she and his relatives identified a body which had been floating in New York bay off Staten Island, as that of her husband, and she spent \$1.25 for the funeral last Sunday which was largely attended. She went into deep mourning.

"Several hours after the funeral," said Mrs. Hoover, "I was startled by the return of my husband, whom I had believed had just been buried. He explained that he had been away looking for work and did not want to come home until he found a job. He remained with me until Monday night, when he went out to meet some friends, and since then he has failed to return, and I would like to have the police find him."

WRIGHT AEROPLANE FLIES FORTY MILES AN HOUR

Washington.—Orville Wright this afternoon made a successful flight in his aeroplane at Fort Myer, remaining in the air five minutes, during which the airship attained a speed of about 40 miles an hour and circled the parade ground half a dozen times. It made a total distance of about three and a half miles. Mr. Wright did not prolong the trial, because the motor was not working perfectly.

Shortly after 7 o'clock the breeze died down sufficiently to permit of a flight. When the signal to start was given, the machine shot forward instantly and mounted gracefully. Mr. Wright guided the flyer to the lower end of the large parade ground and circled around toward the starting point, gradually rising higher from the ground. A burst of applause greeted him as he sped away on the second round.

After passing the crowd the sixth time the aviator descended easily and alighted with no apparent jar, the machine sliding smoothly over the ground until it came to a stop at a point near the shed.

The Wrights intend to make only short flights until the new machine is working perfectly. Then they will make the official test.

NEARLY STARVED TO DEATH ON DESERT ISLAND

El Paso, Texas.—In a pitiable condition from the hardships endured on a desert island in the Tres Marias group, where they were without food or water for several days, 17 survivors of the crew of the gasoline launch Charles Charles Cansen were landed at San Blas, according to dispatches received here today. One of the crew died of starvation.

The survivors were brought to San Blas on the steamer Union, which arrived yesterday.

The gasoline launch was wrecked by an explosion that occurred a few days ago when dynamite became ignited from a gasoline tank that had caught fire. The crew escaped from the launch before the explosion.

NELSON STORE WILL CHANGE LOCATION

Clark Nelson has leased the old Louvre saloon location, next to the Ingram grocery store, and will shortly move his stationery and notion store into that room. The room is to be remodeled from end to end. A fine plate glass front will be installed, a new floor laid and the walls and ceiling painted or kalsomined. When improved the room will be one of the best storerooms in the city.

Not long ago Mr. Nelson purchased the Cook & Perry store in the Smith-Crawford building. He is now conducting the business in that location but will begin soon upon a removal sale. It will be his intention to reduce his stock considerable before changing locations and to this end will carry on a special sale until he has disposed of the surplus stock.

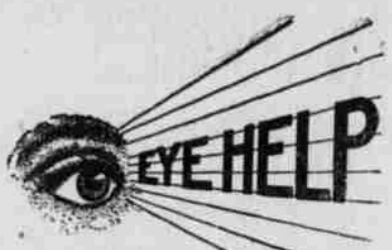

MAKE PLANS FOR SHERMAN COUNTY FAIR

Moro, Ore.—A Sherman county fair will be held in Moro this fall, October 1 and 2. This is in accordance with the senate bill passed by the recent legislature, which provides for the appropriation of \$500 of state funds for the purpose. The matter has been under way for some time, and final arrangements have just been completed.

In conformity with the regulations of the bill, the following men have been appointed by the county court as directors of the fair: A. H. Barnum, C. A. Buckley, L. L. Peetz, Chris Anderson and I. D. Pike. These men are officially known as the board of directors of the Sherman County Branch of the Seventh Eastern Oregon Agricultural society. A. H. Barnum and L. L. Peetz have been elected to the office of president and vice president, respectively. George Mowry has been chosen as secretary and W. D. Wallan as treasurer.

Premiums will be offered for stock and for all kinds of agricultural and house-hold produce. The premium list is patterned more or less after the one that has been used during recent years at the annual fairs in The Dalles. Premiums secured from private contributions will also be offered for trials of speed. This will be the first county fair that has ever been held in Sherman county, and the idea has met with great enthusiasm from the farmers and business men of this district.

THE PENDLETON DRUG CO.
YOUR BEST INVESTMENT—OUR EXPERIENCE

DON'T NEGLECT YOUR EYES

Choose your Optical Specialist to fit your glasses as you would your doctor for skill, experience and ability. We have opened permanent offices in the John Schmidt building, where we devote our entire time to correcting defective vision with glasses. We do not divide our time between tinkering watches and clocks and trying to fit glasses. Common sense ought to teach the public that the human eye is too valuable an organ to be trifled with—by an inexperienced jeweler, who calls himself an optician. I have had over 37 years practice fitting glasses to all kinds of bad eyes, during several years of that time I spent in teaching others the science of fitting eye glasses which made me more proficient, and more capable of prescribing lenses for others. I have associated with me my son, who is an expert lens grinder, therefore you do not have to wait, if you break your glasses we can duplicate any broken lenses usually in a few hours. Cemented bifocals often become opaque or cloudy, we can fix them in a few moments as good as new. I thoroughly understand all the latest methods of testing the eye, and use nothing but scientific methods in correcting errors of refraction.

Having worked in Umatilla county for about four years, we are not strangers, and refer you to the following local citizens whom we have done work for:

Robert Forster and wife, James Callahan, A. H. Rugg and wife, E. J. Murphy, Andrew J. Black and wife, A. W. Nye, A. W. Robinson, C. F. Colesworthy, W. J. Stockman, Mrs. H. Struve, Mrs. W. R.
