**AERONAUT PUTS OUT PORTLAND LIGHTS**  
 Portland, July 23.—Through the fouling of electric light wires by a parachute jumper at 7:45 o'clock last evening, Portland was cut off from "juice" for a period of about half an hour. The accident happened at East Sixth and Wasco streets as Professor Carlos Wildez was attempting to

slight after releasing his parachute from a gas balloon. The parachute dropped across the electric wires at the street intersection and immediately caught fire. Wildez fell to the ground, a distance of about 30 feet, sustaining a sprained ankle.  
 Wildez and Professor Charles DeNora made a double ascension from the grounds of the midsummer fair of the Catholic Young Men's club at the corner of Williams avenue and Stanton street at 7:30 in the evening. A northwest breeze was blowing and both balloons were carried over the city. DeNora made the parachute jump in safety, but Wildez came down directly over the high tension wires carrying the electric current which furnished light and power for a large portion of the city. When the parachute fouled the wires the aeronaut dropped to the ground.  
 Both Wildez and DeNora are pupils of Professor Frank Miller and have been making ascensions and parachute jumps for some time. The parachute used by Wildez was destroyed. His balloon dropped on the roof of the Holladay school and was not damaged.

### CRAZED JAP TRIES TO DROWN HIMSELF

Portland.—Removing his shoes and casting them into the river from the east approach of the Burnside bridge this morning, Y. Fugitoka, a Japanese, whose actions showed that he is demented, was prevented from leaping to his death in the water this morning by Desk Sergeant Harms and Patrol Driver Gruber, who reached the spot from police headquarters barely in time to prevent the suicide. When the Japanese had thrown his footwear into the water he leaped over the rail and evidently debated whether or not to follow them. A man who saw his act telephoned the police, and Harms hurried to the bridge in the patrol wagon. Driver Gruber trotted his horses past the man, and Harms jumped off and seized the Japanese just as he was climbing over the railing, having made up his mind to die. The would-be suicide struggled hard, but with Gruber's assistance was handcuffed by Harms and bundled into the wagon, taken to the city prison and placed in a padded cell. Other Japanese who followed the wagon to the station said that Fugitoka is a laborer, and had recently given signs of being mentally unbalanced. He refused to talk to the police.  
 "Something wrong here," remarked one of the little brown men, tapping his forehead significantly as he gazed at his insane countryman. "If man not crazy, him keep on shoes make jump into water."

**No Woodpeckers in Salem.**  
 Salem Statesman: To the stranger within our gates: The city is not infested with woodpeckers. That noise you hear is caused by the automatic riveting machine which is helping Oregon's capital city to obtain its first steel-frame business block.

### PERSONAL MENTION

K. Sharp of Athena, is a Pendleton business visitor.

 District Attorney Phelps has returned from a brief business trip to Portland and Seattle.

### BEGIN WAR ON THREE HUNDRED CHICAGO GRAFTERS

Chicago, July 23.—One hundred and five graft indictments, involving more than 300 persons, were returned yesterday by the July grand jury before Judge Kleckham Scanlan in the criminal court in State's Attorney John E. Wayman's war on graft—the greatest mass of indictments ever voted in one day in Cook county.  
 Graft in the levee districts, graft in saloons and slot machines in the country towns and graft in Chinese gambling were struck a terrible blow by the grand jury's action.  
 In political circles it was the sensation of the day, for experienced politicians saw in his the start of a great campaign engineered chiefly by the State Attorney's office against the city administration.  
 Huge as was the day's list of true bills, it was reported that these were only a starter and that Mr. Wayman

# ALEXANDER'S Saturday Specials

# Alexander's Dep't. Store

was hot after "men higher up" in the world of graft. It was reported that the prosecutor hoped that some of these small fry would confess.

### HARRY ORCHARD IS BAPTIZED IN PENITENTIARY

Spokane, July 23.—A Boise special to the Spokesman-Review says: Harry Orchard, murderer of ex-Governor Steunenberg of Idaho, according to his confession, was yesterday baptized at the penitentiary. The service was read by Elder Steward of the Seventh-Day Adventist church. Elder Steward made the following statement after the ceremony: "Orchard is a devout convert and feels his sins have been forgiven. He told me today that he had fully determined to commit suicide if sent up for life, but that in his faith he had found consolation and was content to remain behind the prison walls for the remainder of his natural life."

### PANAMA CANAL IS NEARLY HALF COMPLETED

Washington, July 23.—Substantial progress in canal construction all along the line is shown by reports coming to the Washington office of the Isthmian canal commission. Excavation work approximates 80,000,000 cubic yards, almost as much as the total quantity of dirt taken out by the French during the period they were engaged in operations there. Less than 100,000,000 cubic yards of earth remain to be taken from the ditch. Colonel Goethals has estimated that the great waterway will be ready for transit of ships by January 1, 1915.

### LONDON SUFFRAGETTES TOO BAD FOR JAIL

London, July 23.—Six out of 14 suffragettes who were recently imprisoned in the Holloway jail for breaking windows at Whitehall have been released on account of insubordination, and Herbert Gladstone, Secretary of the house of commons today that it was only a question of a few days until all would be turned out.  
 The women were defying all the prison rules, and now Mr. Gladstone said they had taken to kicking and biting the female wardens.  
 There are 30 different kinds of new roses for this year alone in England where rose culture abounds.  
 There is still pending in the English law courts a case which was initiated in 1707.

### ONE MAN'S LEG SAVES ANOTHER MAN'S LIFE

Portland.—George A. Stockder, a traveling salesman who was frightfully burned about his face and body on the morning of May 24 last by an explosion of gas in his apartments at 763 Marshall street, and whose condition had been critical until a few days ago, is on the road to swift recovery, all because Charles Hazerty of La Grande, Ore., suffered an accident that necessitated the amputation of his right leg.  
 The attending surgeons skillfully cut the skin from Hazerty's amputated limb and placed it on Stockder's body in places where his own flesh

had been burned and refused to heal. Thus by a strange process will the traveling salesman soon be able to go about his business, while the La Grande logger will stump about, finding some compensation for his loss in the fact that the leg, useless to him, was the means of saving another man's life.
