

# NORTHWEST NOTES

### New Sawmill Near Wallowa.

Wallowa, Ore.—Haland Bros. of North Dakota, have purchased a new sawmill which will be installed three miles north of the Sprindale school house, and 12 miles northwest of this city.

### 3 Inches at Weston.

Weston, Ore.—The first snow of the season has covered the ground in this vicinity to the depth of about three inches. On the mountains two feet or more of snow has fallen, which is most unusual at this time of the year.

### Farmers' Line Extended.

Husum, Wash.—The Farmers' Mutual Telephone company of Bickleton proposes to extend its lines to Mabton in Yakima county, and Roosevelt on the S. P. & S. The company has 80 subscribers.

### 8 Above at La Grande.

La Grande, Ore.—Following the snow storm of last week the thermometer went down last night to 8 above zero. Many waterpipes have been frozen and the past week has seen more snow and colder weather than November week in many years.

### White Salmon River High.

Husum, Wash.—The recent heavy rains caused the White Salmon river to go on a rampage, the stream being the highest in years. The many logs accumulated along its banks moved with the flood, causing the wreck of several water wheels owned by private ranchers.

### Alleged Check Raisers Arrested.

Baker City, Ore.—Two alleged bad check artists have been landed in the county jail here from Huntington, where they were given a preliminary hearing before Justice Woods on the charge of raising a check for \$7 to \$79. The names of the men are Tilley and Bell, and little is known of them in this section. They were given the check for \$7 in payment for some work but the change was noticed and they were arrested. They will be tried at the December term of the circuit court.

### Rains Make Good Range.

North Yakima, Wash.—The wool growers of the Yakima valley consider the rains which have fallen here in the last week a God send. It has brought on a fine stand of grass on the lower ranges, and there is now grazing in the Horse River country. H. Stanley Coffin, one of the largest sheep men in the valley, has just returned from his winter quarters for

his sheep at Kennewick, and reports that the grass on the ranges down there is two inches high and that from 10,000 to 12,000 sheep are now being grazed there. This number will be largely increased as the season advances.

### Benson Appoints Delegates.

Salem, Ore.—Delegates to the National Farm Land congress, to be held at Chicago from November 16 to 20, have been appointed by Governor Benson as follows:

J. W. Perkins, Roseburg; J. M. Kyle, Stanfield; F. S. Stanley, Portland; Jesse Stearns, Portland; James A. Wilson, Hood River; S. G. Campbell, Hood River.

### Baker Enjoys Weather.

Baker City.—Baker City is enjoying some of the finest weather in several days. It had been warm and cloudy last week and Sunday the cold snap came. Sunday night the thermometer dropped to 7 above zero. Today is clear and warm and the sun indications are for moderately warm weather. There was a slight snow Sunday with a heavy fall in the hills and mountains. The change was expected, and no damage is reported.

### On Their Honeymoon.

Grant, Ore.—Honey-mooning after their wedding at San Francisco last night, Mr. and Mrs. Edward J. Brown, nee Blington, until last Wednesday, left for Daniel Frohman, passed through this city on the Shasta limited over the Southern Pacific this morning at 10 o'clock. They are en route to Tacoma, where Mr. Brown has built a palatial home. They will reach Portland tonight and will immediately depart for Tacoma.

### 27 Above at 10 Years.

Dufur, Ore.—The thermometer registered 27 above zero at daylight here this morning which is the coldest for this time of the year that this vicinity has experienced in almost 40 years. About two inches of snow fell Friday night and most of it is still in the ground, which is a great measure will protect the wheat, which has come up and is growing nicely. On account of the suddenness of the cold snap many waterpipes were frozen.

### 27 Above at Walla Walla.

Walla Walla, Wash.—With the thermometer 27 degrees above zero a new cold weather mark was set for Walla Walla last night. Never before so early in the winter has the thermometer come so low. Four inches of snow fell Saturday, little remaining

on the ground in the city, but on the mountains is deeper and the cold seems worse because of white on the hills. The damage is not heavy, although some orchardists still had apples on the trees, and these were frozen. The weather this morning is clear, with indications that it will remain so.

### New Bleachers at Oregon.

University of Oregon, Eugene.—In preparation for the record breaking crowd which will attend the football game at Eugene next Friday, additional bleachers to accommodate 1500 spectators have been constructed on Kincaid field. The old bleachers built last year will be given over to the Corvallis contingent, who are expected to come fully 2000 strong. The work has been done entirely by students, who volunteered their services in response to Manager Goodman's request for more seating capacity on the field.

### 3 Inches Snow in Grand Ronde.

Union, Ore.—Three inches of snow fell throughout the Grand Ronde valley last night, which is the first snow of the season in this section other than that in the mountains. The snow is more beneficial than harmful and will greatly aid in the fall grain, which is more than three-fourths in. The rains of the past week or two have made the mountain roads impassable for lumber hauling, and a freeze or cessation of rain and snow will be necessary before the work is resumed. The snow is melting rapidly and it is thought no damage will be done to apples as they are mostly all picked and in packing sheds ready for shipment.

### Theatrical War in Baker.

Baker City.—A theatrical war is on in this city over the action of the Bloomfield orchestra in violating its contract with the Orpheum theatre, a local vaudeville house. Professor Bloomfield, manager of the orchestra, contracted to play for a given length of time, which does not expire for a month.

Recently he leased a theatre for himself, but when the time came for him to open this week he was served with an injunction restraining all members of the orchestra to give open air concerts, as has been their custom, or to play in any other theatre except the Orpheum until the expiration of his contract.

Professor Bloomfield secured a local orchestra to play at his theatre, the Lyceum, and is now backing the Orpheum in every way possible.

### "WHITE SLAVE" CODE IS FOUND

Chicago.—Detectives employed by Attorney Clifford G. Roe in the white slave crusade have secured a copy of an elaborate code used by a band of Chicago procurers in communicating with companions in transit and in other cities. From the nature of its text, the code system was used principally in warning anders traveling with young girls of possible police interference and danger of arrest. But the code also contains phrases relating to remuneration for delivery of girls and others explanatory of particular types of girls desired by resort owners.

"The finding of this code," declared Attorney Roe, "is a revelation of the extent of traffic in girls that will doubtless shock many unacquainted with the situation. For some time we have been hunting for it for weeks. The code proves conclusively that white slavery is not merely a small phase of vice, but that it is a big, well systematized business in which hundreds of men in Chicago are actively engaged, not spasmodically, but every day of the year."

Here are several phrases and their keys relating to precautions to be taken in avoiding detection as contained in the code book:  
Did you get my message? Leave train at Englewood and take street-car or taxicab downtown.  
Is mortgage paid?—"Stach." (underworld term meaning to place in temporary hiding or seclusion) the girl and come into town alone.  
Want immediate settlement—Be careful. Have hunch that police are on the job.  
Morning quotations are 47—"Stall" (slang term, meaning hold off or delay) the girl downtown until you phone for instructions regarding delivery.

Board of trade contract is paid—"Ditch" (meaning to drop) the girl right away and get to cover. Have information that relatives or friends are close on your trail. Wire place of hiding and we will forward money.  
That a code was used in smuggling girls into the city from all directions is shown by the following references to various cities and towns.  
Am taking the Northland—Leave train at Milwaukee and take steamer down the lake to Chicago.  
Your credit is good with us—Don't come in direct from the west. Make credit to north or south and telephone when you reach the suburbs.  
Steel stocks are good—Use interurban from Aurora or Elgin; will have cab or auto waiting in Fifth avenue.  
There are a total of more than 200 separate signals and explanatory phrases contained in the code. All are listed in alphabetical order and by the use of added words each phrase is made to do service in three different situations.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors recommended diet and prescribed local remedies, and by constantly failing to cure with local treatment, Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.  
F. J. CHENEY & CO., Toledo, O.  
Sold by all Druggists.  
Take Hall's Family Pills for constipation.

### WANT GRANGES' HELP IN REVISING BIRD LAWS

New York.—The National Association of Audubon Societies has issued a circular letter to all the granges advocating a revision of the bird laws in this country for the protection of the birds and the benefit of the farmers. The letter reads:

"If the bird laws are to be improved, it can only be done through the powerful influence of the grangers, who are more deeply interested than any class of citizens. Every bird that is wastefully destroyed means loss of money to the agriculturists of New York. The millinery trades do not wish the bird laws changed; it fights every attempt to improve them.

"Have you ever contrasted the relative size of the two interests—millinery and agriculture? If not, carefully examine the following figures taken from the last United States census report (1900):

"Capital invested in the millinery (wholesale and retail) business in New York state, \$11,805,503.

"Capital invested in agriculture in New York state:

Land, \$551,174,220.

"Farm buildings, \$337,000,000.

"Total, \$888,174,220.

"There are 226,720 farms in the state. Almost 250,000 farmers and their families depend on the products of these farms.

"There are 22,648,109 acres in these farms; insect and rodent pests that destroy crops, entailing enormous losses annually.

"Birds are the means supplied by the Creator to keep in check insect and rodent pests.

"Farmers, are you willing to have your best friends destroyed? In 1900 you spent \$27,102,130 for labor. The birds work for you without pay. Can you do less for them than to see that they have the fullest legal protection?"

### A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Koeppen Bros.

### PROMINENT MEN WILL BE GUESTS OF APPLE SHOW

Spokane, Wash.—Governor Hay of Washington, Governor Benson of Oregon, Governor Brady of Idaho, Governor Norris of Montana, the lieutenant governor of the province of British Columbia and the presidents of agricultural colleges and horticultural associations of the four states will be guests of honor of the officers of the National Apple Show, Inc., on November 15, when President Fair formally opens the second exhibition in Spokane by pressing a golden key at Washington, D. C. The visitors will be received by a citizens' committee of 50, headed by Mayor Nelson S. Pratt, and including the city and county commissioners.

### A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold, prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Koeppen Bros.

### Four Acres Bring \$3250.

Chevelah, Wash.—Mrs. Nettie B. Gourley has sold four acres north of Chevelah to M. S. Taylor of Reardan, Wash., for \$3250. This land sold six years ago for \$15 an acre. Land near Chevelah has increased in value in some cases 600 per cent.

### No Case on Record.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. Koeppen Bros.
